BY APPOINTMENT

Carters Tested Seeds, Inc.

133 KING STREET EAST

TORONTO

To facilitate the execution of
your order, please order all
seeds by the registered number
and price.

BY APPOINTMENT.

All of Carters Tested Seeds are
offered by weight, measure, or
number, at prices which place
them within the reach of all
growers.

CARTERS IN CANADA.

THE establishment of a Toronto branch of our business has been attended with unqualified success. For little more than seven years we have been sending Seeds to all parts of the Dominion from our Canadian address, and we find an immense demand for Carters Tested Seeds. Amateurs, Florists, Market Gardeners, and Farmers have been supplied, and results have shown the superiority and individuality of Carter goods. The testimonials, which are strictly limited in number by space, amply prove that Carters Tested Seeds are fully acclimatised and the best ever offered in Canada.

These results are due solely to the extreme care taken in the production of seeds. This care commences with the sowing of the crops in various parts of England, on the continent of Europe and in America, all under the constant supervision of our expert staff; the pick of the world's seed harvest is garnered at our model establishment at Raynes Park, London, England. Here come thousands of all nationalities interested in the various processes which we alone employ for cleaning, grading, germinating, and packeting. A cordial invitation is extended to all, and visitors from Canada will find a particularly warm welcome. A few minutes' run out of London on the L.S.W. Railroad brings one to our premises, and when on a visit to the Old Country the opportunity should not be missed.

Of absorbing interest will be found the unique methods for the individual examination of all seeds after treatment by machinery. Machinery that itself appears to possess superhuman cunning; botanical laboratories among the finest in Europe, and above all, Assistants, whose knowledge is equalled by their courtesy, on duty to explain our processes to you.

TERMS AND CONDITIONS OF GUARANTEE.

Our terms from unknown correspondents are net cash with order. We deliver anywhere within the limits of the city of Toronto. We deliver free in Canada to any post office, railroad, express office, or freight station at our expense, all vegetable and flower seed orders at the packet, ounce, quarter-pound, half-pound, and pound price; also bulbs at the single and dozen rates, except where otherwise noted. Purchaser must pay transit on pints, quarts, pecks, and bushel lots, collections of vegetable seeds; also plants, bulbs at hundred and thousand rates, tools, fertilizer, and insecticides, &c. When ordering pints and quarts of peas, beans, or corn charges prepaid, please remit in addition to price at the postal rates from Toronto as shown on the following table. One pint of peas weighs about one pound, one quart about two pounds:—

Conditions of Guarantee of Quality.—We guarantee our seeds according to the quality purchased to be of the highest average standard of vitality of the season, and it is open to the purchaser to confirm this by submitting the samples to professional analysis at his own expense. We cannot, however, be in any way responsible for the produce of Seeds sold under this guarantee, or for errors of description; and it must therefore be clearly understood that our responsibility ceases upon the final acceptance of the Goods.

MARKET GARDENERS.

Market Gardeners and other growers in quantity are respectfully requested to write on their business stationery or to send their trade card. Special catalogue will be mailed by return.

BEET

THE CULTIVATION OF BEETS.—The seed should be sown from as soon as the ground can be worked in spring until July 1st, in soil that has been well trenched and manured. Let the rows be about 1½ feet apart, thin them to allow about 9 inches between the plants, and keep the soil well cultivated during the summer. 1 oz. of seed will sow 50 feet of drill, 5 to 6 lbs. per acre.

- 6 **Carters Crimson Ball.**—A round summer variety. Fine specimens of this variety have been exhibited in Gold Medal Collections, and during the past few seasons 65 First Prizes have been reported.
- 7 **Carters Dainty.**—This is a small-growing variety of more than ordinary merit. It has long slender roots of a splendid deep, crimson colour, and of the finest flavour possible.
- 12 **Carters Perfection.**—We continue to reselect this fine Beet, which is now a perfect and refined root. Medium size, rich crimson lake colour, and splendid flavour; foliage shining and dark.
- 27 **Carters Selected Stock, Crosby's Egyptian.**—The roots are flat, round and run very uniform in size and shape, the flesh being a rich red in colour and very sweet.

	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above.....	10c.	15c.	25c.	85c.

- 13 **Carters Blood Red.**—A very fine long variety, with well-shaped roots of splendid deep colour and of good flavour.
- 14 **Carters Improved Dark Red.**—A splendid long Beet of excellent quality.
- 19 **Egyptian Turnip-rooted.**—Good stock; useful for shallow soils; round and flat.
- 21 **Spinach (PERPETUAL SPINACH).**—Leaves thrown up in profusion, and largely used as a substitute for Spinach.

	½ oz.	1 oz.	¼ lb.
Price of the above.....	10c.	20c.	70c.

28 **Swiss Chard.**—An improved type of a delicious vegetable, in reality a Beet, in which cultivation has developed the leaves and ribs instead of the root. It is sown at the same season as Beetroot, in rows about 1½ feet apart, and the plants thinned out to 1½ feet apart.

	¼ oz.	½ oz.	1 oz.
Price of the above.....	15c.	25c.	40c.

BEANS

All Beans mailed free up to the pint if ordered with other goods. Add postage at zone rates if ordered alone. Purchaser pays carriage on quarts. Average weight, 1 pt. equals 1 lb.; 1 qt. equals 2 lbs.

ENGLISH BROAD WINDSOR

CULTIVATION.—The English Broad Bean has a flavour different and superior to all others. The best plan is to select medium soil that has been deeply worked and well manured for a previous crop. Sow the seeds as early in the spring as possible, spray for fly, pinch out the tops when fruit is set, and before hot weather commences mulch the ground in the neighbourhood of the plants with a two-inch coating of manure. Sow 2 bushels to the acre, or 1 pint for 50 ft. of drill.

- 56 **Carters New Colossal Windsor.**—This immense Bean is, both in pod and seed, by far the largest Broad Bean ever raised.
- 40 **Carters Leviathan (WHITE SEEDED).**—A champion exhibition variety. We continue to re-select this well-known Broad Bean, the seeds being carefully saved from the finest pods taken from the most prolific plants, so that our customers may feel they are growing really the very finest Broad Bean in cultivation.

65 **Carters Green Leviathan (GREEN SEEDED).**—We introduced this fine Bean as a fitting companion to its prototype, CARTERS LEVIATHAN white seeded.

	¼ pint	½ pint	pint
Price of the above.....	25c.	45c.	85c.

- 57 **Carters Improved Broad Windsor.**—Large and productive, bushy habit; well podded from top to bottom of stem.

70 **Carters Green Windsor.**—A distinct and valuable green selection.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	35c.	65c.	\$1.15

No. 86—CARTERS SUNRISE DWARF BEAN

No. 6—CRIMSON BALL BEET

BEANS—Continued

ENGLISH DWARF OR BUSH

THE CULTIVATION OF BUSH BEANS.—Seed can be planted from the beginning of May until August, but not until the soil become sufficiently warm, as they are particularly sensitive to cold. Plant in drills, 1½ ft. apart, covering the seed about 2 in. Keep the soil well cultivated, using care to do so only at times when it is quite dry, as earth scattered on moist foliage creates rust.

- 86 **Carters Sunrise.**—For forcing or outdoors. A distinct and valuable first early Dwarf French Bean, raised at our grounds from the result of a cross between NE PLUS ULTRA and CARTERS PERPETUAL. CARTERS SUNRISE is a most valuable addition, for it not only possesses the good forcing quality of the NE PLUS ULTRA, but is a much better cropper, and produces larger and superior pods. Very compact growth and remarkably early.

89 **Carters Magpie.**—The new longstanding variety. It is an excellent forcer. In habit it sometimes resembles our celebrated PERPETUAL, but is a heavier cropper, the pods also being larger and longer, although of equal quality and flavour. We most strongly recommend this introduction.

	¼ pint	½ pint	pint
Price of the above.....	25c.	45c.	85c.

- 85 **Carters Perpetual.**—It is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size. The most important features are the prolonged period this variety continues to bear, and its remarkable quality for withstanding hot and dry seasons.

- 87 **Carters Stringless Dwarf French Bean, Holborn Wonder.**—The great success which has attended our introduction of the first stringless Green-podded Bean, CARTERS CANADIAN GLORY, has encouraged us to pursue our efforts in selecting Stringless Beans for general use.

- 88 **Carters Stringless Dwarf French Bean, Canadian Glory.**—An extra early dwarf green-podded French Bean, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable eaten as a FLAGEOLET or HARICOT.

- 91 **Carters Longsword, Re-selected Stock.**—This variety has been improved and re-selected, and as now offered is one of the largest podded French Beans on the market.

- 90 **Carters Canadian Wonder.**—We were one of the first to make the merits of this fine Dwarf Bean known, and its popularity to-day is probably unequalled. Our stock is the finest obtainable, and produces an abundance of very long fleshy pods, making it a great favourite both for table and exhibition.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	35c.	60c.	\$1.00

AMERICAN DWARF OR BUSH

- 138 **Black Valentine.**—A standard sort; round long pods.
- 143 **Refugee or 1,000 to 1.**—A late planting variety, with large, handsome, tender pods. The best for pickling.

- 146 **Early Mohawk.**—Very early and hardy. Flat podded variety.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	30c.	50c.	90c.

AMERICAN WAX-PODDED OR BUTTER

Early Golden Wax.—A well-known popular variety, of excellent quality. It is stringless and brittle, and will produce a very heavy crop.

Wardwell's Kidney Wax.—Good cropper, straight white pods.

- 153 **Davis Kidney Wax.**—A very hardy, well-shaped, tender white-seeded Bean. A great favourite.

Rust-proof Wax (Black Seeded).—A productive bean, free from rust.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	35c.	60c.	\$1.00

BEANS—Continued

AMERICAN DWARF OR BUSH LIMA

THE CULTIVATION OF BUSH LIMA BEANS.—Select soil that is warm, rich, and well supplied with vegetable matter or humus. Plant as early as soil can be worked in the spring. Prepare the rows 2 feet apart, and allow each plant a space of 6 inches in the row. As these beans are very slothful in growth, a top-dressing of well-rotted manure or some good fertilizer or compost around the plants will aid greatly in hastening maturity, besides increasing the yield.

166 **Burpee's Bush Lima.**—A dwarf form of the LARGE WHITE LIMA. A very early and of good quality.

167 **Henderson's Bush Lima.**—Exceedingly productive. Valuable also for the fact that it matures two or three weeks earlier than any of the other varieties of Lima Bean.

Price of the above.....	¼ pint	½ pint	pint	quart
	20c.	35c.	60c.	\$1.00

"I did fairly well with your seeds, two first for Beets short and long; second for Broad Beans, and second for Peas."—S. PATON, ESQ., Virden, Man.

"I purchased a quantity of seed from you last spring which was highly satisfactory. At our Show in Peel County I exhibited vegetables grown from your seed. They were not only highly commented upon, but captured the Gold Medal given for the best collection of six vegetables. You will see me again for my seeds next year."—WALTER G. PINE, ESQ., Port Credit, Ont.

"The Beans CANADIAN WONDER got first and only prize at Galt Show."—G. PINKETT, ESQ., Galt, Ont.

POLE BEANS

THE CULTIVATION OF POLE BEANS.—Pole Beans, especially Lima Beans, show better results from a warm and very rich loamy soil. The seed should be planted when the soil has become thoroughly warmed through in the spring. Should the ground be cold or soggy, the seed will rot. Poles from 5 to 8 ft. in length should be set in rows 4 ft. apart and 3½ to 4 ft. between the poles. Plant 4 to 6 beans around each pole, and as the plants make a showing thin out to 3 plants to the pole. Cultivate freely, and if possible top-dress around each hill with a quantity of well-rotted manure compost or some good fertilizer. When hoeing, work this dressing well into the soil. Sprouted Lima Beans transplant easily. Climbing varieties of French Beans may be sown under glass whenever desired, in pots large enough to allow staking. Be cautious in sowing the French varieties out of doors until quite sure that the warm season is well established. 1 quart of pole Beans will plant 200 hills. 1 quart of pole Lima Beans will plant 100 hills.

ENGLISH POLE BEAN, SMOOTH PODDED

Carters Scarlet Emperor

117 **Carters Scarlet Emperor** (THE LONG SMOOTH-PODDED SCARLET RUNNER).—Fully maintains its great reputation, and its popularity still increases, as our sales strikingly show. Its long, handsome pods, often measuring 1 ft. 3½ in., hang in great clusters, and it has been estimated that the produce from CARTERS SCARLET EMPEROR is twice as great in bulk as may be expected from the ordinary type of Scarlet Runner, and all of the most refined quality.

Price of the above	¼ pint	½ pint
	25c.	40c.
	pint	quart
	75c.	\$1.30

No. 117 *Carters Scarlet Emperor.*

POLE LIMA BEANS

175 **King of the Garden.**—A vigorous grower, bearing large pods varying in length from 5 to 6 in.

176 **Sieva or Small Lima.**—A very productive and hardy Bean, the earliest of the pole Limas.

173 **Dreer's Improved.**—An early variety of excellent qualities and great productiveness.

174 **Large White.**—It is considered one of the most tender and delicious Beans grown.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	30c.	50c.	.90c.

POLE BEANS, WAX-PODDED VARIETIES

126 **Mont d'Or or Golden Butter.**—This is perhaps the earliest Wax Pole Bean grown, and the result shows a vigorous growth of plump, meaty pods, 6 to 8 in length.

	¼ pint	½ pint	pint
Price of the above.....	20c.	35c.	60c.

AMERICAN POLE BEANS, GREEN-PODDED VARIETIES

190 **Horticultural or Speckled Cranberry.**—The best pole shell Bean grown, although it can also be used as a snap Bean. It has a pale-green pod, but becomes streaked with red when mature.

191 **Kentucky Wonder or Old Homestead.**—A long, green-podded sort. The vine makes a very vigorous growth and produces quantities of large pods, which grow in great clusters and are of fine quality.

	¼ pint	½ pint	pint	quart
Price of the above.....	20c.	30c.	50c.	90c.

"I am a jobbing gardener, and I had some seeds from you in the spring, and they made good, especially the CANADIAN WONDER BEAN. I took first prize at the show here. They are excellent croppers, and, in fact, I have had beans all summer, and still picking yet."—WALTER COOK, Galt, Ont.

"I had the best results principally in Longsword Beans and QUITE CONTENT PEAS, which every one admired, and I beg to enclose an order which I would like you to fill immediately."—L. O. ST. JACQUES, ESQ., Montreal, Que.

"Received the following prizes for vegetables grown from Carters seeds:—First for Broad Beans; First for Runner Beans; Second for Carrots (RED ELEPHANT); Second for Pansies; Second for Collections of Vegetables."—MR. THOMAS COSSAR, Kenora, Ont.

200 CARTERS DWARF EXTRA CURLED KALE

BORECOLE OR KALE

THE CULTIVATION OF KALE.—Sow the seed early in the spring, covering the seeds thinly and evenly. Transplant in June, and cultivate the same as Cabbage, leaving a space of 2 feet between the plants. 1 oz. of seed will produce 5,000 plants. Sow 4 lb. of seed to the acre, or 1 lb. if intended for transplanting.

198 **Carters Russian Kale** (CHOU DE RUSSIE).—A distinct and extremely hardy variety. The leaves are very curious, in form somewhat resembling a deer's antler of singularly thick substance, and of a peculiarly green colour. When cooked this is the most delicious variety of Kale which we have ever tried, the young shoots especially being particularly delicate in flavour.

199 **Carters Welsh Kale.**—A hardy variety of very handsome appearance; of medium height, the leaves are long and densely curled, but are more narrow than our HALF TALL SCOTCH variety. The flavour is particularly good.

	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above.....	10c.	20c.	35c.	\$1.00

BORECOLE OR KALE—Continued

- 200 **Carters Dwarf Extra Curled Kale.**—A re-selected and crested form of the Early Kale. It will resist the most intense frost, and makes a delicious winter dish.
- 201 **Carters Half Tall Scotch Kale.**—A fitting companion to our well-known DWARF EXTRA CURLED type. The leaves are very dense and moss curled. Stands the coldest weather, and the greater the frost the more delicate the leaves eat.
- 202 **Carters Drumhead Kale.**—A valuable winter vegetable, with a solid, cabbage-like head. Quite delicious when cooked.
- 204 **Carters Mammoth Tall Scotch Kale.**—A very robust variety.
- | | | | | |
|-------------------------|---------|---------|-------|---------|
| | 1/8 oz. | 1/2 oz. | 1 oz. | 1/4 lb. |
| Price of the above..... | 10c. | 20c. | 30c. | \$1.00 |

BROCCOLI

THE CULTIVATION OF BROCCOLI.—This vegetable resembles Cauliflower, and is much hardier. The seed should be planted in hotbeds during March and April for an early crop. Transplant during May or June in rows 3 to 4 feet apart, and the plants about 2 feet apart in the row. A good, deep, well-manured soil is required for success. 1 oz. of seed will produce about 2,000 plants.

- 235 **Veitch's Self-protecting.**—Early variety, with good hearting quality.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	10c.	15c.	25c.	45c.

- 282 **White Cape.**—A distinct variety of a creamy-white colour.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	50c.	90c.	\$1.50	\$2.50

BRUSSELS SPROUTS

THE CULTIVATION OF BRUSSELS SPROUTS.—Sow the seed in March or April in hotbeds, or in the open ground when weather permits; transplant when about 3 inches high in rows about 2 feet apart and cultivate like Cabbage. The crop will be ready for use in the late autumn after the early frosts. 1 oz. of seed will produce 1,500 plants.

- 221 **Carters Holborn Exhibition.**—A very fine strain the result of many years' careful selection. Its points for size, colour, and productiveness are good all round. It is of medium height with large solid sprouts.

- 223 **Carters Perfection.**—Perfection in every way. A standard variety for general use. It is a taller growing variety than our EXHIBITION strain.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	10c.	20c.	30c.	50c.

- 227 **Dalkeith.**—Sprouts of good size and colour.

	1/4 oz.	1/2 oz.	1 oz.
Price.....	10c.	20c.	35c.

221 CARTERS HOLBORN EXHIBITION BRUSSELS SPROUTS

CABBAGE

THE CULTIVATION OF CABBAGE.—For plants of the early varieties sow the seed in February or March, under glass, and prick out into flats or frames about 2 inches apart each way. Transplant to the open ground as soon in the spring as the land can be properly prepared. The plants should be placed from 1 1/2 feet to 2 feet apart in rows, which should be at least 2 feet apart. They should be kept well cultivated, and during drought should be thoroughly irrigated if this is possible. The plants do best in a rich, warm, fibrous soil. The seed of the late Cabbage should be sown in drills in the open ground during April and May and transplanted in June or July, leaving more room between the plants than was allowed for the early sorts. 1 oz. of Cabbage seed will produce about 3,000 heads.

304 CARTERS MAMMOTH BEEFHEART CABBAGE

CABBAGE—Continued

- 289 **Carters Early Heartwell.**—An early Marrow Cabbage of refined quality and delicate flavour; without doubt one of the best varieties in cultivation.

- 304 **Carters Mammoth Beefheart Cabbage.**—The finest garden Cabbage grown. It is some years since we introduced this variety, but each season it becomes more popular, and we confidently recommend this highly selected strain as being not only the largest, but one with the least tendency to bolt. It is much more robust and hardy than many of the small varieties now recommended for early summer use.

- 329 **Warren's Stonemason.**—A popular variety. The heads are very large and round and slightly flattened; very solid and crisp.

- 331 **Danish Ball Head.**—An extra hard heading variety originated in Denmark. It is a medium-late sort, but is sown mostly for winter use, because of its fine keeping qualities.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	25c.	45c.	80c.	\$1.40

- 330 **Copenhagen Market.**—This sort is the earliest and largest of any ball or round head type grown. The heads weigh 10 to 12 lbs. and are very solid and of excellent quality.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	30c.	50c.	90c.	\$1.75

- 306 **Christmas Drumhead.**—A small solid-hearted variety largely grown by market gardeners. Owing to its compact habit this variety can be grown close together. Remains in season over a very long period.

- 296 **Carters Model.**—As a succession to CARTERS HEARTWELL, this is a useful variety. Its heads are firm and compact, and come close to the ground.

- 294 **Carters Pioneer.**—A valuable early Cabbage, rather larger than our SPRINGTIDE, maturing a few weeks later and forming a valuable succession to that variety. An excellent type for main crop where medium size and first-class quality are desired.

- 288 **Carters Springtide.**—A dwarf variety, very early. The hearts are of perfect form and flavour. This choice little variety is practically all heart. There being few outside leaves, almost the whole plant can be used for culinary purposes.

- 312 **Carters Summer.**—One of the largest headed varieties; very white hearts, good flavour.

- 305 **Carters White Prizetaker.**—A good variety with short leaves and white heart; strongly recommended for autumn use; flavour exceptionally mild.

- 332 **Early Jersey Wakefield.**—An early conical-shaped Cabbage of fine quality; very popular.

- 333 **Early Winningstadt.**—Adapted for light soils. Pointed head, early to medium.

- 310 **Carters Red Pickling.**—This is the most perfect type of Red Cabbage; the hearts being very hard and compact and of a rich deep crimson, the colour also of the outer leaves being much darker than any other variety we know.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	20c.	35c.	60c.	\$1.00

288 CARTERS SPRINGTIDE CABBAGE

SAVOY CABBAGE

- 339 **(NOVELTY) Cartercone.**—A small perfectly-shaped Savoy. The heart is a perfect cone in shape, whilst its absolute freedom from coarseness ensures its success for table use.
- 343 **Carters Giant Green.**—An improved type of Savoy with crimped foliage; the individual leaves are very large, but retain their tender properties longer than any other variety.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	20c.	35c.	60c.	\$1.00

- 340 **Carters Drumhead.**—Good Stock; large hearting variety.

- 341 **Dwarf Green Curled.**—Very compact and hardy; one of the best for general use.

	1/8 oz.	1/2 oz.	1 oz.
Price of the above.....	25c.	45c.	85c.

COLEWORT AND COUVE TRONCHUDA

- 355 **Carters Hardy Green Colewort.**—A useful hardy Brassica throwing about six small Cabbage to a stalk.
- 356 **Couve Tronchuda, Portugal, or Sea Kale Cabbage.**—The thick fleshy mid-ribs of the largest leaves are sometimes used and prepared in the same manner as Sea Kale.

	1/8 oz.	1/2 oz.	1 oz.
Price of the above.....	10c.	20c.	35c.

CAULIFLOWER

THE CULTIVATION OF CAULIFLOWER.—For the earliest Cauliflower sow the seed in hotbeds or greenhouse during February or March and transplant to flats or cold frames 2 or 3 in. apart each way. Set in the open ground as early in the spring as the ground can be properly worked. Plants should be 2 1/2 ft. apart each way. The soil should be warm, very rich, and fibrous, with an abundance of humus and moisture. A copious supply of water during the dry spells, especially during the heading period, will help. For late Cauliflower start plants in the open ground and treat as late Cabbage. When the heads have formed they should be blanched by drawing the leaves together and tying. 1 oz. of Cauliflower seed will produce 3,000 plants.

- 393 **Carters Forerunner.**—The quickest Cauliflower ever grown. Ten days earlier than others. Large white head, solid, good size.
- 395 **Carters Defiance Forcing.**—This superb variety is without doubt, one of the finest forcing varieties ever introduced; produces fine solid heads. In perfection during early summer.

	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above..	60c.	\$1.00	\$1.75	\$3.25	\$6.00

- 398 **Snowball.**—This is an old, well-known variety which we can strongly recommend to the Canadian gardener. It is valuable for forcing under glass for a winter crop, and equally valuable for outdoor work, and consequently much esteemed by both private and market growers. It has a compact, upright habit, and forms fine white, hard heads.

- 404 **Carters Extra Early Autumn Giant.**—This magnificent Cauliflower is more dwarf, considerably earlier, and in every respect better than the old AUTUMN GIANT. It produces enormous snow-white heads, and is admitted to be the largest and earliest of the giant forms that are of such value during September and October.

	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above..	60c.	\$1.00	\$1.75	\$3.00	\$5.50

- 415 **Autumn Giant.**—Well known. One of the most popular Cauliflowers in cultivation, succeeding immediately our EXTRA EARLY AUTUMN GIANT. Heads of enormous size and fine texture.

- 418 **Walcheren.**—A splendid mid-season variety, with solid large white heads.

	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above..	40c.	70c.	\$1.25	\$2.25	\$4.00

CARROTS

366	376	379	377
CARTERS	CARTERS SUMMER	SCARLET	CARTERS RED
EARLY MARKET.	FAVOURITE.	PERFECTION.	ELEPHANT.

THE CULTIVATION OF CARROTS.—This vegetable does its best in a warm, deep, rather light, and fairly fertile soil that is well supplied with humus. Sow the seed in May and June for early crops, and June for autumn crops, in drills 1 ft. apart, covering the seed 1/2 in. in depth. As the young plants appear thin out to from 3 to 5 in. apart, according to the size of the expected variety. Keep the soil well cultivated, as weeds are a sure death to young carrot plants. Keep irrigated during droughts if it be possible. 1 oz. of seed will plant 100 ft. of drill, 3 to 4 lb. to the acre.

- 362 **Carters Golden Ball.**—A most distinct and small early variety, specially adapted for forcing and frame work. The roots are almost as round as a turnip, flavour excellent and melting.
- 363 **Carters Improved Early Horn.**—A perfect type of stump-rooted Carrot, of excellent flavour.
- 365 **Carters Long Forcing.**—A handsome long Carrot, with the same depth of color and firmness of texture in its earliest stages as other Carrots possess in their later growths.
- 366 **Carters Early Market.**—Fine early variety of good colour, quick in growth, valuable alike for market gardeners or private use.
- 376 **Carters Summer Favourite.**—A splendid half-long, producing handsome, well-grown bright-cochineal-scarlet Carrots very early in the season.
- 377 **Carters Red Elephant.**—A veritable giant, both in length and rotundity. Specimens have been exhibited at our establishment measuring 2 1/2 ft. in length (30 in.). A remarkable variety, and one which has already become prominent in first-class gardens and on the exhibition table.
- 379 **Carters Scarlet Perfection.**—A distinct and greatly improved form of Garden Carrot. It is midway in length between the LONG SURREY and the well-known INTERMEDIATE, with the bright scarlet colour of the SURREY. The flesh is solid, crisp and fine flavoured. Invaluable alike for table, exhibition, and market purposes.
- 387 **Carters Re-selected Danvers Half Long.**—This superior strain of seed is the result of years of careful study and rigorous selection under the well-known "Carter" method. By continual re-selection we are able to offer to our customers the heaviest cropping, best sized and shaped strain of the DANVERS HALF LONG CARROT ever placed before the public.
- 382 **Carters Long Scarlet.**—Splendid long stock of good colour.
- 384 **Carters Orange Giant.**—Yellow Carrot of large size.
- 370 **Nantes, Stump-rooted.**—A medium-sized mid-season variety of excellent quality.

	1/4 oz.	1/2 oz.	1 oz.	1/4 lb.
Price of the above.....	10c.	20c.	30c.	90c.

CELERY

THE CULTIVATION OF CELERY.—For earliest crop sow in February under glass or on a mild hotbed. Prick out on bottom heat when ready and transfer to trenches in May or June. For main crop sow in March or April, and in June or July, when plants are large enough, transplant to trenches, preparing the same by bottoming with good rich loam. Water liberally during July and August; earth up gradually during August and September. Lift late in November, and for winter storage place upright on damp soil in a cellar or root house. Pack closely 1 oz. of seed will produce 3,000 plants.

- 424 **Carters Solid Ivory.**—One of the most remarkable features of CARTERS SOLID IVORY Celery is its extreme dwarf compact habit and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettuces, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture.

	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	10c.	35c.	60c.	\$1.00

- 434 **Golden Self Blanching (FRENCH SEED).**—The best early variety, largely grown for early market. Stalks solid and crisp with a nutty flavour.

	1/16 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	35c.	65c.	\$1.00	\$1.75

CELERY—Continued

- 425 **Carters Incomparable Dwarf White.**—Useful variety; stiff compact habit.
- 433 **Boston Market.**—The finest flavoured variety in cultivation. Blanching pure white, crisp, and solid. A splendid keeper.
- 429 **Henderson's White Plume.**—Inner leaves being naturally white, little blanching is required.
- 431 **Wright's Grove Giant White.**—Useful for general cultivation; sweet and juicy. 1/16 oz. 1/8 oz. 1/4 oz. 1/2 oz. 1 oz.
Price of the above... 10c. 15c. 25c. 40c. 60c.
- 440 **Carters Incomparable Crimson.**—Dwarf-growing rich-coloured Celery, of clean and refined appearance, very crisp eating, and of delicious flavour.
- 442 **Carters Giant Pink.**—A superb large-growing variety specially recommended for exhibition. 1/8 oz. 1/4 oz. 1/2 oz. 1 oz.
Price of the above..... 15c. 25c. 40c. 75c.
- 432 **Celeriac, Carters Improved (OR TURNIP-ROOTED CELERY).**—Pure white root, refined flavour. It is becoming popular in this country owing to the more frequent contact nowadays of the Canadian people with French dishes. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature.
- 447 **Wright's Grove Pink.**—Medium-sized heads; very crisp; of delicate flavour. 1/8 oz. 1/4 oz. 1/2 oz. 1 oz.
Price of the above..... 10c. 15c. 25c. 40c.

"As I believe in giving credit where it is due, I write to inform you that I have been gardening at this address for six years, during which I have tried almost all the different seed merchants. I take pleasure in informing you that I used your seeds last year with the best results I have ever had yet."—MR. ARTHUR BURSILL, 7 Hiawatha Road, Queen E., City.

501 BURPEE'S GOLDEN BANTAM.

511 STOWELL'S EVERGREEN

SWEET CORN

All Corn mailed free up to one pint if ordered with other goods. Add postage at zone rate if ordered alone. Purchaser pays carriage on quarts and pecks. Average weight, 1 pint equals 1 lb.; 1 quart equals 2 lb.

THE CULTIVATION OF SWEET CORN.—Plant in a rich, warm soil, in rows 3 ft. apart for dwarf or early sorts, and 4 ft. apart for the table or late sorts. Place hills 2 to 3 ft. apart in the rows. The seed is liable to rot if planted in wet or cold ground. Yet, if we have an early warm period in spring it often pays to take some risks, as the plants, when once up, will often escape injury from belated frosts. May 15th is early enough to plant for seasonable crops. For succession plant every two weeks to July 15th. 1 quart of seed will plant 200 hills, 8 to 10 quarts to an acre.

- 501 **Burpee's Golden Bantam.**—An extremely early variety, of a rich golden colour and delicious flavour; of excellent quality. No garden is complete without this sort.
- 502 **Peep o' Day.**—This Corn is at least ten days earlier than any other sort, bearing ears of fine quality, averaging 6 in. in length. Stalks are small, and can be grown close together.
- 503 **Quincy Market.**—An early variety, of superior quality. The ear is very large and full. It is a 12-rowed variety.
- 504 **Early Crosby.**—This variety continues to satisfy year after year, and is quite unrivalled when ripened ears are compared.
- 505 **Early Red Cory.**—One of the best extra early varieties. The ears are of good size, and are 8 rowed. The cob red. Very popular.
- 506 **Early White Cory.**—Similar to the RED CORY, but with white kernels.
- 507 **Mammoth White Cory.**—Quite as early as the other Cory Corns, with ears twice the size. Is sugary and in great demand.
- 508 **Black Mexican.**—The sweetest Corn in cultivation. When ripe this Corn is almost black, but is almost white when ready for the table. Ripens medium early.

SWEET CORN—Continued

- 509 **Potter's Excelsior.**—Considered one of the best main crop Corn grown. The ears are medium in size, and well filled with white, juicy kernels. A 12-rowed sort, and very productive.
- 510 **Country Gentleman.**—Of all late varieties this is the richest flavoured.
- 511 **Stowell's Evergreen.**—A very handsome, tender, and sugary sort. The standard late variety, with very large ears of 12 to 16 rows, which remain fit for use longer than any other Corn grown.
- 512 **Late Mammoth Sugar.**—Produces very thick mammoth ears, with rows of large broad kernels, of excellent texture. It follows STOWELL'S EVERGREEN into maturity.
- 524 **First of All.**—Similar to EARLY RED CORY.
- 525 **Perry's Hybrid.**—Second early. Good flavour, large and sweet.
- 526 **Early Premo.**
- 527 **Kendall's Early Giant.**

	pkt.	1/2 pint	pint	quart
Price of the above.....	15c.	20c.	50c.	85c.

"I purchased some Cauliflower seed from you last year and am anxious to get some of the same variety again, as it proved the finest in my experience."—G. W. STANFIELD, ESQ., 450 Charlotte Street, London, Ont.

"Your seeds turned out fine with us and in our show here we took first in Cauliflower, Onion, Tomatoes, Vegetable Marrows, Cucumbers, and a good number in flowers, as well as seconds in some of the above."—E. A. BONNICK, ESQ., Box 277, Red Deer, Alta.

CUCUMBER

THE CULTIVATION OF INDOOR CUCUMBER.—English Forcing or Frame varieties for winter use must be started under glass early in September, in pots or pans, keeping the seed pans shaded from strong light until the seedlings appear. When established, transplant to the permanent position in hotbeds or green house, in a well-prepared soil, and supply freely with lukewarm water and light liquid manure; or sow in a pot or pan during February or March in heat for summer use, keeping the seed-pan shaded from strong light until the seedlings appear, then transplant to well-prepared hot-bed or other position, when the plants are sufficiently established. If intended for cold-frame culture the plants must not be put out until all danger of frost is past. The Frame varieties also do well out of doors trained on a trellis, if a strong plant is put out in June.

- 456 **Carters Model.**—One of the handsomest Cucumbers grown, Perfect in outline, with scarcely any neck, and of fine flavour. This variety has become popular, both for Exhibition and table purposes.

456 CARTERS MODEL FRAME CUCUMBER

CUCUMBER—Continued

- 457 **Carters Improved Telegraph.**—Unquestionably one of the best winter Cucumbers; indispensable for forcing, and a great cropper.
- 459 **Carters Ideal.**—It is quite an aristocratic variety, in colour, shape, and flavour.
The seeds of these very choice varieties are saved with great care from plants grown under glass. 10 seeds 25 seeds
Price of the above..... 25c. 50c.

487 IMPROVED EARLY WHITE SPINE

THE CULTIVATION OF OUTDOOR CUCUMBER.—For early use sow April 1st in hotbeds, upon inverted grass sods, so that they can be readily transplanted to the open ground in rich soil when all danger of frost is past. For outdoor cultivation sow the seed when the weather becomes settled and warm, in hills from 4 to 6 ft. apart each way. Thin out to 4 of the strongest plants to a hill after danger from insects is over. These plants exist best in a warm, moist, rich, loamy soil. Continue planting at intervals for a succession. Cucumbers should be gathered when large enough for use, whether required or not, because if left to ripen they spoil the productiveness of the plant. For pickles plant in June and July. 1 oz. of seed will plant 50 hills, 2 lb. to the acre.

- 480 **Carters Outdoor.**—The longest hardy Cucumber. Fruit of a good shape and colour and of fine flavour.
- 482 **Carters Miniature Cluster.**—The best for pickling or salad.
- 483 **Carters Prickly Ridge.**—A hardy variety, of easy culture.
- 485 **Gherkin.**—Very extensively used for pickling.
- 487 **Improved Early White Spine.**—An excellent variety. They are a light green in colour, with white spines of a medium size.
- 488 **Arlington White Spine.**—A strain of WHITE SPINE that has been improved through careful selection.
- 489 **Japanese Climbing.**—Can be grown on a trellis for decoration.
- 491 **Improved Long Green.**—This is a late sort, of great length.
- 493 **Paris Pickling.**—Fruit long, slender, prickly, and deep green.
- 494 **Chicago Pickling.**—Very crisp and tender.

	¼ oz.	½ oz.	1 oz.	¼ lb.
Price of the above.....	10c.	15c.	25c.	75c.

480 CARTERS OUTDOOR CUCUMBER

EGG PLANT

THE CULTIVATION OF EGG PLANT.—Sow in gentle heat early in April, transplant towards the middle of June, setting the plants 3 feet apart each way. 1 oz. of seed produces about 1,500 plants.

- 574 **Black Beauty.**—Fruit jet black; good form and solid.
- 575 **N.Y. Improved.**—A splendid market variety; fruit large.

	pkt.	¼ oz.	½ oz.
Price of the above.....	15c.	40c.	75c.

ENDIVE

THE CULTIVATION OF ENDIVE.—Sow for early crops in middle of May, and for succession to beginning of August; transplant from the seed bed into warm situations, and give protection to the late crops required for spring use. A simple method of blanching is to put an inverted pot over each plant and cover it with leaves or straw. 1 oz. of seed will sow 100 ft. of drill.

- 555 **Carters Model.**—The most beautiful and perfect form of Curled endive yet introduced. It is exceedingly ornamental, of a distinct colour and bleaches admirably. ¼ oz. ½ oz. 1 oz.
Price of the above..... 15c. 25c. 40c.
- 556 **Carters White Endive.**—Superbly curled and laciniated; easily blanched, very tender.
- 559 **Carters Green Curled.**—Dwarf and beautifully curled. ¼ oz. ½ oz. 1 oz.
Price of the above..... 10c. 20c. 30c.

CARTER'S OVAL OR PLAIN-LEAVED ENDIVE

- 567 **Carters Round-leaved Batavian.**—Very compact and hardy; forms good heart.
- 568 **Green Batavian or Escarole.**—Tender broad leaves, crisp; of good flavour. ¼ oz. ½ oz. 1 oz.
Price of the above..... 10c. 20c. 30c.

KOHL RABI OR KNOL KHOL

A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known. Used as a substitute for Turnips, especially in hot dry seasons.

THE CULTIVATION OF KOHL RABI.—Prepare a breadth of good well-manured soil. Drill the seeds in rows about 1¼ ft. apart in May, and thin out to about 9 inches apart. They are ready for use when they attain the size of a small Turnip.

- 582 **Carters Earliest White.**—Garden Kohl Rabi.
- 583 **Carters Earliest Purple.**—Garden Kohl Rabi.

	¼ oz.	½ oz.	1 oz.
Price of the above.....	10c.	20c.	35c.

LEEK

THE CULTIVATION OF LEEK.—Sow early in spring, and transplant early in July into trenches of well-manured soil, say 1 ft. in depth and 1 ft. 8 in. between the plants. In warm weather liberal dressings of liquid manure will be of service, and the plants should be afterwards carefully earthed up to blanch the stems. For exhibition, sow in January in boxes under glass, and transplant as early as the ground can be worked into rich soil. 1 oz. of seed will sow 100 ft. of drill.

- 637 **Carters Holborn Model.**—The stems are remarkably solid, whilst the flavour is exceedingly delicate.
- 639 **The Lyon Leek.**—A very popular large variety; widely grown.
- 641 **Carters London or Broad Flag.**—Quick growing; for early use.

	¼ oz.	½ oz.	1 oz.
Price of the above.....	10c.	20c.	35c.

LETTUCE

THE CULTIVATION OF LETTUCE.—Sow the seed in hotbeds during February or early March. As the seedlings appear prick them into flats or cold frames, leaving several inches between the plants for growth. As soon as a nice, rich warm spot can be worked in the open, transplant the sturdiest plants in rows 1 ft. apart and leaving 8 to 12 in. between the plants in the rows. For a succession of growths sow the seeds very lightly in open ground and thin the plants to 6 in. or more apart. Do this as often as one bed is rid of its results. Some varieties will do very well during the winter in a cool forcing house. 1 oz. of seed will produce 3,000 plants.

617 CARTERS GIANT WHITE COS LETTUCE

589 CARTERS HOLBORN STANDARD

LETTUCE—Continued

COS OR ROMAINE VARIETIES

- 617 **Carters Giant White Cos.**—Without doubt the best and finest flavoured Cos Lettuce in cultivation. Owing to the self-folding habit it possesses, no tying is required. The heads are very solid and crisp eating. It does not run to seed as quickly as other Cos varieties.
- 624 **Carters Jumbo Cos.**—A summer Lettuce of enormous size.
- | | | | | |

CABBAGE-HEADED VARIETIES

- 589 **Carters Holborn Standard.**—A Lettuce of extraordinary size. Its leaves are crumpled and crisp, it is very tender and of excellent flavour, and will provide an abundance of salad during the hottest summer.
- 590 **Carters Harbinger Forcing.**—Valuable on account of its extreme earliness. It is not a hearting variety, but being of quick growth produces a quantity of tender leaves, which are so much in request for early salads.
- 598 **Carters Perpetual.**—This is a large handsome Cabbage Lettuce, equally suitable for forcing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour, and retains its crisp and tender flavour to the last, its deeply crumpled leaves giving it great substance.
- | | | | | |

| | 10c. | 15c. | 20c. | 35c. |
- 591 **Carters Green-fringed.**—Of a very delicate and peculiar shade of green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing. Useful summer variety.
- 592 **Carters Round-leaved.**—A hardy flat-shaped variety that can be sown at almost any season. The heads are very compact and firm, solid, and white; slow to run to seed. In our own trials we have repeatedly seen this variety standing firm when others have bolted.
- 593 **Carters All the Year Round.**—This is a superb stock, the heads being very solid, white, and crisp, and slow to run to seed.
- 608 **Big Boston.**—Very large, tender heads; splendid for both indoor or outdoor culture.
- 609 **May King.**—Heads of globular shape, firm and close; colour light green, ribs delicate, and waved centre is of a light yellow and very tender.
- 596 **Continuity.**—Distinct brown-tinged variety; useful for hot dry seasons.
- 603 **Improved Drumhead.**—Grows to large size; colour light green.
- 605 **Tom Thumb.**—Re-selected; fine stock of an old favorite. Hearts compact, solid, and crisp.
- 612 **Grand Rapids.**—An open cabbaging type, producing a large quantity of leaves, which can be used for salads in a very early stage, before hearting varieties are ready.
- 613 **Iceberg.**—A large solid-headed, very crisp kind, the hearts of which under moderate cultivation weigh from 2 to 3 lbs.
- | | | | |

MELON

ENGLISH FORCING OR FRAME VARIETIES

THE CULTIVATION OF MELON.—Sow for first crop in January, and plant when ready into pits or on slabs filled with good maiden loam and well-rotted manure, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist buoyant atmosphere during growth, and give air freely when fruit is ripening, checking the supply of water to develop flavour. The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm heap of soil in the frame.

- 703 **Carters Delicatesse.**—From all quarters we have received most favourable reports, remarking on the excellent constitution of the plants and the delicious flavour of its freely produced and handsomely netted fruits.
- 704 **Carters Blenheim Orange.**—The finest flavoured and most popular scarlet-flesh Melon in cultivation. Remarkably prolific, has a grand constitution, is a very fine setter. The fruit is superbly netted, the flesh deep and solid.
- 710 **Carters Barnett Hill Favourite.**—A superb white-fleshed Melon. It is superbly netted, orange-yellow in colour, with white flesh and a splendid flavour. The seeds of the above very choice varieties are saved with great care from plants grown under glass.

	10 seeds	25 seeds
Price of the above.....	25c.	50c.

MUSK MELON

THE CULTIVATION OF MUSK AND WATER MELON.—Melons succeed best in a light, rich, sandy soil. Seed should be planted about the middle of May. Plant in hills about 5 or 6 feet apart each way for Musk Melon, and 8 to 10 feet apart each way for Water Melon. Each hill should have at least a peck of well-rotted manure mixed thoroughly with the soil previous to the planting. Plant 10 seeds to the hill, and when the plants have made a good showing thin out to 3 or 4 of the best plants to the hill. 1 oz of seed will plant 45 to 50 hills; 2 to 3 lb. of seed in hills to the acre.

- 724 **Carters Re-selected Netted Gem or Rocky Ford.**—An oblong, second early sort, very popular. The melons average about 5 inches in length, with a light-green flesh.
- 725 **Emerald Gem.**—An extra early sort. Round, with a salmon-coloured flesh, exceptionally fine flavour. Exterior is a dark green.
- 727 **Extra Early Hackensack.**—Flesh green, very sweet, large size.
- 729 **Montreal Nutmeg.**—The largest nutmeg sort grown.
- 730 **Burrell's Gem.**—Deep orange; otherwise similar to Rocky Ford.
- | | | | |
|-------------------------|------|-------|-------------------|
| | pkt. | 1 oz. | $\frac{1}{4}$ lb. |
| Price of the above..... | 10c. | 25c. | 75c. |

WATER MELON

- 737 **Cole's Early.**—A medium-sized very early sort, with a large heart and deep-red flesh of fine texture. Does well in northern gardens.
- 738 **Mountain Sweet.**—A large, oblong sort, with a dark-green coloured skin and very solid red flesh. This is an early sort and very popular.
- 739 **Ice Cream.**—This is a fine melon, with mottled grey skin and a flesh-pink flesh. Very Crisp.
- 740 **Cuban Queen.**—One of the largest varieties, with a bright-red flesh. Very melting and sweet.
- 741 **Carters Improved Kleckley Sweets.**—The melons measure about $1\frac{1}{2}$ ft. in length by about 10 in. in diameter. The flesh is bright scarlet, very thick, crisp, sweet, and melting. It is an early variety, and most suitable for home-growing.
- 742 **Citron.**—Excellent for preserving.

752 CARTERS AILSA CRAIG 792 CARTERS YELLOW GLOBE DANVERS

ONION

THE CULTIVATION OF ONION.—The ground cannot well be too rich for this crop, nor the soil too fine a condition. Sow the seed as early as the soil can be worked. The soil must be made firm before the operation is undertaken in either beds or drills. The seed should be sown thinly and covered lightly, the drills 1 ft. apart, and the young Onions thinned out to about 6 in. apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grub, so troublesome in some districts. 1 oz. of seed will sow 100 ft of drill; 4 to 5 lb. to an acre. WHITE LISBON (for pulling) are sown at the rate of 20 lb. per acre.

747 **Carters Holborn.**—Equally valuable for exhibition and for table purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other globe varieties.

752 **Carters Selected Ailsa Craig.**—We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked and recommended on account of its acceptable, delicate, and pungent flavour. One of the best for transplanting.

ONION—Continued

753 **Carters Record.**—Continues to hold its prominent position in public favour as the largest globe-shaped Onion in cultivation. It shows a disposition to vary in colour in a small percentage, which can be eliminated at time of transplanting. It will be remembered that a specimen illustrated in the GARDENING WORLD, turned the scale at 4½ lb.; this was probably the heaviest Onion ever grown.

Price of the above..... ¼ oz. ½ oz. 1 oz.
 20c. 35c. 60c. \$1.00

748 **Carters Long Keeper.**—Will remain sound the year round if properly kept.

754 **Carters White Spanish.**—A Re-selected Stock.—Our stock of this popular variety has been carefully selected by us, and is offered as the most perfect form of the Banbury type it is possible to procure. It grows to a very large size, is of a pale yellow colour, and good flavour.

764 **Carters Pearl Pickler.**—This is the genuine miniature Onion that is preserved in white vinegar, and found on the tables at the leading hotels.

780 **Carters Autumn Giant.**—A very large, white-skinned Onion; mild and agreeable flavour.

Price of the above..... ¼ oz. ½ oz. 1 oz.
 20c. 30c. 50c.

784 **Giant Rocca.**—A fine large Onion. The original variety.

792 **Carters Selected Yellow Globe Danvers.**—Our stock of this very popular variety has been carefully selected by us from numerous tests in regard to its size, shape, colour, solidity, and flavour, by the Carter method, and we are pleased to say this strain of seed is the most perfect form of a Yellow Globe Onion ever produced. No vegetable garden should be without this Onion.

793 **Red Wethersfield.**—A variety of exceptional quality and flavour, and a good keeper.

795 **White Lisbon.**—Used for pulling green for Spring Onions.

796 **Yellow Prizetaker.**—Enormous bulbs of fine flavour.

797 **Yellow Flat Danvers.**—Similar to YELLOW GLOBE DANVERS, but flat in shape.

798 **Mammoth Silver King.**—A large flat Onion, skin silvery-white, flesh pure white; mild and delicate in flavour.

799 **Early Barletta.**—Very early, small, white flesh, mild; excellent for pickling.

800 **Australian Brown.**—Medium size, clear amber brown in colour, very solid; ripens early and is well suited for our northern cold sections.

Price of the above..... ¼ oz. ½ oz. 1 oz.
 15c. 25c. 40c.

PEAS

EARLIEST GARDEN PEAS

All Peas mailed free up to the pint if ordered with other goods. Add postage at zone rate if ordered alone. Purchaser pays carriage on quarts. Average weight, 1 pint equals 1 lb.; 1 quart equals 2 lb.

THE CULTIVATION OF THE GARDEN PEA.—The smooth round-seeded extra early varieties of Peas are generally the very first to be sown in spring, and should be sown as soon as the ground is fit to be worked. The wrinkled sorts are not so hardy, and should not be planted before the ground has warmed up to a certain degree. The tall varieties require brush or other suitable support, but by selecting sorts that do not grow over 2 feet the necessity of providing brush may be eliminated. A careful selection of varieties and a frequent planting for succession will insure a continuous crop of peas from June until the early frosts. The seed should be sown in rows 3 feet apart and 3 inches deep, and should be planted at the rate of 1 quart of the smoother sorts to 100 feet of drill and 1 quart of the wrinkled varieties to 80 running feet. Cultivate similarly to corn or beans. The taller sorts may be planted in double drills and brush placed between for a support. For best results all garden peas require good, fertile soil and moisture. Great success has been attained by the use of only the very earliest dwarf peas, making plantings ten days apart from early spring until the last of July.

872 **Carters Eight Weeks (GREEN ROUND.** Height, 1¼ feet).—THIS IS THE EARLIEST DWARF PEA IN THE WORLD, proved not only from our own trials, but from the expert reports we receive from time to time. A very hardy Marrowfat, possessing all the good points of the best type AMERICAN WONDER, which was one of its parents. As both a forcing and an early border variety it has become a boon to gardeners whose demands are heavy early in the season. The seed is slightly dented, and of the same colour as its other parent, WILLIAM THE FIRST. The pods are freely produced, and well filled with sweet-tasting peas. It is a splendid forcer. Stock limited.

881 **Carters Mayflower (WRINKLED MARROWFAT.** Height, 1½ feet). A superb dwarf first early Marrowfat Pea. A cross between Daisy and WILLIAM HURST. This is a fine variety, with long pointed pods twice the size of William Hurst and much more freely produced; being one of the most prolific dwarf peas grown. The vine is robust, possessing the same healthy character as its most famous parent, DAISY, with pods of similar character to that variety. Seed wrinkled. Everyone should try this fine introduction, which is most suitable for forcing.

Price of the above..... ¼ pint ½ pint pint quart
 30c. 50c. 90c. \$1.50

875 **Carters Early Morn (WRINKLED MARROWFAT).** Height, 3 feet).—A SUPERB FIRST EARLY GIANT MARROWFAT. This grand introduction maintains its position as one of the best early Marrowfat Peas ever raised. Although very early, the seed should not be sown until the soil is in a fit state to receive it, as it is a rapid grower. The pods are very large and well filled.

898 LITTLE MARVEL CARTERS
RE-SELECTED

PEAS—Continued

- 898 **Little Marvel, Carters Re-selected** (WRINKLED MARROWFAT. Height, $1\frac{1}{2}$ feet.)—This is one of the best and most popular amongst the early dwarf Peas, bearing a very heavy crop of blunt-ended dark pods, tightly filled with large peas of excellent flavour. An improvement upon the ENGLISH WONDER class. First early green wrinkled.
- 884 **Carters American Wonder, Re-selected** (WRINKLED MARROWFAT. Height, $1\frac{1}{2}$ feet.)—An early dwarf Marrow. Our stock of this variety is highly selected, and is in every way far superior to the older stock, having pods as large again.
- 888 **Gradus** (WRINKLED MARROWFAT). Height, 4 feet.—An early large podded Marrow Pea. Large deep-green pods, good flavour.
- 905 **English Wonder** (WRINKLED. Height, 1 foot)—A popular early Marrow, very prolific; deep green pods; compact.
- 902 **Earliest of All (ALASKA) (BLUE ROUND.** Height, 2 feet).—A well-known extra early round Blue Pea, which produces peas in great quantity.

Price of the above.....	$\frac{1}{4}$ pint	$\frac{1}{2}$ pint	pint	quart
	15c.	25c.	45c.	85c.

SECOND EARLY GARDEN PEAS

- 927 **Carters Market Gardener** (SECOND EARLY WRINKLED. Height, 5 feet.—Deep green pods, curved. An entirely new type of Pea for market work, or gardens.
- 924 **Carters Daisy** (WRINKLED. Height, $1\frac{1}{4}$ feet).—The most famous second early Marrowfat in cultivation. This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head.

	$\frac{1}{4}$ pint	$\frac{1}{2}$ pint	pint	quart
Price of the above.....	30c.	50c.	90c.	\$1.50

MAINCROP GARDEN PEAS

- 951 **Carters Quite Content** (MAINCROP MARROWFAT. Height, 5 to 6 feet.—We regret that owing to failure of crop, we are unable to offer seed of "Quite Content" this season.
- 954 **Carters Model Telephone** (WRINKLED MARROWFAT. Height, 5 feet.—A maincrop wrinkled Marrow. It is remarkably prolific, bearing large pods of very attractive appearance. For soils of a light nature we strongly recommend this variety.
- 958 **Carters Model Telegraph** (ROUND SEEDED. Height, 5 feet).—A selection from our original TELEGRAPH, which is well known. Very valuable as a table Pea, on account of the size and fine dark colour of the pods.
- 960 **Carters Harvestman** (WRINKLED MARROWFAT. Height, 5 feet).—This grand Pea possesses all the qualities of DUKE OF ALBANY, but the pod is distinct in shape, more regular in growth, and altogether superior. For market or garden it is a most profitable Pea.
- 987 **Carters Danby Stratagem, Re-selected Stock** (WRINKLED MARROWFAT. Height, $2\frac{1}{2}$ feet).—A distinct improvement on the original STRATAGEM. The haulm is very robust, and extends to a height of $2\frac{1}{2}$ feet, bearing a profusion of immense pods. Marrow peas.

	$\frac{1}{4}$ pint	$\frac{1}{2}$ pint	pint	quart
Price of the above.....	25c.	40c.	70c.	\$1.25

LATE GARDEN PEAS

- 1006 **Carters Michaelmas** (WRINKLED MARROWFAT. Height, $2\frac{1}{2}$ feet).—We have proved this Pea to possess a reserve of strength which will enable it to resist the drought, and the mildew to a degree hitherto unknown in a Pea.
- 1007 **The Gladstone, Carters Re-selected Stock** (WRINKLED MARROWFAT. Height, 4 feet).—A fine late variety, bearing long sickle-shaped pods, dark in colour, very prolific.
- 1011 **Ne Plus Ultra, Carters Re-selected** (WRINKLED MARROWFAT. Height, 6 feet).—This is a highly selected stock of an old and favourite variety; it is exceedingly prolific, bearing blunt-ended pods with Peas of very fine flavour. A splendid Pea for late crops

	$\frac{1}{4}$ pint	$\frac{1}{2}$ pint	pint	quart
Price of the above.....	20c.	30c.	50c.	90c.

COLLECTIONS OF PEAS

Recommended to produce a good succession of fine-flavoured Peas, as they include only approved sorts.

6 Quarts, in 6 best sorts, for succession, our selection, \$6.00.
 6 Pints, in 6 best sorts, for succession, our selection, \$3.25.
 4 Pints, in 4 best sorts, for succession, our selection, \$2.25.

PEPPERS

THE CULTIVATION OF PEPPERS.—Sow in hotbed or green house in March or April, and transplant to the open ground when all danger from frost is over. Plant in rows 3 feet apart and $1\frac{1}{2}$ feet between the plants; cover the seed when sowing with about $\frac{1}{4}$ inch of soil.

- 841 **Bell or Bull**.—A large bright and early variety of mild flavour.
- 842 **Chinese Giant**.—A dwarf well-branched early variety, producing immense brilliant glossy scarlet fruits.
- 844 **Ruby King**.—Plants grow 2 feet high, and bear freely large scarlet thick-fleshed mild sweet fruits.
- 845 **Small Red Chili**.—Small slender bright scarlet fruits; very hot.
- 846 **Long Red**.—Long red fruits; very hot and pungent.
- 847 **Neapolitan**.—A large early Pepper; fruits sweet, and mild.
- 848 **Small Red**.—Small bright red fruits.
- 849 **Sweet Mountain**.—An improved bullnose, the fruits of which are large thick fleshed, mild and bright red when ripe.
- 851 **Sweet Spanish**.—Large conical-shaped fruit, often 4 inches long and 3 inches in diameter. Very early. Sweet and mild.
- 852 **Long Cayenne**.—Long shapely fruits; excellent for pickling.

	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price of the above.....	35c.	60c.	\$1.00

PARSLEY

THE CULTIVATION OF PARSLEY.—Sow the seeds thinly in beds any time from early spring until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant. 1 oz of seed will sow 150 feet of drill; 5 lb. to the acre.

814 **Carters Crested Bouquet, Re-selected**.—This variety is without question the most perfect type of Parsley ever offered. It is of dwarf, compact habit, the exquisite curl of the leaves giving it a very attractive crested appearance.

	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price of the above.....	15c.	25c.	45c.

815 **Carters Emerald Green**.—The colour is of a very rich deep green; habit taller and more branching than our celebrated CHAMPION Moss Curled.

PARSLEY—Continued

- 816 **Carters Champion Moss Curled Parsley.**—A very close, handsome variety; both useful and ornamental.
- 817 **Carters Perpetual Parsley.**—It is rather taller and more branching in growth than our **CRESTED BOUQUET**.
- 818 **Carters Fern-leaved Parsley.**—Exquisitely perfect in form and colour; for garnishing purposes it is ideal.

	¼ oz.	½ oz.	1 oz.
Price of the above.....	10c.	15c.	25c.

PARSNIP

THE CULTIVATION OF PARSNIP.—Sow the seed as soon as the season will permit. The ground should be well manured and deeply trenched, the drills about 1½ feet apart, and the plants thinned out the same distance apart. The quality of the roots is improved by allowing them to winter in the ground for spring use. 1 oz. of seed will plant 100 feet of drill; 5 lb. to the acre.

- 830 **Carters Maltese.**—A superb giant Parsnip for exhibition or table use. We are confident this strain cannot be surpassed either for size or flavour; the roots being quite as tender and sweet flavoured as most varieties which do not reach one-half the size.
- 832 **Carters Holborn Marrow.**—A sweet delicate-fleshed variety. A truly refined Parsnip. When lifted it leaves the ground clean smooth and well shaped. It is not so large in growth as our **MALTESE**, but its flavour is unusually marrow-like and delicate.
- 833 **Hollow Crown.**—An old favourite.

	¼ oz.	½ oz.	1 oz.
Price of the above.....	10c.	15c.	20c.

POTATOES

THE CULTIVATION OF POTATOES.—Under the right climatic conditions any good fibrous soil will produce potatoes, but a better quality will result from a production in a good sandy loam. Make furrows of good depth, about 3 feet apart, apply a good dressing of commercial fertilizer or well-decayed stable manure to each drill; cover this slightly and plant good-sized pieces or medium sized whole ones, each containing two or three eyes, 1½ feet apart in the furrows. Then cover the seed to the depth of 4 inches. Begin to cultivate when the plants are up, and at each hoeing thereafter bring additional soil about the plants.

Delaware, Irish Cobbler and other standard varieties. Prices on application.

PUMPKIN

THE CULTIVATION OF PUMPKINS.—After all danger of severe frosts has passed the seed may be sown in hills 8 feet apart each way, or in the corn field, using 3 or 4 seed with that of the corn in every fourth or fifth hill. Do not plant different varieties of Pumpkins together, as they are very apt to become mixed, although they do not easily hybridise with squash or other vines. 1 oz. will plant 25 hills, 3 lb. will plant an acre.

- 861 **Connecticut Field.**—Unrivalled for stock-feeding, and produces wonderfully well.
- 862 **Large Cheese.**—This is a fine sort for either stock or table purposes. Colour creamy buff, flavour very sweet, shape flat, and very productive.
- 863 **Mammoth King.**—Often produces a Pumpkin weighing over 100 lbs. It is a fine stock-feeding variety.
- 864 **Sweet or Sugar.**—An unsurpassed variety for making pies. The pumpkins are small, but they are very sweet, fine grained, and of the best quality. The skin is a deep orange in colour.
- 865 **Winter Luxury.**—A smooth, yellow-skinned, round Pumpkin, with a thick flesh of excellent flavour. It is a splendid keeper, with a russet-yellow coloured skin.
- 866 **Japanese Pie.**—Thick, solid, fine-grained flesh; dry and sweet. Ripens early.

Giant Californian.—Large yellow, very productive.

	pkt.	1 oz.	¼ lb.
Price of the above.....	10c.	25c.	75c.

RADISH

THE CULTIVATION OF RADISH.—Sow on a moderate hotbed in January, February and March, also every ten days during the spring and summer in well-prepared places in the open. The Radish thrives best when quickly grown in a rich, deep, moist soil, kept well watered during the hot weather. Winter varieties should be planted about the middle of July; store the roots during the winter in a cool pit or cellar and cover them well with earth. 1 oz. of seed will sow 100 feet of drill; 10 lb. will plant an acre.

- 1037 **Carters 16 Days.**—A new and remarkably pretty introduction. For quality and forcing it has no equal; being fit to pull in 16 days from date of sowing. Small and oval in shape, bright crimson colour with ivory white tip.
- 1040 **Carters Extra Early Scarlet Round.**—The most rapid growing and perfect shaped scarlet turnip Radish. Small topped and perfect quality. Sown with **CARTERS LIGHTNING WHITE** makes a most perfect combination.
- 1043 **Carters Lightning White Round.**—A small white marble Radish of lightning growth; excellent quality, extremely small topped, the quickest Radish ever introduced. Sown in frames or on a warm border it is fit for the table in 14 days.
- 1044 **Carters Rosy Gem.**—Extra early for forcing or general work, quite distinct; a charming delicate rosy-pink colour. The shape is almost oval; it is one of the most attractive and delicate-flavoured Radishes in cultivation.

RADISH—Continued

- 1038 **Carters Extra Early Round White Tipped.**—An exceedingly attractive Radish, crimson scarlet with white base. Is very quick in growth; produces small top, and flesh is of the finest quality.
- 1039 **Carters Crimson Forcing Olive.**—Splendid rich colour, very rich growing, having small top; flavour sweet and delicate.
- 1041 **Carters Icicle.**—So named because of its unique transparent whiteness, attractive appearance, and freshness early in the season. The earliest long white Radish, of extraordinary crispness and tenderness. We offer this as a companion to our **LONG FORCING SCARLET** Radish.
- 1042 **Carters Crimson Marble.**—A quick-growing globe-shaped Radish of good colour and flavour. Will not force.
- 1045 **Carters Extra Early White Olive.**—This Radish has been specially selected for its crisp texture and fine flavour. It produces very little top and matures with remarkable rapidity.
- 1046 **Carters Delicatess.**—An attractive breakfast dish. Its peculiar shape, crisp flesh, and nutty flavour give this fine selection a distinct advantage. Suitable for forcing.
- 1047 **Carters Long Forcing Scarlet.**—A great advance on the old varieties. The very best long scarlet Radish for early work. Flesh crisp and tender.
- 1048 **Carters Mixed Extra Early Olive.**—This special mixture of all the quickest growing olive Radishes makes a most attractive dish and is becoming much in demand. When pulled the different colours make quite a charming effect for the table.
- 1065 **Carters French Breakfast.**—There are so many inferior strains of this very popular Radish (introduced by our house from Paris years ago) that we recommend all connoisseurs of a fine appetising breakfast dish to grow only the real original type.
- 1068 **Mixed Turnip Radish.**
- 1069 **Carters Scarlet Olive Shaped.**—Of bright attractive appearance and good flavour.
- 1072 **Carters White Olive Shaped.**—Fine flavour.
- 1077 **Red Turnip.**—Rich scarlet.
- 1078 **White Turnip.**—Fine flavoured.

	½ oz.	1 oz.	¼ lb.
Price of the above.....	15c.	25c.	80c.

RADISH—WINTER VARIETIES

- 1079 **Turnip Shaped China.**
- 1080 **Long Black Spanish.**
- 1081 **China Rose, Oval Shaped.**
- 1082 **Round Black Spanish.**

	½ oz.	1 oz.	¼ lb.
Price of the above.....	15c.	25c.	80c.

1095 THE CARTER SPINACH

SPINACH

THE CULTIVATION OF SPINACH.—Sow Round Spinach in succession from April to June, and Prickly or Winter Spinach during August and September to stand the winter. These plants should be well mulched and protected from the first approach of severe weather. Sow New Zealand Spinach in March in heat and transplant about the end of May, setting the plants about 3 feet apart. This seed should be well soaked in hot water before sowing. 1 oz. of ordinary Spinach seed will plant 100 feet of drill; 12 lb. to the acre in drills. 1 oz. of New Zealand Spinach will plant 50 feet of drill.

- 1095 **The Carter Spinach.**—A superb long-stander, with rich deep-green leaves. The leaves are remarkably thick and solid; and the whole plant, which is very fine in colour, is of far greater duration than ordinary Spinach. Awarded 5 large Gold Medals with Carters other vegetables.
- 1098 **Carters Giant-leaved Winter.**—A large thick-leaved form of the hardy prickly Spinach. Useful on cold backward soils.
- 1099 **Carters Long-standing.**—Stands well when others run to seed.
- 1100 **Carters Summer.**—Thick leaves of great substance; stands longer than most others.
- 1101 **Perpetual Spinach or Spinach Beet.**—Leaves used in autumn as a substitute for Spinach.

SPINACH—Continued

- 1102 **Prickly or Winter.**—For winter or spring use; very hardy.
 1104 **Thick-leaved Round.**—Improvement on the old round variety.
 1105 **Giant or Mountain Orach.** $\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 15c. 20c. 60c.
 1097 **New Zealand.**—One planting on rich soil will give masses of healthy green foliage to last through the summer season.
 $\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 25c. 40c. \$1.40

SQUASH—AMERICAN

THE CULTIVATION OF SQUASH AND VEGETABLE MARROW.—Never sow the seed in the spring until lasting warm weather is an absolute certainty. A warm, mellow, well-manured soil suits them best. The seed should be planted in hills about 4 feet apart each way for the bush varieties and marrow, and 10 to 12 feet apart each way for the running varieties. Plant 12 to 15 seeds in each hill so as to offset the loss by insects and weakness. When all danger of such losses is past, thin to three or four plants to the hill. Winter sorts may be planted with corn, using four or five seeds in every fourth or fifth hill at the same time as the corn is planted. 1 oz. of seed will plant 50 hills of the early sorts and 30 hills of the later varieties; 5 to 6 lb. to the acre.

683 SQUASH, GOLDEN HUBBARD

EARLY AMERICAN BUSH VARIETIES

- 676 **Giant Summer Crookneck.**—Without a doubt this is the most popular summer Squash grown. The flesh is thick, yellow, and of splendid quality.
 677 **Early Mammoth White Bush.**—A superb sort for early use, and is considered the best scalloped Squash produced.
 678 **Golden Custard.**—A fine large, yellow Squash, similar in shape to the MAMMOTH WHITE BUSH. $\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 15c. 25c. 75c.

AMERICAN RUNNING VARIETIES FOR AUTUMN AND WINTER CROPS

- 679 **Delicious.**—A very superior sort, surpassing the HUBBARD in its finished qualities. Its colour is an even shade of green, and the flesh is a deep orange.
 680 **Boston Marrow.**—A fine, reddish-yellow skinned autumn variety. The flesh is well flavoured, of a deep-orange colour, and well grained, with fine keeping qualities.
 681 **Essex Hybrid or Hard Shell Turban.**—A result of the hybridising of AMERICAN TURBAN and HUBBARD, combining all the excellent qualities of both these superior sorts. It has sweet flesh of a very fine grain and rich, tasty flavour. The skin and flesh are both of a richly coloured orange. Considered a fine keeper.
 682 **Improved Hubbard.**—This is the most popular and reliable old-time winter Squash raised. The skin is coloured a dark green, with a fine-grained, dry, very rich bright orange flesh of a fine flavour. Average in weight from 10 to 20 lb. and keeps well.
 683 **Golden Hubbard.**—Very similar to the IMPROVED HUBBARD, except in colour, which is a reddish yellow.
 684 **Mammoth Warted Hubbard.**—A strong-growing vine, producing a great number of dark green warted Squashes similar in every other way to the IMPROVED HUBBARD and very much larger.
 $\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 15c. 25c. 75c.

SQUASH—ENGLISH VEGETABLE MARROW

The Vegetable Marrow Squashes are of an English production, but should be more generally used in this country, as they are far superior in every way to our summer Squash. They will grow anywhere with just a little care, and the results are more than satisfying. When the fruit is from half to three-quarters grown prepare similarly to Squash or slice and fry, like Egg Plant, and the superiority in both cases is remarkable. All the varieties of Marrows that we offer for planting in America this year were planted with great results in previous years and we predict a great future for this vegetable here, judging from the remarks of satisfaction on all sides.
 658 **Carters Trailing White.**—One of the quickest-growing varieties we know of. The fruit will extend to a great length whilst retaining all the tenderness of small young Marrows.
 664 **Carters Long Green Striped.**—A giant prolific variety, the very best for gardens that lie in a bleak and exposed position.
 666 **Bush or Cluster.**—A useful variety in small gardens.

$\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 20c. 30c. 90c.

658 VEGETABLE MARROW, CARTERS TRAILING WHITE

SALAD PLANTS, HERBS, ETC.

GLOBE ARTICHOKE

THE CULTIVATION OF ARTICHOKE.—The scales and bottom of the flower-head are eaten either boiled or raw as salad. The young suckers are sometimes tied together and blanched, and served in manner the same as Asparagus. Sow the seeds early in April or May, and when large enough transplant in rows 4 feet apart with 2 feet between each plant. 1 oz. of seed will sow 35 feet of drill.

1231 **Crown Artichoke, Earliest Drumhead.**—The finest strain in cultivation.

1234 **Green Globe.**—Very popular; delicious flavour.

$\frac{1}{8}$ oz. $\frac{1}{4}$ oz. $\frac{1}{2}$ oz. 1 oz.
 Price of the above..... 20c. 35c. 60c. \$1.00

ASPARAGUS

THE CULTIVATION OF ASPARAGUS.—Sow the seeds thinly in drills about 1 foot apart and 1 inch deep. Any good, loamy soil is good for growing the plants, and the seed can be sown as early as the ground can be cultivated in the spring. When the plants have made a showing thin out to 2 or 3 inches apart. For the permanent bed deep, warm, rich, loamy soil is required. Use stable manures and fertilizers freely. Make trenches 3 to 4 feet apart and 8 to 10 inches deep. Set the one or two year old roots about 10 feet apart in the trench and cover lightly at first, gradually filling in with soil and old compost. 1 oz. of seed will produce about 200 plants; 4 to 5 lb. to the acre.

1210 **Carters Mammoth Emperor.**—Superior in size.

1218 **Batavian.**—Rich flavour; largely grown.

1219 **Conover's Colossal.**—Large; very popular.

1220 **Reading Giant.**—Rich, nutty flavour.

$\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 10c. 20c. 50c.

1253 **Cardoon.**—This vegetable is grown for its edible midrib, and must be blanched in the same manner as Celery. Sow seed in the spring where the plants are to remain in drills 3 feet apart, covering the seed about 1 inch. When the plants make a showing thin out to 1 foot apart.

1300 **Chervil.**—For seasoning soups and salads. Sow in shallow drills across the bed, 9 inches apart, and rake over the surface. When the leaves have grown an inch or two, cut off as required.

548 **Chicory.**—This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer. Lift the roots a few at a time and plant in boxes of rich sandy soil, leaving crown well above the surface. Water, stand in a dark place, when they will produce nicely blanched leaves.

1301 **Corn Salad or Lambs' Lettuce.**—A hardy annual. In France it is preferred and relished in winter and spring instead of Lettuce, but it is not nearly so highly appreciated in Canada as it deserves.

$\frac{1}{4}$ oz. $\frac{1}{2}$ oz. 1 oz.
 Price of the above..... 15c. 20c. 30c.

CRESS AND MUSTARD

THE CULTIVATION OF CRESS AND MUSTARD.—Two of the most popular salad plants in cultivation. Easily grown during the winter on the green house bench, in frames, pots, or boxes. Make successive sowings. 1 oz. of Cress will sow 100 feet of drill, 1 oz. of mustard, 40 feet of drill.

539 **Plain or Common Cress.**—For early salads.

540 **Curled or Pepper Grass.**—Ordinary stock.

541 **American or Upland Cress.**—A perennial sort, with a taste similar to Watercress.

649 **Carters Finest White Mustard.**—Popular for salads.

650 **Brown Mustard.**—Seed largely used for grinding.

651 **Chinese Mustard.**—Black-seeded.

$\frac{1}{2}$ oz. 1 oz. $\frac{1}{4}$ lb.
 Price of the above..... 10c. 20c. 65c.

542 **Watercress.**—Watercress may be successfully grown from seed if sown in a shaded border and kept well watered when started.

$\frac{1}{8}$ oz. $\frac{1}{4}$ oz. $\frac{1}{2}$ oz. 1 oz.
 Price of the above..... 15c. 30c. 50c. 90c.

SALAD PLANTS, HERBS, ETC.

—Continued.

DANDELION

1303 **Improved Large**.—Leaves broad and fleshy; very tender.1304 **French**.—Leaves finely cut; mild and tender.

	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price.....	25c.	45c.	80c.	\$1.50

RHUBARB

THE CULTIVATION OF RHUBARB.—The seed should be sown in the spring, in drills about 1 foot apart, and the plants thinned to 5 inches apart. In the spring following, transplant to their permanent bed 4 feet apart each way, cultivate well, using manure freely. 1 oz. of seed will produce about 1,000 plants.

1355 **Myatt's Linnæus**.1336 **Victoria**.1357 **Champagne**.1359 **Mixed Varieties**.

	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price of the above.....	15c.	20c.	35c.

SALSIFY OR VEGETABLE OYSTER

THE CULTIVATION OF SALSIFY AND SCORZONERA.—Sow during April in drills about $1\frac{1}{4}$ feet apart. Thin out the plants to from 6 to 8 inches apart for Salsify, but allow rather more room for Scorzonera. Lift the roots and store in the same manner as Carrots.

1088 **Carters Mammoth**.—A greatly improved form of the ordinary Salsify.1089 **Scorzonera, Carters Improved**.—The roots are eaten cooked like Salsify; the leaves can be used as a salad.

	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price of the above.....	20c.	30c.	50c.

SEAKALE

THE CULTIVATION OF SEAKALE.—These tasty shoots are blanched and used similarly to Asparagus. They should be sown in drills early in the spring, after the ground is thoroughly warm, covering the seed about 1 inch. Thin to 6 inches, and the following spring transplant to rows, leaving about 2 feet between each plant. 1 oz. of seed will plant 75 feet of drill.

1371 **Lily White**.—A great improvement on the old variety.

	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
Price.....	20c.	30c.	50c.

HERBS

1296 **Balm** (MELISSA OFFICINALIS).—For making balm wine and tea.1297 **Basil, Sweet** (OCIMUM BASILICUM).—Used for flavouring.1298 **Basil, Bush** (OCIMUM BASILICUM).—Sow seed in early spring in boxes and transplant in early summer to open ground. For winter use cut growth when in bloom and tie in bunches.1299 **Borage** (BORAGO OFFICINALIS).—Used for flavouring, and valuable to bee masters.

Dill.

1305 **Fennel** (ANETHUM FENICULUM).—Used for making sauces.1306 **Lavender** (LAVENDULA SPICA).—The flowers are dried and used by the housewife for scenting the linen.1308 **Marjoram, Sweet** (ORIGANUM MARJORANA).—Used for seasoning.1309 **Purslain, Golden**.—A succulent plant and raised from seed, which may be sown in light garden soil on a warm sheltered border.1310 **Purslain, Green**.1311 **Rampion**.—Sow the seed in a bed in an open warm aspect. Water well in dry weather.1313 **Sage**.—Used extensively for seasoning.1314 **Savory, Summer**. } The leaves and flowers are used for1315 **Savory, Winter**. } seasoning soups and dressings.1316 **Sorrel, Broad-leaved**. } Very easy to grow. The leaves are1317 **Sorrel, Winter**. } of fine flavour, and can be boiled and1318 **Thyme** (THYMUS VULGARIS).—The leaves are used for seasoning.1319 **Whitlof**.—Distant variety of Chicory, largely grown in suburbs of Brussels; noted for the quality of its leaves.1320 **Wormwood** (ARTEMISIA ABSINTHIUM).—Is used medicinally.

	pkt.
Price of the above.....	10c.

1307 **Pot Marjoram** (ORIGANUM VULGARE).—Used for seasoning.

Price of the above.....	25c.

1111 CARTERS SUNRISE TOMATO (RED)

TOMATO

THE CULTIVATION OF TOMATOES.—About the last week in February or the first week in March is the proper time for starting plants. The plants can be started in greenhouses, hotbeds, window boxes, boxes in the living room, or most any sunny spot where the temperature is never below 60 degrees. Cover the seed lightly and when the plants have reached a height of 2 inches, transplant to other hotbeds or boxes, so that the plants are 4 or 5 inches apart each way. May 25th until June 21st is a good period for the transplanting to the open ground. Set the plants deeply 4 feet apart, mixing a good shovelful of well-rotted manure with the hilling soil of each plant; water freely at this time, and protect for a few days from the sun during the mid-day. A clearer-coloured, better flavoured and larger fruit will be obtained by training the plants to a trellis, and when trained to a single stem, plants may be put as near as fifteen inches between each plant. Tomatoes are rapidly growing in favour as a green house vegetable, and the forcing varieties do well and show wonderful productions. The plants should be started late in August for a midwinter crop. We recommend training the plants to a single stem by pinching out the laterals. 1 oz. of seed will produce 2,000 to 3,000 plants.

1114 **The Tresco Tomato**.—This variety has attracted so much attention at shows and in the horticultural press, we have pleasure in being able to supply a well-selected stock.1147 **Carters Golden Sunrise**.—Although there seems to be a general prejudice against yellow Tomatoes, we believe this kind has a great future before it. A golden prototype of our famous SUNRISE, it is a heavy cropper of handsome medium-sized fruits. The flavour is remarkably good, being slightly more acid than red varieties.

TOMATO—Continued

- 1111 Carters Sunrise.**—First Class Certificate, R.H.S.—Indoor cultivation. F.C.C. confirmed as Outdoor variety after growth at Wisley. During 1905 an extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in by the leading houses. The only First Class Certificate was given to CARTERS SUNRISE, and the following note is attached to the report:—"Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of exceptional value, viz., SUNRISE." It is some time since such a high honour has been granted to a Tomato.

The Chief Points are:

- ITS EARLINESS.**—It ripens several days earlier than most varieties.
ITS CROPPING PROPERTIES.—See photograph and Testimonials.
ITS HEALTHY AND ROBUST CONSTITUTION.—No trace of disease.
ITS PROLIFIC CHARACTER.—See Photograph.
ITS SOLID BUT DELICATE FLESH.—Contains very few seeds and practically no eye.
ITS EVENNESS OF SIZE as a desert fruit.
ITS BRIGHT SCARLET COLOUR and rich acid flavour.
ITS EQUAL VALUE FOR INDOOR OR OUTDOOR CULTIVATION.
GOLD MEDAL, Bristol, 1913; Leamington, 1913; Shrewsbury, 1912.

	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	25c.	45c.	75c.	\$1.30	\$2.25

"I have grown your SUNRISE Tomato with remarkable results. It is a splendid cropper, sets very freely, and carries trusses of from 16 to 24 fine medium-sized fruits of good quality and flavour."—MR. H.H.PARKER, Thornhill, Ont.

"In January last I had some CARTERS SUNRISE Tomato, and I wish to say they are far superior in crop, nice size, and good flavour. I also have a few of other varieties. I have ten thousand SUNRISE inside under glass."—J. D. NAIRN, Esq., Bartonville, Ont.

Sir Edmund Osler's Head Gardener: "CARTERS SUNRISE Tomato I consider to be the best; it has done remarkably well for me outside, AND FOR INSIDE WORK THERE IS NONE TO BEAT IT, a sure setter; medium, sized fruit of excellent flavour."—MR. WM. ALLAN, Rosedale, Toronto, Ont.

- 1112 Carters Duke of York.**—This grand variety still holds a very high position in public favour. Colour rich scarlet, splendid cropper, almost globular in shape; flesh very firm, fine flavour. A leading feature of this superb variety is that it ripens its fruit with the most pronounced uniformity, whilst the profusion of clusters, averaging six to ten evenly-formed fruit each, makes it conspicuously handsome.

- 1115 Carters Perfection.**—Quite distinct from any other variety named PERFECTION. It is very handsome in form, distinct in colour, exceedingly prolific, and of exquisite flavour.

- 1127 Comet.**—This is a very popular sort, for growing indoors or out, with a medium-sized fruit, almost round, and of a rich scarlet colour. One of the best forcing Tomatoes.

	1/16 oz.	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above	10c.	15c.	25c.	40c.	75c.

The seeds of all the above very choice varieties are saved with great care from plants grown under glass.

- 1113 Carters Outdoor Improved.**—This variety fruits readily in any situation where the full influence of the sun is felt. Has good form and shape, although not so round as DUKE OF YORK OR SUNRISE.

- 1118 Carters Coreless.**—We were quite impressed by the habit and quality of this main crop variety at our grounds at Raynes Park. It is a good, bright-red variety, almost round, and solid and free from green core.

- 1122 Carters Red Plum.**—Plum shaped, of prolific habit and good flavour.

- 1134 Earliana.**—A very early, large, bright red Tomato, which runs very uniform in size and shape. It is very hardy and can be set out early.

- 1135 Chalk's Early Jewel.**—One of the best early Tomatoes, of medium size and very productive. The colour is a bright red, and it is almost seedless.

- 1136 Dwarf Stone.**—These plants are very dwarf and sturdy, and produce a very large-sized fruit which resembles LIVINGSTON'S STONE TOMATO very closely.

- 1139 Ponderosa.**—Without a doubt this is the largest Tomato grown. The fruits are solid and of a bright crimson colour.

June Pink.—An excellent early variety, of splendid flavour, and a good cropper.

- 1141 Livingston's Stone.**—Always in demand; almost round, very solid and tasty, and of good keeping qualities.

Bonny Best.—A large smooth variety, heavy cropper, color bright scarlet.

	1/8 oz.	1/4 oz.	1/2 oz.	1 oz.
Price of the above.....	10c.	20c.	35c.	60c.

1166 TURNIP, JERSEY LILY

TURNIP

THE CULTIVATION OF TURNIP.—Sow CARTERS LITTLE MARVEL or CARTERS JERSEY LILY for early use the first week in March on a gentle hotbed under glass, and later in a warm situation in the open ground. For main succession crops, sow every three weeks in the open ground until the beginning of July. **The Ruta бага sorts** should be sown from the 15th of June until late in July. 1 oz. will sow 150 feet of drill; 2 lb. will sow an acre in drills.

TURNIPS FOR FRAMEWORK AND EARLY USE

- 1157 Carters Little Marvel.**—A NEW EARLY WHITE TURNIP. A cross between EARLY WHITE MILAN and JERSEY LILY. This is a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated; the tops are small and compact. It is undoubtedly the quickest white globe-shaped Turnip in cultivation.

- 1158 Carters Early Long Forcing.**—Quite a distinct Turnip for frame or outdoor work. Pure white flesh and of a most delicate flavour. It matures very rapidly, and is fit for table sooner than any other Turnip.

- 1166 Carters Jersey Lily.**—The most perfect in outline and the best white garden Turnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top.

- 1171 Carters Selected Green-top Stone.**—This stock has been re-selected.

- 1170 Carters Crimson-top Table Swede.**—A choice stock of Swede Turnip with delicate orange flesh, and specially adapted for growing as a winter table vegetable.

- 1175 Carters Nimble Six Weeks.**—White.

- 1176 Early Mousetail Snowball.**—White ball.

- 1186 All the Year Round.**—A yellow-fleshed variety.

- 1188 Orange Jelly.**—Golden flesh.

- 1189 Red American Strapleaf.**—A quick red-top white.

	1/2 oz.	1 oz.	1/4 lb.
Price of the above.....	10c.	20c.	65c.

KOHL RABI

Drill 4 lb. per acre.

- 1615 Kohl Rabi** is rapidly becoming more popular amongst farmers in each province, as it is a splendid stock food, and not more difficult to grow than mangels or turnips. Our seed is tested and ennobled.

Price..... \$3.00 per lb.

RAPE

2 to 4 lb. per acre drilled; 5 to 6 lb. broadcast.

- 1618 Carters Broad-leaved Rape, Ennobled Stock.**—An enormous cropping profitable green forage crop for all stock; a splendid plant for folding and for fattening sheep.

- 1619 Broad-leaved Essex Rape.**—A highly selected stock of this popular variety.

Price..... 30c. per lb.

FIELD BEETS OR MANGEL WURZEL

- 1624 **Carters Windsor.**—The best and heaviest cropping Yellow Globe Mangel in cultivation. We continue to maintain the high standard of our WINDSOR Mangel by rigorous selection under the well-known "CARTER" Method of Root analysis. All roots intended to be grown on for seed production are specially cultivated on our farms, and tested for density, percentage of sugar and food solids. Per $\frac{1}{4}$ lb., 35c.; per lb., \$1.30.
- 1625 **Carters Red Emperor.**—A heavy cropping variety, with high feeding value, density of flesh, digestible solids, and keeping quality. A splendid root for the dairy farmer or fat stock raiser, and a favourite with agriculturists farming shallow soils, for which it is specially recommended. Per $\frac{1}{4}$ lb. 30c.; per lb. \$1.10.
- 1626 **Carters Golden Tankard** (Re-selected Stock).—This is a favourite with dairy farmers on account of its richly-coloured yellow flesh and milk-producing qualities. It gives a heavy crop, and is a variety which is easily pulled, whilst it matures rather earlier than the Globe varieties. Per $\frac{1}{4}$ lb. 30c.; per lb. \$1.10.
- 1627 **Carters Dreadnought.**—This fine intermediate oval-shaped Yellow Mangel has been introduced and selected by us under the "Carter" Method of Root Selection according to feeding value and keeping quality. It is remarkably free from rootlets, and possesses a small top and fine shoulder, whilst it produces an enormous weight per acre of well-shaped clean roots. Per $\frac{1}{4}$ lb. 25c.; per lb. 85c.
- 1628 **Carters Improved Mammoth Long Red** (Re-selected Stock).—A good heavy cropping Mangel for light soils. Stands drought well. Per $\frac{1}{4}$ lb. 30c.; per lb. \$1.00.
- 1628 **Carters Lord Warden.**—A deep orange Globe Mangel, of immense size, extremely hardy and especially adapted for cold soils. Per $\frac{1}{4}$ lb. 30c., per lb. \$1.10.
- 1629 **Carters Improved Sugar Mangel.**—Being the result of a cross fertilisation between the well-known MAMMOTH LONG RED Mangel and IMPROVED SUGAR Beet, it combines the good cropping and feeding qualities of the former with the high sugar value of the latter. Per $\frac{1}{4}$ lb. 25c., per lb. 85c.
- 1630 **Carters Improved White Sugar Beet.**—Selected under the "Carter" Method, the "mother roots" giving a guaranteed analysis of 20 per cent. and upwards of sugar. Per $\frac{1}{4}$ lb. 45c., per lb. \$1.60.
- 1631 **Klein Wanzleben Sugar Beet.**—The best of all the Continental sorts adapted for growing in this country. Per $\frac{1}{4}$ lb. 45c., per lb. \$1.60.

Carters INVICTA PURPLISH BRONZE SWEDE.

SWEDE TURNIPS OR RUTA BAGA

- 1638 **Carters Holborn Invicta Swede.**—Purplish-bronze variety. CARTER HOLBORN INVICTA SWEDE has become the most popular swede in cultivation. This extensive popularity and public favour are sure proofs of its outstanding merits, and it is steadily taking the place of older and inferior sorts.
- 1637 **Carters Prize-winner Purple-top Swede.**—Growing to a large size, with a single tap-root and a very small and fine top. The leaf-stems break almost immediately above the crown of the bulb, which continues to grow and increase in weight long after the "necky" Swedes have mildewed and ceased to improve.
- 1636 **Carters Holborn Elephant Swede.**—A heavy cropping purple-top, tankard-shaped Swede of the highest feeding value. The root grows well out of the ground, is always sound and solid, and the variety adapts itself to almost any soil.
- 1639 **Carters Holborn Kangaroo Swede.**—A green-top Swede, well known on account of its disease-resisting and hardy nature. It is very suitable for growing on poor shallow soils.
- Best of All** (selected stock.) Purple Top Globe, small necked and quite hardy.

Price of the above.....	$\frac{1}{4}$ lb. 30c.	1 lb. \$1.00
(Mailing charges extra)		

CARTERS TURNIPS

- 1650 **Carters Imperial Green Globe.**—Ennobled strain. This Turnip is admitted to be the most perfect in every respect of Green Globe Turnips, though it is distinct from and far superior to the original type. Its value as a food for sheep and dairy cows is recognized by our customers, who put in several acres every year. White flesh.
- 1651 **Carters Improved Purple-top Mammoth.**—Ennobled strain. Owing to its rapid growth, this has now become probably the most generally grown variety for early feed in cultivation. It is very extensively grown, and is one of the largest and most solid white-fleshed Turnips we have for quick use.
- 1652 **Carters Pomeranian White Globe.**—A fine white-skinned Turnip. One of the best for early consumption.
- 1653 **Carters Devonshire Greystone.**—A mottled-top variety that keeps well; considered the hardiest of all the white-fleshed Turnips.
- 1654 **Carters Six Weeks Stone or Stubble.**—Quick-growing white round Turnip of fine quality. Can be used for marketing.
- 1655 **Carters Commonwealth.**—The best Turnip for early folding. Yellow flesh, hardy.
- 1656 **Carters First Crop Purple-top Hybrid.**—A quick-growing hybrid, yellow flesh Turnip.
- Purple-top Aberdeen.**—A well-known variety.

Price.....	$\frac{1}{4}$ lb. 30c.	1 lb. \$1.00
(Mailing charges extra)		

BEANS

- Early Yellow Soy (OR SOJA)** —A very valuable variety, suitable for silo, curing or feeding green. A splendid soil improver.
- | | |
|-------|--------|
| 1 lb. | 10 lb. |
| 25c. | \$2.10 |
- Price of the above.....

CARTERS CATTLE CABBAGE

- Drill 5 to 6 lb. per acre. For transplanting, sow 2 lb. per acre.
- 1601 **Carters Monster Drumhead.**—A large Cabbage of the Drum-head type, producing an enormous bulk of solid food.
- 1602 **Carters Improved Early Oxheart.**—A pointed Cabbage growing to a good size, with remarkably firm and solid heart. Drilled or planted about 1 fr. 8 in. apart in the row, and 2 ft. apart from row to row, an extraordinary crop can be produced in a few months.

Price of the above.....	1 oz. 50c.	$\frac{1}{4}$ lb. \$1.75	1 lb. \$6.00
-------------------------	------------	--------------------------	--------------

CARTERS CATTLE CARROT

- Is without the beard, and can be sown with an ordinary drill. Sow 8 lb. per acre.
- 1606 **Carters Orange Giant.**—Recognized as the best form of Orange or Yellow Cattle Carrot. Roots grow to an enormous size, are of excellent quality, clean shape, and possess very high feeding properties.
- 1607 **Carters Green Top Orange or Yellow Belgian.**—A good and heavy cropper on nearly all soils.
- 1608 **Carters Improved White Belgian.**—A splendid white Carrot, specially suitable for feeding horses.

Price of the above.....	1 oz. 20c.	$\frac{1}{4}$ lb. 60c.	1 lb. \$2.00
-------------------------	------------	------------------------	--------------

KALE

- Drill 6 lb. per acre.
- 1612 **Carters Ennobled Thousand-headed Kale.**—A useful and profitable feeding crop for cattle and sheep. Recommended by every Department of Agriculture. Our stock is highly selected and produces an enormous crop.

Price.....	$\frac{1}{4}$ lb. 80c.	1 lb. \$3.00
------------	------------------------	--------------

AGERATUM.

Hints on Culture.—Half-hardy annual, neat habit, with effective flowers, mostly lavender blue; very useful in beds or along borders. Sow early in spring in pans, in heat, and prick off when the seedlings are sufficiently advanced in growth. Can also be sown in the open in May.

- 3000 **Imperial Dwarf Blue.**—The finest bedding variety in cultivation. Ht. 9 in.
 3001 **Blue Star.**—The most compact Ageratum yet introduced. Light blue. Ht. 6 in.

- 3002 **Little Dorrit.**—Lavender. Ht. 6 in.
 3004 **Imperial Dwarf White.**—Ht. 9 in.
 3005 **Carters Lavender Band.**—New. Extremely dwarf, of soft lavender hue. Ht. about 4 in.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

ALYSSUM.

For spring or summer. Good pot or rockery plants.
 Easily grown.

- 3030 **Carters Snow Carpet** (Annual).—One of the most valuable dwarf bedding plants of modern introduction. Perfectly hardy. If transplanted a foot apart the plants spread out their side branches along the ground until they meet, becoming covered with pure white flowers, giving the effect of a snow carpet. Flowers through the summer and autumn until cut off by frosts. Ht. 4 in.

Price	...	$\frac{1}{8}$ oz.	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	$\frac{3}{4}$ oz.	1 oz.
		.10	.15	.25	.45	.75

- 3031 **Maritimum Sweet Alyssum** (Annual).—White. Ht. 9 in.

Price	...	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.
		.10	.15	.45

- 3032 **Saxatile sulphureum** (Perennial).—New shade. Ht. 9 in.
 3033 **Saxatile compactum.**—Hardy perennial for rockwork. Bright yellow. Ht. 6 in.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

ANTIRRHINUM OR SNAPDRAGON.

Hints on Culture.—Sow the seed in pans or boxes from February to March, and transplant to bed or border when large enough. If the withering flowers and seed pods are kept picked off, the plants will last in bloom for a long time, and continue again the following year. Can easily be grown as annuals if sown in the open ground in April. Thin out about 1 ft. apart.

CARTERS INTERMEDIATE LARGE-FLOWERED.

This is undoubtedly the finest form, both for bedding and ribbon borders, the dense, well-formed trusses contrasting beautifully with the deep green foliage. The trusses are excellent for cutting, and being slightly curved lend themselves to any decorative arrangement. Ht. 1 to 1½ ft.

- 3058 **NOVELTY.** **Nelrose.**—This is the wonderful glowing pink variety. The seed we offer is a highly-selected stock, which is true, with the exception of a very small proportion of plants which produce flowers of a slightly darker shade of pink than the type. No Antirrhinum can compare with it for indoor decoration, and it is equally effective for beds or borders.

- 3059 **Carters Salmon Queen.**—A delightful combination of orange-pink and apricot, flushed salmon, (*Crop failed*)
 3060 **Carters Golden Crest.**—Soft rose-pink, tinged salmon, with golden orange lip. We predict a great future for this remarkably brilliant variety as a bedding plant.

- 3061 **Carters Scarlet Flame.**—A self brilliant fiery scarlet, hence the name we have given to it. In the sunshine the spikes look flame-like in their brilliancy.

- 3062 **Carters Terra Cotta and Creamy Shades.**—A charming strain of soft, delicate shades which are quite new in this section.

- 3063 **Carters Fiery Belt.**—A most striking colour, fiery brilliant orange-scarlet, with white throat. A small group of this flower enlivens the whole garden.

- 3064 **Carters Pink.**—Quite a charming variety. Delicate pink with white throat.

Price of the above	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

CARTERS DWARF LARGE-FLOWERED.

A compact strain. Flowers variously coloured. This type makes a good pot plant, and is invaluable in borders or beds. Ht. 6 in. We offer the following colours:—

- 3080 **Carters Crimson.**—Clear, rich shade, very free flowered.
 3081 **Carters Rose.**—A particularly charming shade of old rose. This variety attracted considerable attention at the R.H.S. trials, lady visitors being particularly impressed with its beauty. Highly recommended, R.H.S.

- 3087 **Carters Striped.**—Endless shades of all striped and blotched varieties.

- 3090 **Carters Dwarf Choicest Mixed.**

Price of the above	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

CARTERS TALL LARGE-FLOWERED.

This fine hardy perennial, which should be treated as an annual for bedding, has been greatly improved in size and colourings. Ht. 2 to 3 ft.
 3039 **Fire King.**—Bright cinnabar red with small yellow spot on the under lip; effective.

Price of the above	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

- ABUTILON** (INDIAN MALLOW).—Elegant form. Useful for conservatory decoration and for sub-tropical bedding. Sow in heat early in spring, and pot off as soon as large enough to handle. For bedding out they should be hardened off well before planting out. Ht. 6 ft.

- 3141 **Carters Choicest Mixed.**

Price	...	20 seeds.	40 seeds.	100 seeds.
		.25	.45	1.00

- ACACIA** (MIMOSA, WATTLES).—Shrubs in high repute for decorative purposes under glass.

- 3146 **Carters Choice Mixed.**—All the best kinds.

Price	...	75 seeds.	150 seeds.	300 seeds.
		.10	.15	.25

- AMARANTHUS.**—Half-hardy annuals with very ornamental foliage. Sow in March in gentle heat.

- 3170 **Tricolor.**—Sub-tropical. Colours scarlet, crimson, and gold. Ht. 2 ft.

Price	...	750 seeds.	1,500 seeds.	3,000 seeds.
		.10	.15	.25

- ANCHUSA** (BUGLOSS).—Hardy perennials, of easy culture. Sow in spring and transplant.

- 3183 **Italica.**—Brilliant hue. Ht. 3 ft.

Price	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

- 3184 **Dropmore Variety.**—A very fine variety with heads of beautiful flowers of a lovely gentian-blue shade. Excellent for cutting. Ht. 4 ft.

Price	...	30 seeds.	60 seeds.	120 seeds.
		.25	.45	.75

CARTERS LONG-SPURRED AQUILEGIA.

Hints on Culture.—Hardy perennials of great beauty and utility in borders, where they will bloom freely when established, early in the summer. The long-spurred type of which we make a speciality, gives elegant cut flowers. We have now included some new and effective colours. Sow seeds under cover in February for transplanting in spring to a border, when, if the summer is favourable, they may bloom in autumn. If sown in summer sturdy plants will be ready by autumn for transplanting to the border to flower next May and June.

3100 Carters Long-spurred, Rose and Pink Shades.—A very pretty strain of robust habit, containing a wide range of charming shades, from deep rose through rosy carmine to pale pink and flesh. Ht. 2 ft.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.25	.45	.75

3101 Carters Long-spurred, Blue Hybrids.—This is a very fine strong-growing form of *Aquilegia coerulea*. The blooms are much larger than the type, and the plants extremely floriferous. Ht. 1 ft. Packet 25c.

3102 Carters Long-spurred Golden.—Pure golden shade; a very charming form. Ht. 2 ft.

3105 Californica hybrida.—Long-spurred hybrids. Yellow corolla with golden spurs. Ht. 2½ ft.

Price of the above except	500 seeds.	1,000 seeds.	2,000 seeds.
where otherwise noted	.10	.15	.25

3103 Carters Long-spurred, Double Golden.—A double form of the above species. This seedling strain is more robust than the original form, and comes about 50 per cent. double, but all flowers are of the same golden shade.

3104 Carters Long-spurred, White.—Similar in habit to the above varieties. Flowers pure white, with pale blue. A very chaste form. Ht. 2 ft.

3107 Carters Long-spurred, all Colours Mixed.—This strain represents the last word in Aquilegias, and contains numerous fine forms which cannot be fixed in their separate colours. We have placed great importance upon robustness of habit in selecting this unique strain. Ht. 2½ ft.

3110 Columbine, Carters Hybrids.

ASTER.

Hints on Culture.—The whole group may be described as half-hardy annuals, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires, when they are ready about June.

3269 NOVELTY. Carters Large-flowered.—A very fine strain of tall open habit. The large well-formed blooms are carried on very long stiff stems, and are splendid for decoration. Principally bright cerise, medium blue, pale blue, shell pink, delicate rose, and pure white. Price per pkt., .30

3285 NOVELTY. Carmine Queen.—A novel introduction of great beauty. The plants are of graceful habit, and the well-formed blooms are carried well above the foliage. The florets, which open pure yellow, shade as the blooms develop to a soft terra-cotta carmine. A particularly beautiful combination by artificial light. Price per pkt., .30

CARTERS RAY.

Quite a unique type of the annual Aster. The flowers, which are very large, often 5 in. across, are produced on long stalks, and have prettily arranged quilled petals. Fine for cutting, as they last a week in water if cut before fully expanded. Ht. 1½ ft.

3225 Carters Crimson.

3228 Carters Pale Mauve.

3230 Carters Pure White.

3226 Carters Dark Blue.

3229 Carters Azure Blue.

3231 Carters Mixed Ray.

3227 Carters Carmine Rose.

Price of the above	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
	.10	.15	.25	.60

CARTERS VICTORIA.

A beautiful type. The blooms are large, profuse, and handsome, whether grown in beds or pots. It has a good habit, and makes a grand end of summer bedding plant. Ht. 1½ ft.

3234 Carters Dark Blue.

3239 Carters Sulphur Yellow.

3241 Carters Crimson.

3235 Carters Light Blue.

3240 Carters White.

3242 Carters Splendid Mixture.

3237 Carters Rose.

Price of the above	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
	.10	.15	.25	.60

CARTERS LARGE SINGLE COMET WITH FLOWING PETALS.

An improved type of the original single variety. There is quite a rage for these as cut flowers, for which purpose they are eminently adapted. In a bed, too, they make quite an effective display until autumn is well in. Ht. about 1 ft.

3258 Carters Choicest.—All colours mixed. Price ... 100 seeds. 200 seeds. 400 seeds. 1,000 seeds.
.10 .15 .25 .60

CARTERS PLUME.

We particularly recommend these varieties for cutting. The blooms, equalling Chrysanthemums in form, are borne on long stems, and the three shades blend well together. The most noble flowered Aster in cultivation. With flowing feathery petals; grand for cutting. We have measured blooms 6 in. across. Ht. about 1½ ft.

3261 Carters White.

3262 Carters Blue.

3263 Carters Rose.

3267 Carters Choice Mixed.

Price of the above	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
	.10	.15	.25	.60

CARTERS PÆONY-FLOWERED.

A very fine type for bedding, with large well-shaped blooms, the petals curving inwards. Very hardy. Ht. 1½ ft.

3270 Carters Crimson. | **3271 Carters Blue.** | **3272 Carters Rose.** | **3273 Carters White.** | **3280 Carters Choice Mixture.**

Price of the above	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
	.10	.15	.25	.60

CARTERS SINENSIS SINGLE.

A free-growing single Aster, suitable for vases and house decoration. Ht. 1½ ft.

3326 Blue.

3327 Mauve.

3328 Pink.

3329 White.

Price of the above	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.

3332 Extra Early Midsummer Scarlet

Comes into bloom about middle of June; a striking pot plant.

Price of the above	...	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
		.10	.15	.25	.60

3347 Perennial (Michaelmas Daisies).—Hardy perennials. Sow in early spring, in gentle heat, and prick off. We can also supply rooted plants. Carters splendid mixture. Ht. various.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

Chrysanthemum-flowered.—A dwarf variety of great beauty.

3314 Dark Blue.

3315 Fiery Scarlet.

VICK'S LATE BRANCHING ASTER.

A very popular and vigorous type of Aster, the plants of which produce an abundance of graceful feathery typed flowers, which stand erect on strong stems.

3350 Blue. | **3351 Crimson.** | **3352 Pink.** | **3353 White.** | **3354 Mixed.**

Price of the above	...	100 seeds.	200 seeds.	400 seeds.	1,000 seeds.
		.10	.15	.25	.60

CARTERS CHALLENGER BALSAM.

Hints on Culture.—Balsams may be sown from the beginning to the middle of April in pans or on a slight hotbed, in a light, rich loam compost, covering the seed about half an inch, keeping the soil moist, but not wet. When the plants have formed the second pair of leaves they may be transplanted four round the edge of a 6-in. pot, and gradually hardened off for transplanting out of doors; or they may be planted in a cold pit, 4 in. apart, as near the glass as possible, giving more air as the season advances until June, when they may be turned into the open borders, the warmest situations being the most suitable and allowing 2 ft. each way between the plants. If for pot culture, they must be divided and transplanted into single pots, once or twice into larger pots, picking off the flowers in the earlier stages of growth to give greater vigour.

3390 Carters Challenger, Superb Mixture.—A highly select strain, the individual blooms being perfect in form and of splendid substance. The shades range from pure white through flesh, clear, and deep pinks to scarlet. Many lovely new mauve and purple shades are also contained in this unique strain. Matchless in form, substance, size, and colours.

Price of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.10	.15	.25

3391 Carters Rose Queen.—This beautiful variety produces enormous spikes of large double flowers of a delicate rose colour; excellent habit; very striking.

3392 Camellia-flowered.

3393 Double Mixed.—For pots or borders.

CARTERS CHOICE TUBEROUS-ROOTED BEGONIAS.

Hints on Culture.—Begonias are much superior to Geraniums for bedding, being quite unaffected by heavy rains. For growing in pots this strain is superb, producing a very high percentage of really first quality perfectly double flowers, equalling the best named varieties, but having more vigorous constitutions.

The seed should be sown in heat at end of winter to produce strong flowering plants in the summer, in pans of very fine soil. Prick off the seedlings into pans and pot off later. Care should be used when sowing, as the seed is very fine. We can also supply tubers ready to start into growth in early spring.

These Begonias are invaluable for growing in beds and groups; also for pot culture. They come into bloom very early, and last all the season.

3370 Carters Choicest Double.—This fine strain contains all the largest and best forms and most brilliant colours in cultivation.

3371 Carters Fringed Double.—A production of great novelty and beauty. Each petal is crimped or waved, which gives a very graceful appearance to the large double flowers.

(Crop failed.)

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.25	.45	.75

3373 Carters Crown Jewels Mixed Single, including Fringed Varieties.—It is impossible to praise too much this superb strain of this highly-favoured flower. The blooms are borne on long stout stems, which raise them well above the foliage. For size and quality of the flowers, combined with brilliance in colours, this mixture is unequalled. Grand for bedding out.

CARTERS CHOICE FIBROUS-ROOTED BEDDING BEGONIAS.

Perpetual flowering. Small blooms in clusters.

3381 Vernon Tom Thumb.—A charming free-flowering variety. Blood scarlet flowers and bronze foliage.

3382 Fairy Queen, Tom Thumb.—Colour delicate glistening rose, marked with white centre. (Crop failed)

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.25	.45	.75

CARTERS VICTORIA PRIZE CALCEOLARIA.

It is impossible by photography to give any adequate idea of the beauty of these magnificent flowers. The variations and markings are endless, the flowers are of large size and perfect in form, and the habit is unexceptionable. Our exhibit at the Chelsea Show of the Royal Horticultural Society in 1914 was the theme of general admiration.

3450 Carters Victoria Prize, Mixed, all Colours.—In addition to the usual range of colours found in this plant, our choice strain produces many distinct seedlings of unique colour, the rose, pink, and cupreous shades being particularly pleasing.

3453 Hardy Shrubby.—From best varieties.

3454 New Dwarf Bedding.

3452 Golden Princess.—Exquisite yellow. Of the same perfect habit as our *Victoria Prize* strain. The soft pure golden flowers are very valuable for conservatory decoration during that period of the year when this colour is scarce.

3457 Mixed Colours.—Although an excellent strain, does not contain such a range of colour as our *Victoria Prize*.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.25	.45	.75

CARTERS MINIATURE CALCEOLARIA.—A curious small-flowered type, quite unique in growth and character. Makes a fine dwarf plant for stage fronts in conservatory among other growths of similar habit.

3460 The Pigmy.—A dainty plant, with beautifully variegated blossoms. Ht. 5 in. (Crop failed.)

3461 Tom Thumb.—Brilliant as the *Victoria Prize* varieties, but of dwarf habit.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.25	.45	.75

ARABIS.—Hardy perennial for spring bedding.

3196 Albida.—White; neat. Ht. 6 in.

3197 Alpina.—Paper white. Ht. 6 in.

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

ARCTOTIS.—Half hardy. An annual from South-west Africa. Most useful for cutting, having long stalks.

3120 Grandis.—Daisy-like flowers, pure white, lilac on the outside, with a lavender disc. Of very easy culture, flowering all the summer. Ht. 2 ft.

Price ...	50 seeds.	100 seeds.	200 seeds.
	.10	.15	.25

ARISTOLOCHIA (THE DUTCHMAN'S PIPE).—Climbing plants, with curious pipe-shaped flowers. Sow in heat in March, and pot off.

3205 Sipo.—Hardy climber; splendid foliage, and easily grown.

Price ...	50 seeds.
	.25

ASPARAGUS PLUMOSUS.—Easily raised from seed sown in early spring in heat. Valuable for cutting for bouquets and table decoration. Also makes a nice plant for covering a pillar in the conservatory, or for training over a balloon-shaped frame. *Sprengeri* is a grand basket plant.

3126 Plumosus nanus.

Price ...	20 seeds.	100 seeds.
	.25	1.00

3127 Sprengeri.

Price ...	50 seeds.	500 seeds.
	.10	.75

AUBRIETIA.—Great favourites for spring bedders, rockeries, &c. Perennial, quite hardy. Bright perpetual bloomers. Easily raised from seed sown in spring. Ht. 4 in.

3130 Whitewell Gem.—Originally found in an old Shropshire garden twenty years ago. Continual selection has improved and fixed the strain. The individual flowers are large and of an intense glowing reddish purple, freely produced on long stems. The plants are remarkably vigorous and remain in flower for many weeks. This latter characteristic is one of its most valuable assets.

3131 Deitoides.—Blue.

3133 Græca.—Pale mauve.

3132 Leichtlini.—Rosy lilac.

3134 Purpurea.—Dark.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.10	.15	.25

AURICULA.—Hardy perennial. Sow seeds in August or February, and pot off. This is one of the best and most interesting of the florists' flowers for amateurs' cultivation. It thrives well near large towns. The smallest seedlings frequently produce the choicest blooms.

3218 Alpine.	Price ...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

BARTONIA.—Hardy annual. Showy, and very easily grown. Sow in open border in spring.

3403 Aurea.—Rich golden colour.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

CALLIOPSIS. (COREOPSIS.)

Hints on Culture.—Hardy annuals and perennials. All are universal favourites and useful for cut flowers. The annual varieties should be sown outdoors in early spring in the place they are intended to flower, or, for earliest work, may be sown under glass, and then pricked out.

ANNUAL VARIETIES.

Large flowered, tall, branching habit; very useful for back of borders and cut flowers. Ht. 2½ to 3 ft.

3502 **Tall Crimson.** | 3503 **Tall Crimson and Gold.** | 3505 **Carters Choice Mixed Tall Annual Varieties.**

Dwarf, compact habit, useful for cut flowers. Ht. 1½ ft. to 1½ ft.

3508 **Dwarf Crimson.** | 3509 **Dwarf Crimson and Gold.** | 3511 **Carters Choice Mixed Dwarf Annual Varieties.**

Miniature, the shortest growing type; fine for edges. Ht. 9 in. to 1½ ft.

3514 **Miniature Crimson Marbled.**—The flowers show a groundwork of chocolate, flaked and marbled with gold, giving a most fantastic combination. Unfortunately some tall plants invariably appear amongst the dwarfs.

3515 **Miniature Crimson and Gold.**—Of all the dwarf varieties this is the most miniature.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

VARIOUS CALLIOPSIS.

3520 **Grandiflora.**—Grandest of all; large golden yellow; a hardy perennial. A lovely border plant both for effect and cutting. Much appreciated for house decoration when cut. Ht. 3 ft.

3521 **Bicolor (Tinctoria)** (Annual).—Very pretty. Ht. 2½ to 3 ft.

3523 **Coronata** (Perennial).—Yellow, dark spot. Ht. 2 ft.

3524 **Lanceolata** (Perennial).—Large yellow flowers. Ht. 2½ ft.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.20	.15	.25

CAMPANULA.

Hints on Culture.—The usual way for flowering the following spring is to sow the seeds in summer in a partially shaded spot in nice soil and keep them growing until strong enough to transplant or pot.

3530 **Persicifolia alba (Giant White).**—This is the finest form of this most effective hardy border perennial. The graceful spikes render it invaluable for house decoration either when cut or as pot plants. June flowering. Ht. 3 ft.

3531 **Mirabilis** (Perennial).—Magnificent, pyramidal and bushy; pale blue. Ht. 2 ft. (*Crop failed.*)

3532 **Carpatica** (Perennial).—Large blossoms; excellent pot plant; blue. Ht. 6 in.

3533 **Carpatica alba** (Perennial).—White variety.

3534 **Grandiflora** (Perennial).—Purple violet. Ht. 1½ ft.

3535 **Grandiflora alba** (Perennial).—White 1½ ft.

3536 **Pyramidalis** (Perennial).—Blue; charming pot plant. Ht. 4 ft.

3537 **Pyramidalis alba** (Perennial).—White variety.

3538 **Rotundifolia (Harebell)** (Perennial).—Deep blue; the true wild species. Ht. 1 ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CANDYTUFT.

Hints on Culture.—These hardy flowers are now a necessity, requiring the most simple cultivation, and will flourish in almost any soil. The range of colour has now been considerably extended, the lilac, rose, cardinal, and carmine being particularly charming. Sow in spring in ordinary soil. For pot work, sow in pots in frame, and thin out the seedlings, or they may be transplanted. Average ht., 1 ft.

3658 **Carters Empress Compact.**—Large spikes of the purest white and of erect habit; dwarf and compact, very profuse in bloom, exceedingly showy and effective. Extract from R.H.S. trials: "CANDYTUFT EMPRESS COMPACT (CARTER).—Very neat and compact; flowers white, in dense pyramidal spikes; freely produced; the best white Candytuft in the trial." Ht. 6 in.

3663 **Carters Hyacinth-flowered.**—The tallest and finest white variety, each plant having five or six heads of bloom. Its fine pyramidal spikes of the purest whiteness make it a very attractive decoration in either beds or borders. Sow in spring, and transplant 9 in. apart, keeping faded heads cut away. A very fine subject for pot work, especially when autumn sown. Ht. 1 ft.

3659 **Rose Cardinal.**—A beautiful shade of rosy scarlet.

3660 **Carters Carmine.**—Bright rose, excellent form.

3661 **Carters Spiral.**—Pure white, long trusses.

3662 **Carters Pigmy.**—A dwarf type of hyacinth-flowered, and a charming bijou variety for edging, beds, or borders. The medium-sized spikes are borne in the greatest profusion. Ht. 4 in.

3664 **Carters Crimson.**

3665 **Carters Purple.**

3666 **Carters Lilac.**

3667 **Carters White.**

3669 **Carters Choice Mixed.**—For open borders.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

PERENNIAL CANDYTUFT FOR BORDERS OR ROCKWORK.

3672 **Iberis Gibraltarica.**—Suffused lilac, lovely species.

3673 **Iberis sempervirens.**—The flowers form a carpet of pure white in early spring.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

BEE LARKSPUR (DELPHINIUM STATUM).—A striking perennial. Of easy culture for large flower borders and wild gardens.

3406 **Bright Blue.**—Ht. 3 ft.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CACALIA.

3484 **Coccinia (The Scarlet Tassel Flower).**—For mixed borders. Annual. Ht. 1 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CALAMPELIS (ECCREMOCARPUS).—Climber for verandahs, trellises, &c. Handsome racemes of bloom. Perennial. Sow in heat to bloom the first season out of doors.

3487 **Scabra.**—Orange-scarlet. Ht. 10 ft.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CALANDRINIA.—Perennial. Succulent plant. Sow in pans in spring, place in frame, and prick out in bed or border for summer blooming.

3490 **Umbellata.**—Vivid crimson; good rock plant.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CALENDULA (GARDEN MARIGOLD) (Annual).—Very showy border plant, lasting the whole of the summer without any attention whatever beyond keeping the seed vessels picked off. Not at all particular to either soil or surroundings, and may be described as everybody's flower. Sow in spring where plants are intended to flower.

3544 **Cockade Orange.**—Very large double flowers; showy colour. Ht. 1 ft.

3545 **Meteor.**—Lemon yellow, orange stripes. Ht. 1½ ft.

3546 **Hybrida or Pot.**—Single yellow. Ht. 1½ ft.

3547 **Officinalis.**—The single yellow cottage garden Marigold Ht. 1 ft.

3548 **Pluvialis.**—Pure white. Ht. 1 ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

CAMELLIA.—Greenhouse shrub, universally admired. Sow seeds early in the spring in pots, place in heat, and pot off as soon as seedlings can be conveniently handled.

3499 **Japonica, fl. pl.**—Saved from the best varieties.

Price	...	10 seeds.	20 seeds.	40 seeds.
		.25	.45	.75

CARTERS SUPERB CANTERBURY BELL.

Hints on Culture.—Hardy biennials. Sow in summer, transplant to a bed in autumn for flowering the following year. They also make effective pot plants for spring flowering, sown in summer and potted in autumn, and kept in a cool frame through winter. No matter how carefully the double-flowering types are saved, some are certain to become single. The seed-bearing spikes should be cut out when the beauty is over, and more may come.

CUP AND SAUCER VARIETIES

(*Calycanthema*).

- 3465 **Carters Blue.**
 3466 **Carters Rose.**
 3467 **Carters White.**
 3469 **Carters Choice Mixed.** Ht. 2 ft.

SINGLE VARIETIES.

- 3471 **Carters Single Blue.**
 3472 **Carters Single Rose.**—Delicate.
 3473 **Carters Single White.**
 3475 **Carters Superb Mixed.**—All shades of colour; a fine assortment of both singles and doubles, but not including the Cup and Saucer varieties. Good habit.

DOUBLE VARIETIES.

Seed chosen from the very best double flowers, but unfortunately a few singles cannot be avoided.

CARNATION AND PICOTEE.

Hints on Culture.—A popular and lovely flower, always in fashion. In colour and form unique, with a pleasing fragrance in many types. Whether grown in pots for conservatory decoration or in the garden beds for summer display, its charms are equally attractive. Our seed is saved with the greatest care, and should produce a large percentage of the very best flowers, but unfortunately, as with other florists' flowers, it cannot be guaranteed that every one will come double. Care should be taken to preserve the smallest seedlings, as these frequently produce the finest quality blooms. Sow in spring in cold frame, prick out, and plant out in good soil when strong enough, for flowering the following season.

- 3677 **Carters Choice Double Carnation.**—A splendid mixture of selfs, flakes, bizarres, fancies, and yellow grounds. All varieties mixed.
 3678 **American Tree Carnations.**—The seed we offer is saved from one of the best collections in the country, being hand-fertilised by experts who have raised many of the best forms now in commerce.
 3679 **Choicest Perpetual or Tree.**—Includes all the best French varieties in cultivation.

- 3680 **Perpetual Yellow.**—About 35 per cent. true from seed.
 3681 **White Lady.**—Large pure white.
 3683 **Picotee.**—Choicest perpetual mixed.
 3684 **Grenadin.**—A bright scarlet form, similar in habit to *Margaret* varieties.

Price of the above, except No. 3684

CARTERS ANNUAL CARNATION.

Bloom in six months from seed.

Hints on Culture.—Carnations are favourites with all lovers of flowers. This strain will bring them within the reach and the cultivation of everybody, as it is one of the most valuable introductions of modern times. Sow under glass in January and February, and transplant as soon as ready. They commence to flower in July, producing a wealth of large bloom of great variety of colour until cut off by the frost, thus producing a supply after the perennial varieties are over. Being equally valuable for indoor cultivation, some can be potted and placed in a cool greenhouse, when they provide a succession of bloom during the winter months. They can also be sown in June to flower the following year. They produce a very large percentage of double flowers and include a most varied assortment of fancy, yellow ground, bizarre, as well as selfs, rich with delightful fragrance and diversity of colour.

- 3692 **Carters Annual Carnation** (see description above).

- 3693 **Margaret, Mixed.**—A fine early-flowered strain which may be sown in February under glass for blooming the same season, or in June and July for flowering the following year.

Price	...	40 seeds.	80 seeds.	160 seeds.
		.25	.45	.75

- 3694 **White Margaret.**—Pure white blossom, delicately scented, and a splendid subject for cut flowers.

Price of the above	...	200 seeds.	400 seeds.	800 seeds.
		.10	.15	.25

CARTERS RAINBOW CELOSIA. (CELOSIA PLUMOSA—Feathered Cockscombs.)

Annual. A grand feature in summer bedding; graceful plumes. Sow in spring in heat, prick off into pans, and pot off. They like a good rich soil in a sunny spot. Ht. 2 ft.

- 3652 **Carters Rainbow** —A magnificent strain. Plants of perfect habit, carrying enormous plumes from pale rose to deepest crimson and deep primrose to old gold.
 (Crop failed.)

- 3654 **Carters Dwarf Golden.**—Splendid type for bedding or pot work; the compact plants bear splendid feathery plumes and come quite true from seed. Ht. 1½ ft.

- 3655 **Carters Dwarf Crimson.**—Similar type to *Dwarf Golden*.

Price of the above	...	250 seeds	500 seeds	1,000 seeds
		.15	.25	.45

- 3653 **Carters Perfection Plume, Mixed** Price 1,000 seeds, .10; 2,000 seeds, .15; 4,000 seeds, .25

CARTERS GIANT ANNUAL SWEET SULTANS. (CENTAUREA.)

Hints on Culture.—The flowers of this greatly improved annual are at least twice the size of the older varieties, and a number of distinct new shades are now available. Its most deliciously scented long-stemmed flowers will last in water for a fortnight. In this respect alone it exceeds any other annual we can call to mind. We give this flower the highest possible recommendation. May be sown in pots and pricked out for early flowering, or in open borders in spring for general work. Ht. 1½ ft.

CENTAUREA AMERICANA.

- 3635 **Americana.**—Purple, thistle-like flowers. Sow in open ground during spring. Although this charming lavender Centaurea

has been offered by us for many years, it has never attained the popularity which its beauty deserves. Ht. 2 ft.

Price	...	100 seeds	200 seeds	400 seeds
		.10	.15	.25

ANNUAL CHRYSANTHEMUMS.

Hints on Culture.—Of all annuals these pretty flowers hold a leading position, and many of them have been raised on our Seed Farms. All are beautiful in beds and borders and good for window boxes or cutting. Sow seed in spring for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass. Ht. 1½ ft.

3742 Morning Star.—Single. Delicate sulphur-coloured blossoms; very pretty. Equally good as a single plant, grown in masses in beds or borders, or as a cut flower. The best annual variety to use as a pot plant for winter blooming.

3750 Single White (Ox-eye Daisy). (Crop failed.)

3751 Single Yellow.—A highly select and glorified form of *Corn Marigold*. (Crop failed.)

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

3743 Carters Choice Mixed Annual.—We have given unlimited attention to perfecting this strain, which contains a splendid range of colours. Many of the flowers have two or three zones of colour, which imparts to them a wonderful brilliance. The plants being very robust should be thinned or planted out at least 1 ft. apart.

3752 Single Mixed.—Contains all the best of the ordinary forms and colour; very robust plants.

PERENNIAL CHRYSANTHEMUMS.

3766 Shasta Daisy.—A new perennial variety from America, with large white flowers on long stalks. When sown very early under protection the flowers often appear before summer is over. Ht. 2½ ft.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

3767 Maximum King Edward VII.—Single. A splendid large-flowered variety, which we highly recommend; the flowers are pure white, and borne on long stiff stalks well above the foliage. Ht. 2½ ft.

CARTERS BRILLIANT PRIZE CINERARIA.

Hints on Culture.—The flowers continue to attract the greatest attention wherever exhibited, and space hardly permits us to recount the many gratifying successes achieved by our house and its exhibits. The Royal Botanic Society have awarded no less than 4 Gold Medals to this brilliant strain. Gold Medal, Royal International Exhibition, Chelsea, 1912; Gold Medal, R.H.S., Chelsea, 1913; Silver Cup, Chelsea, 1914. Sow seed in pans filled with a good light sandy compost in spring up to the beginning of June, and place in a cool frame. Transfer to small pots as soon as the seedlings have developed their leaves, and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmas to May.

3710 Choicest Colours saved from Finest Flowers. All Colours Mixed.—The constant and painstaking attention which we have lavished upon this strain has resulted in the production of a remarkable range of colour. The self colours range from pure white through varied shades of pink, rose, and carmine to deepest crimson, and pale porcelain, wedgwood, ultramarine, royal blue to the deepest purple, whilst the bordered varieties show a remarkable diversity of shades. The habit of the plants is perfect, it being difficult to find a plant showing the slightest divergence from type.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.25	.45	.75

CARTERS DECORATIVE CINERARIAS.

Carters Floral Exhibits at Chelsea, 1912, 1913, and 1914, were awarded 2 Gold Medals and a Large Silver Cup, and included these beautiful Cinerarias.

3718 Carters Choicest Mixed Cactus.—An entirely new break. The edges of the florets recurve like a single Cactus Dahlia. The colours include white, blue, blush, violet, mauve, and some have a white zone surrounding the dark disc, the florets being tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations. A grand mixture, including all shades of colour.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.25	.45	.75

3719 Carters Choicest Mixed Stellata.—This free-panicked variety has obtained general approval, especially for decorative arrangements, for which purpose it has proved marvellously effective, being a valuable adjunct to the much-admired *Carters Brilliant Prize*. It should be raised and treated in the same manner as the other greenhouse varieties.

CLARKIA.

Hints on Culture.—This type attains a height of 2½ ft. in the open ground, and bears long graceful sprays of double and semi-double blooms which are splendid for decorative purposes, lasting for several days in water. The seed should be sown in the spring in the open border, or sown during the autumn and grown on in a cool house, this section make magnificent specimens 4 to 6 ft. high for the adornment of the greenhouse or winter garden.

3777 Carters Scarlet Queen.—Double. A wonderful glowing salmon scarlet; very brilliant and clear under electric light.

3778 Brilliant Princess.—Double. Clear warm rose. A very telling variety for pots or borders.

3779 New Blotched.—Semi-double. The petals are clear rose pink with a flaking of rosy scarlet. The combination is very effective.

Price of the above	...	1,500 seeds.	3,000 seeds.	6,000 seeds.
		.10	.15	.25

3780 Purple King.—Double. Clear rosy purple. An excellent companion to *White Prince*.

3781 Salmon Queen.—Double. Salmon pink. The forerunner of the present-day improved varieties.

3782 White Prince.—Double. Pure white. An excellent companion to any of the above varieties.

CANARY CREEPER (TROPÆOLUM PEREGRINUM).—Favourite climber for trellises, arbours, stumps of trees, &c.; very graceful, bright canary colour. Sow in pots in February and bring on under glass or sow in the open in spring. Ht. 10 ft.

3552 Canary Creeper.—Half-hardy climbing annual.

Price	...	50 seeds.	100 seeds.	200 seeds.
		.10	.15	.25

CANNA (INDIAN SHOT).—Ornamental-foliaged plants with showy flowers, for stove, greenhouse, or sub-tropical planting. Steep seed 24 hours in tepid water, and sow in strong heat. Pot off seedlings as soon as they can be handled.

3574 Crozy.—Choicest dwarf varieties; magnificent. Both foliage and bloom show a wide range of colour.

3575 Carters Choice Mixed.—All the best varieties.

Price of the above	...	20 seeds.	40 seeds.	80 seeds.
		.10	.15	.25

CANNABIS (INDIAN HEMP).—One of the finest foliage plants for sub-tropical gardens and beds. Sow in spring and prick off.

3578 Indica.—Ht. 6 ft.

Price	...	200 seeds.	400 seeds.	800 seeds.
		.10	.15	.35

CASTOR OIL PLANT (RICINUS).—Stately plants with large palmate foliage for conservatory or sub-tropical garden and general decoration. Mostly grown as annuals. Sow in spring in heat, and plant out in summer.

3566 Cambodgiensis.—Foliage crimson, almost black.

3567 Gibsoni.—Popular dark bronze-leaved variety. Ht. 3 ft.

3568 Zanzibariensis.—Grand foliage of various shades. Ht. 6 ft.

3569 Africanus.—Light. Ht. 6 ft.

3570 Sanguineus.—Hardest variety; dark stems, red foliage. Ht. 6 ft.

3571 Carters Choicest Mixed Varieties.

Price of the above	...	.10	.15	.25
		¼ oz.	½ oz.	1 oz.

CATANANCHE CÆRULEA.

3591 Hardy Perennial.—Useful as cut flower; bright blue. Ht. 1½ ft.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CONVOLVULUS.

(Ipomæa Morning Glory.)

Annual. Sow in spring where intended to bloom.

3797 Major Blue.
3798 Major Crimson.

3799 Major Violet.
3800 Major White.

3801 Carters Choicest Major Mixed.—All colours.
3810 Carters Choicest Minor Mixed.—For general borders.

Price of the above	...	1 oz.	1 oz.	1 oz.
		.10	.15	.25

IPOMÆA.

Hints on Culture.—Perennial. Greenhouse climbers, embracing some of the loveliest colours imaginable. Sow in early spring in heat and pot off, and train on trellis under glass, or out of doors in summer.

3813 Mauritanicus.—For hanging baskets. Price ... 100 seeds. 200 seeds. 400 seeds.
.10 .15 .25

CORNFLOWER (Cyanus Minor).

Hints on Culture.—Annual. Everything may be said on behalf of these interesting and useful flowers, both as a border plant and also as a cut bloom. Sow in open border in autumn and spring.

3700 Royal Blue.—Double blue, the largest and perhaps the most popular of all.

3701 Carters Double, Mixed. **3705 Rose.**
3702 Single, Mixed. **3706 White.**

Price of the above	...	300 seeds.	600 seeds.	1,200 seeds.
		.10	.15	.25

CARTERS EARLY FLOWERING COSMEA.

A pretty feathery foliaged annual, useful for cutting, growing sometimes to a height of 4 ft., and very effective right up to the frost. Makes a nice winter flowering pot plant if sown in summer. Including purple, pink, mauve, white, and rose. Ht. 3 to 4 ft.

3820 White. **3821 Rose.** **3822 Pink.** (*Crop failed.*) **3823 Mixed.**

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

CARTERS PERFECTION CYCLAMEN.

Hints on Culture.—Sow at any time (spring and autumn to be preferred) in pots or pans, in peaty loam or sand, covering the soil scarcely a quarter of an inch, place on warm shelf near the glass in a greenhouse, keeping the soil moist but well drained. The seed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60 degrees is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs at the end of the summer.

3842 Carters Superb Mixture of all Colours.—Our grand large-flowered strain in all its best forms and every shade of colour, including our superb salmon. This is a selection of many years' patient observation and labour.

3843 NEW. St. George.—This is a salmon colour, with a silver-marked leaf, very ornamental as a foliage plant previous to the blossoming period. Received a certificate from the Royal Horticultural Society.

3844 Brilliant.—Pure deep crimson blooms with a metallic sheen shading from the base of each petal, which lights up the whole flower and gives a brilliant effect.

3848 Carters Salmon.—Distinct and fresh; a strong and vigorous variety.

3850 Carters White Swan.—The most profuse blooming white Cyclamen in cultivation. A grand thing, throwing its pure white flowers well above the foliage. A year old plant of this in full bloom is a magnificent sight. First Class Certificate, R.H.S.

Price of the above	...	25 seeds.	50 seeds.	100 seeds.
		.50	.85	1.50

3851 NEW. Mrs. L. M. Graves.—This is a salmon scarlet, that is to say, a deeper scarlet colour diffused with the salmon. This has obtained a certificate from the Royal Horticultural Society.

3852 Mrs. Buckston.—Award of Merit, R.H.S. This novelty bears beautifully frilled petals of a real salmon shade of colour, somewhat more delicate than the *Carters Salmon*. The flowers are very large and freely produced. This is a valuable addition to the crested petalled Cyclamen, and will at once take its place in the front rank.

3856 Duke of Connaught.—Deep cherry colour, handsome and distinct; blossoms of grand substance and form. First Class Certificate, R.H.S. (*Crop failed.*)

3861 The Sultan.—The richest coloured Cyclamen; intense crimson.

CERASTIUM.—Silver-leaved ornamental hardy perennials, useful as an edging or on rockeries. Seed may be sown in spring or summer.

3603 Biebersteini.—White perennial edging plant. Ht. 6 in.

3604 Tomentosum.—Neatest and most effective. Ht. 6 in.

Price of the above	...	1,000 seeds	2,000 seeds	4,000 seeds
		.10	.15	.25

CHAMÆPEUCE (FISHBONE THISTLE).—Half-hardy biennial with ornamental foliage. Is seen at its best the first season. Seed should be sown in early spring, in gentle heat, and potted off.

3581 Diacantha.—Spiny; glaucous foliage. Excellent for edging beds or borders. Ht. 1 ft.

Price	...	50 seeds.	100 seeds.	200 seeds.
		.10	.15	.25

CHELONE.—Sow in spring and transplant. Useful variety of great decorative value.

3587 Barbata coccinea.—Bright scarlet perennial.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CLEMATIS (VIRGIN'S BOWER).—Well-known climbing perennials. Sow seed in early spring under glass, pot off, and plant outdoors in early summer.

3560 Jackmanni Varieties.—Saved from the best colours.

Price	...	20 seeds.	40 seeds.	80 seeds.
		.25	.45	.75

COBÆA.—Handsome half-hardy climber for greenhouse or in warm situation out of doors. Easily grown from seed; sow early in heat, and pot off.

3620 Scandens.—Purple bell-shaped flowers.

3621 Scandens alba.—White.

Price of the above	...	15 seeds.	30 seeds.	60 seeds.
		.10	.15	.25

COCKSCOMB.—Annual. Our strain cannot be surpassed. For earliest work, sow in January or February, and again in spring for general work, using good light sandy loam.

3724 Carters Empress.—Combs of immense size; we have measured these 1½ ft. across. Rich crimson, dark foliage.

Price	...	700 seeds.	1,500 seeds.	3,000 seeds.
		.10	.15	.25

COLEUS.—Grand ornamental foliaged plants, superbly variegated; for stove, greenhouse, or sub-tropical garden in summer. Sow in heat in early spring, and pot off. The variegation does not always show itself plainly until the plants have reached some size.

3730 Carters Choicest Mixed.—Saved from the best varieties.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

COLLINSIA.—Pretty annual. Very useful for pot work as well as for border cultivation. Sow in autumn in pots for spring flowering in greenhouse, and in spring for summer flowering in borders.

3733 Bicolor.—Purple and white. Ht. 1 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

COLUMBINE.—See also *Aquilegia*

3736 Mixed.—Ordinary garden variety.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

COREOPSIS.

DAHLIA.

Carters Cross-fertilised Strains.

Hints on Culture.—Our strains have been specially hybridised and will produce splendid types. Sow the seed in early spring, in heat, and pot off. Plant out as soon as large enough in June.

- 3901 **Carters Single.**—Magnificent flowers of the newest and best colours.
 3903 **Carters Cactus.**—From the best varieties, mixed.
 3905 **Show Double.**—For perfect form cannot be surpassed.

3908 **Collarette.**—Our special strain of Collarette varieties contains a great variety of distinct shades and colours, the majority being equal in form to named varieties.

Price of the above	...	150 seeds.	300 seeds.	600 seeds.
		.10	.15	.25

DELPHINIUMS.

Hints on Culture.—The Perennial Delphiniums are best sown in summer, as they then make strong plants to flower following season. They can also be sown early in spring, and are very effective in borders during the early summer the following year.

- 3942 **Carters Choicest Mixed.**—A wonderful improvement on other varieties. Ht. 3 to 5 ft.
 3943 **Cardinale.**—Scarlet species from California. Ht. 2 ft.
 3944 **Cashmerianum.**—Rich blue. Ht. 1½ ft.
 3945 **Nudicaule.**—Dwarf orange-scarlet; hardy. Ht. 1 ft.

- 3946 **Sulphureum (Zalil).**—Long spikes of sulphur-yellow flowers. Ht. 4 ft.
 3947 **Formosum.**—Rich deep blue; magnificent. Ht. 3 ft.
 3948 **Formosum, caelestinum.**—A paler shade of blue; superb Ht. 3 ft.
 3952 **Fine Mixed.**

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

CARTERS ANNUAL DELPHINIUM BLUE BUTTERFLY.

Hints on Culture.—The seed should be sown early in heat, and grown on in pots until ready for bedding out. Late sowings do not make effective plants until too late in the season.

- 3958 **Blue Butterfly.**—The greatest acquisition in blue annual flowers for many years. The Royal Horticultural Society, when granting it the Award of Merit, stated in their report that it is "a dainty annual of bushy branching habit, and very floriferous." Ht. 1½ ft.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

DIANTHUS.

Hints on Culture.—Biennial. We consider the *Heddiwigi* section of the Dianthus introduced by our house from the East, and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed below are the improved results from the original importation. Sow in spring in boxes or pots, and transplant to where intended to bloom. Seeds of all the improved types may be also sown at the end of summer, and grown on in pots through the winter under fairly cool treatment. They will make robust plants at the end of spring, and become useful in the decoration of the conservatory. Our Large-flowered Dwarf type is a beautiful selection.

DIANTHUS CHINENSIS (Indian Pink).

- 3875 **Carters Large-flowered Dwarf Single.**—A superb mixture of beautiful colours and markings. Free blooming and dwarf. The plants attain a height of about 6 to 8 in., with large flowers.
 3876 **Carters Vesuvius.**—Single fiery scarlet, brilliant colour. Ht. 1 ft.
 3877 **The Bride.**—Its blossoms measure 2½ in. across. Carmine centre, with a zone of deep chocolate, surrounded by an expanse of pure white. Ht. 9 in.
 3878 **Carters Salmon Shades Semi-double.**—Contain many beautiful salmon, salmon-pink, and salmon-scarlet shades, which cannot be obtained in separate colours from seed. A brilliant strain for bedding. Ht. 9 in.

- 3882 **Eastern Queen Single** —Marked with delicate pencilling of rose and white. A beauty Ht. 1 ft.
 3884 **Large-flowered Dwarf Crimson Semi-double.**—Clear glowing crimson, shaded maroon. Very compact habit. Ht. 9 in.
 3885 **Large-flowered Dwarf White Single.**—Pure satiny-white petals, forming perfect circular outline. A faint central zone of pale pink gives the flowers a very handsome appearance. Ht. 9 in.
 3896 **Carters Choice Double Mixed.**—Very large double flowers of all shades. Although annuals many of the forms found in this mixture equal the named perennial Pinks. Ht. 1 ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

DIMORPHOTHECA.

Hints on Culture.—Sow in cold frames in March and transplant to open, or sow in open during April. Rows in our testing grounds have been covered with blossom for six months in dry and wet seasons.

- 3914 **Aurantiaca.**—Annual. Brilliant growing orange blossoms with black disc. Ht. 1 ft.

- 3915 **Aurantiaca Hybrids.**—Annual. New selected hybrids in splendid mixture. Ht. 1 ft.

Price of the above	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

COWSLIP.—Perennial. Our mixture contains a great diversity of colours.

- 3830 **English, Mixed.**—Much more robust than the common variety. The flower stems, which reach a height of 1 ft., are crowned with an umbel of graceful drooping blooms, in a wide range of yellow, red, crimson, and maroon shades.
 3831 **English, Yellow.**—The well-known English Cowslip of the fields. (*Crop failed.*)

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

CUPHEA.—A pretty shrubby perennial, which makes a useful pot plant. It is often employed for bedding out in summer, and for this work is best treated as an annual. Seeds may be sown in autumn or spring in heat.

- 3838 **Eminens.**—Red and yellow. The brightest flowered species. Ht. 1 ft.
 3839 **Platycentra.**—Red and black. Ht. 1 ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

DAISY (BELLIS).—Charming spring flowers in borders. Sow in light soil in spring and prick out.

- 3962 **Finest Double or Monstrosa.**—Pink.

- 3963 **Finest Double or Monstrosa.**—White.

- 3964 **Finest Double or Monstrosa Mixed.**—Carters selected strain of all colours.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

- 3966 **Swan River (Brachycome).**—A bright free-blooming annual; blue and white. Ht. 1 ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

DEVIL-IN-A-BUSH.

- 3924 **Bright blue;** free bloomer, useful for cutting. May also be grown as a pot plant for culture under glass. Ht. 1 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

DIGITALIS.—See Foxglove.

ESCHSCHOLTZIA.

(*Californian Poppy*.) Hardy annuals (or biennials) of immense utility for mixed borders. Hardy, bright, and free-blooming, and of the easiest culture. They bloom and flourish equally well on light and heavy soils. Although not generally known, Eschscholtzias are excellent for decorative work. If cut early in the morning before the buds unfold, the flowers will last for several days in water. Sow in open in spring, and thin out. Ht. 1 ft.

Many of our later introductions of Eschscholtzias have been characterised by a distinctively compact and upright habit of growth, rendering this attractive flower suitable for fronts of borders and other places in the garden not hitherto filled by Eschscholtzias. We classify them accordingly.

Compact Section.

- 3967 **NEW.** **The Geisha.**—Award of Merit, R.H.S. Last year's introduction. Petals prettily fluted. Colour inside of petals, brilliant golden; outside of petals, orange-crimson. Habit of growth, upright and compact. The most brilliant colour in this family of bright shades. A bed in bright sunshine has the appearance of being on fire.
- 3968***Carters Fringed.**—Of the *Californica* type, with deep-coloured base to the prettily fringed petal.
- 3969***The Rajah.**—This has brought for the first time a purplish carmine in Eschscholtzias.
- 3975***Carters Mandarin.**—Exterior orange-crimson; inner surface, deep orange.

| Price of the above ... | 250 seeds. | 500 seeds. | 1,000 seeds. |
| | .10 | .15 | .25 |

- 3970 **Carters New Hybrids.**—Contain many shades and tints of colour not previously seen in Eschscholtzias, giving a play of colour at once interesting and brilliant, the pale rose and flesh shades being particularly charming.

- 3971***The Mikado.**—Award of Merit, R.H.S. The *Mikado* was the result of a cross between *Mandarin*, which we introduced in 1879, and *Carmine King*, of 1906. A brilliant orange-crimson, suffused with the lustre of *Carmine King*.

- 3972***Carters Carmine King.**—Award of Merit, R.H.S. The lustrous carmine colour is very attractive.

Price of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.10	.15	.25

- 3976***The Collection of 6 varieties** as marked above in separate packets50

Open-growing Section.

- 3973 **Carters Diana.**—This is a most dainty flower. The colour is a rosy white, while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance.

- 3974 **Dainty Queen.**—A beautiful shade in Eschscholtzias. Colour a tender blush or pale coral pink, slightly deeper towards the edges, with a groundwork of delicate cream. Flowers rather later than other varieties.

Price of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.10	.15	.25

- 3978 **Carters Rose Cardinal.**—Bright rose.

- 3979 **The Golden West.**—The largest flowering of all the Eschscholtzias. A charming orange colour.

- 3982 **Californica.**—Yellow.

- 3984 **Crocea alba.**—White.

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

EVERLASTING FLOWERS.

- HELICHRYSUM.**—Annual. A very beautiful everlasting flower, available in a wide range of colours. If cut before quite developed the flowers are very lasting.

- 3995 **Carters Fireball.**—Brilliant crimson.

- 3996 **Carters Silverball.**—Silver white.

- 3998 **Purple.** 3999 **Scarlet.** (*Crop failed.*) 4001 **Yellow.**

- 4002 **Carters Choicest Mixed.**

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.

- ACROCLINIUM.**—Annual.

- 4005 **Double.**—Beautiful rose-pink; good for pots or early forcing.

- 4007 **Album.**—White.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.10	.15	.25

- RHODANTHE.**—Annual. The pick of the Australian flora in everlasting flowers. Immense favourites. Well adapted for forcing in early spring and for window boxes.

- 4013 **Maculata.**—Bright rose, with dark centre.

- 4014 **Maculata alba.**—Large; pure white.

- 4016 **Manglesi.**—The earliest introduction.

Price of the above ...	750 seeds.	1,500 seeds.	3,000 seeds.
	.10	.15	.25

FORGET-ME-NOT (Myosotis).

In addition to their great value as spring bedding subjects, some species are useful for pot work. Carters Pyramid varieties are particularly recommended for this purpose.

- 4080 **Carters Royal Blue.**—Deep blue of a remarkably free flowering habit. These lovely plants are in great repute for spring bedding. Ht. 1 ft.

- 4081 **Carters Light Blue.**—A highly-selected type of *Alpestris*. It comes into blossom early, and continues in bloom until quite late. Ht. 1 ft.

- 4082 **Dissitiflora.**—Best bedding; blue. Ht. 9 in.

- 4083 **Dissitiflora alba.**—White.

Prices of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.10	.15	.25

- ERICA** (CAPE HEATHS).—Winter-flowering plants.

- 4037 **Mixed.**—Carters choice varieties.

Price ...	750 seeds.	1,500 seeds.	3,000 seeds.
	.10	.15	.25

- ERINUS ALPINUS.**—Herbaceous perennial. Sow in spring where plants are to grow, and thin out.

- 4043 A charming alpine rock plant; blue.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

- ERYSIMUM.**—One of the brightest and best hardy annuals. Grown everywhere. Sow in autumn for spring flowering, and in early spring to flower later.

- 4052 **Perowskianum.**—Orange Virginian Stock. Ht. 1 ft.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

- 4084 **The Jewel.**—Large truss. Ht. 1 ft. (*Crop failed*)

- 4085 **Azorica.**—Light blue; compact growth. Ht. 6 in.

- 4086 **Rupicola.**—Deep blue; a gem for pot work. Ht. 4 in.

- 4087 **Star of Love.**—Beautiful blue. Distinct spray-like spikes of bloom. Ht. 6 in.

- 4088 **Victoria.**—A favourite for market; most profuse bloomer Ht. 9 in.

- EUCALYPTUS** (AUSTRALIAN GUM TREES).—Handsome ornaments in the sub-tropical garden or in pots. Sow in gentle heat in early spring, and pot off.

- 4061 **Globulus** (*Blue Gum*).—Fine glaucous foliage and strong perfume.

Price ...	500 seeds.	1,000 seeds.	2,000 seeds.
	.10	.15	.25

- EUTOCA.**—Sow out of doors in spring.

- 4067 **Viscida.**—Hardy annual; bright blue. Ht. 1 ft.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

- EVENING PRIMROSE** (GENOTHERA).—Exceedingly useful in mixed borders. The perennial species may be sown in early spring in pans in cool frame, and then transplanted; the annual and biennial out of doors in April and May.

- 4070 **Acaulis** (*Taraxacifolia*).—White; trailer. Annual. Ht. 6 in.

- 4072 **Macrocarpa.**—Large yellow blossoms; trailing perennial. Ht. 1 ft.

- 4073 **Speciosa.**—Pure white; semi-shrubby. Perennial. Ht. 1½ ft.

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

FOXGLOVE (*Digitalis*).

Hints on Culture.—Stately perennials. As a background in a shrubbery, or as specimen plants in large beds, they are equally striking and effective. Sow in July for strong flowering plants the following season.

4101 **Carters Spotted.**—A superb mixture containing a wonderful range of colours, the soft rose and carmine shades being particularly fine. The older forms of magenta and crude pink have been eliminated from this choice strain. All colours mixed.

4102 **Canariensis.**—A novel colour, orange brown.

4103 **White.**—Superb variety. Ht. 4 to 6 ft.

4104 **Monstrosa.**—A singular variation. A long spike with a large flower at the top.

4105 **Gloxinioides.**—Large-throated species. Ht. 3 ft.

Prices of the above	...	2,500 seeds	5,000 seeds	10,000 seeds
		.10	.15	.25

GAILLARDIA.

We were awarded the First Class Certificate of the Royal Horticultural Society for Double Gaillardias.

Hints on Culture.—Showy and handsome hardy perennials, for beds and borders. The flowers are a most peculiar combination of shades, varying between gold and maroon. Sow in summer in drills, transplanting to permanent positions during autumn; also sow early in spring under glass, prick off into boxes, and plant out in May.

The annual varieties may be sown in open ground early in spring, thinning the plants to 1 ft. apart.

4184 **Carters Large-flowering Choice Single Hybrids.**—Perennial variety, but will flower the first season if sown early.

4185 **Grandiflora hybrida.**—Crimson and gold; large blossoms.

4186 **Grandiflora hybrida compacta.**—New dwarf compact variety. Ht. 1 ft.

Nos. 4185 and 4186 will flower the first season if sown early.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

ANNUAL VARIETIES.

4189 **Carters Choice Double.**—Mixed; large globular heads.

4190 **Picta.**—Yellow and scarlet; old variety. Ht. 1 ft.

4191 **Picta aurea.**—Golden yellow. Ht. 1 ft.

4192 **Picta Aurora Borealis.**—Red and yellow. Ht. 1 ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CARTERS INVINCIBLE PRIZE GLOXINIA.

Hints on Culture.—Sow in well-drained pans from January to March (or in the autumn), fill the pans with soil consisting of a mixture of half peat and half leaf mould, with a small quantity of pulverised charcoal and silver sand sifted very fine, to within half an inch of the rim; water with fine rose, then sow the seed thinly, taking care not to cover it with soil; place in a temperature of 75 deg., and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off into pans at about 1 in. apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5 in. or 48 pots, and will bloom in August and September of the same year. The potting off soil should consist of one-half good loam, one-half fibrous peat, with a good sprinkling of sand and broken charcoal.

The following are some of the principal awards:—

LARGE SILVER GILT CUP, R.H.S., Chelsea, 1915.

LARGE SILVER CUP, R.H.S., 1914.

GOLD MEDAL to our Exhibit, R.H.S. Chelsea Show, 1913.

GOLD MEDAL, Royal International Horticultural Exhibition, 1912, with Carters others flowers.

GOLD MEDAL, R.H.S. Olympia Show, 1911.

GOLD MEDAL, R.H.S. Holland House Show, 1911.

It may be asserted without fear of contradiction that no flower for exhibition produces a greater effect than a first-class group of Gloxinias.

4141 **Carters Invincible Prize Superb Mixture.**—The superb mixture of Gloxinia we offer under the name *Invincible* is magnificent. It contains all the best self-colours, crimson, sapphire, purple, rose, blush, violet, white, &c., also the finest edged, tipped, ringed, and shaded varieties, together with the most beautiful spotted or marbled kinds, and is the finest we have seen.

Price	...	250 seeds.	500 seeds.	1,000 seeds.

FRANCOA.

4117 **Ramosa hybrida (Bridal Wreath).**—Half-hardy perennial. Lovely sprays of pure white flowers are freely produced on long branching spikes. Very easy of cultivation, for greenhouse or conservatory decoration. Seed sown in March flower freely in about 15 months. Ht. 2½ ft.

Price	...	200 seeds.	400 seeds.	800 seeds.
		.10	.15	.25

FRAXINELLA (BURNING BUSH).—Hardy perennial. Seeds may be sown in spring.

4120 **Red-purple.**—Ht. 2 ft.

Price	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

FUCHSIA.—Handsome flowering shrub. Sow in gentle heat in early spring; pot off.

4129 **Superb Mixed.**—A splendid collection.

Price	...	25 seeds.	50 seeds.	100 seeds.
		.25	.45	.75

GAZANIA.—Perennial. A brilliant plant for edging beds.

4231 **Splendens hybrida.**—Saved from the finest new varieties.

Price	...	25 seeds.	50 seeds.	100 seeds.
		.25	.45	.75

GENTIANA.—Beautiful dwarf alpine perennial. Sow in pans in spring, and plant out.

4238 **Acaulis.**—For borders or rockery. Intense blue. Ht. 3 in.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

GERANIUM or PELARGONIUM.—Bedding and greenhouse plants. Sow under glass in early spring, and pot off.

4241 **Large-flowered Show.**—Regal Pelargoniums. (*Crop failed*)

GERBERA JAMESONI HYBRIDS.—Half-hardy perennial. The Scarlet Daisy or Margeurite of the Cape.

4250 The flowers bear long graceful petals with small eye. This strain, which is quite new, comprises a great variety of pleasing shades.

Price	...	10 seeds.	20 seeds.	40 seeds.
		.25	.45	.75

GEUM.—Hardy perennials. Sow in spring, and transplant. Ht. 2 ft.

4256 **Coccineum.**—Bright scarlet.

4257 **Fiore pleno.**—Semi-double; crimson scarlet.

4258 **Mrs. Bradshaw.**—A giant double form of flowers of perfect shade of brilliant crimson scarlet. Comes quite true from seed.

Price of the above	...	50 seeds.	100 seeds.	200 seeds.
		.10	.15	.25

GLOBE THISTLE (ECHINOPS RITRO).—Perennial.

4268 **Bee Feeder.**—Large globular blue heads. Ht. 3 ft.

Price	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

GREVILLEA.—An ornamental plant. In great use for decorative purposes. Sow in heat in early spring, and pot off as soon as they can be handled.

4271 **Robusta.**—The best for general use. Beautiful fern-like foliage.

Price	...	50 seeds.	100 seeds.	200 seeds.
		.10	.15	.25

GODETIA.

Hints on Culture.—In addition to the wide range of shades now found in this lovely annual, the plants vary greatly in habit. We have, therefore, divided them into three sections, and trust this will assist our customers in making their selections. All varieties may be sown in boxes and transplanted, or may be sown direct into the ground. A few kinds are excellent for pots.

TALL VARIETIES.

4151 **Carters New Lavender.**—Single. Award of Merit, R.H.S. The pale lavender flowers are borne on long graceful racemes, which are splendid for table decoration. This is quite distinct from any other Godetia, and is the best variety for pot culture. Sown in September the plants bloom in early spring. Ht. 2 ft.

4153 **Carters Double Pink.**—A rather stronger grower than *Carters New Lavender*, bearing a number of long spikes, which carry 18 to 20 beautiful double clear pink blooms, which will last a week in water if cut in a young state. It is also splendid for pot culture. Ht. 2½ ft.

4152 **NEW.**

Tall Double Deep Rose.—A very brilliant and handsome variety. Bright solid rose, shaded and edged carmine. Identical in habit with our *Double Pink* variety. Ht. 2½ ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

MEDIUM VARIETIES.

4163 **Carters White (White Pearl).**—The best white Godetia, the blooms being creamy white, which blends well with other varieties. Ht. 1½ ft.

4167 **Carters Choice Mixed.**—A well-balanced strain, containing all the best colours found in the tall and medium sections.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

DWARF VARIETIES.

4173 **Deep Rose Pink (Lady Satin Rose).**—A very pure colour with shining satin surface. Very brilliant. Ht. 1 ft.

4175 **Crimson (Gloriosa).**—The deepest colour in Godetias. Very solid and of splendid substance. Ht. 1 ft.

4174 **Pink (Rosamund).**—Rich medium shade. Flower well formed and very freely produced. Ht. 1 ft.

4178 **Miniature Crimson.**—Valuable for edging and bedding. Very dwarf and compact, with glowing crimson flowers, shaded rosy heliotrope at edge. Ht. 6 in.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CARTERS ORNAMENTAL GOURDS.

Ornamental Gourds, which require about the same cultivation as Vegetable Marrows or Squash, should be largely grown in flower gardens and pleasure grounds. Trained over a pergola they form a distinct, interesting, and beautiful feature. The smaller fruiting Apple, Orange, Pear, and Egg shaped kinds produce a charming effect when trained over arches, while the majority of varieties have a very charming effect when tied up to poles.

4283 Mixed, in great variety	Price ...	25 seeds.	50 seeds.	100 seeds.
		.10	.15	.25

GYPHOPHILA.

(Cloud Plant.)

Hints on Culture.—Graceful panicles of wavy blossom; for bouquets, table decoration, vases, &c. Sow the annual species in spring where the plants are intended to flower, and thin out seedlings. *Paniculata* is a perennial, and should be sown in spring or summer.

4274 **Elegans grandiflora.**—Annual. Cream white.

4276 **Elegans rosea.**—Annual. Rose.

4275 **Elegans Carmine.**—Annual. A new shade. Most effective for decorative purposes.

4278 **Paniculata.**—The pure white perennial kind. Ht. 2½ ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

ORNAMENTAL GRASSES FOR DECORATION.

Hints on Culture.—The annual varieties should be sown out of doors during April where they are intended to flower, or for earlier work sow under glass and plant out. The perennial varieties are best sown during the summer, and planted out in borders in spring. The flower heads should be cut in a young stage and hung upside down to dry, as they are then more lasting for decorative purposes.

4197 **Agrostis pulchella.**—Elegant and graceful.

4213* **Isolepis graciis.**—Charming pot plant.

4206 **Eragrostis elegans (Love Grass).**

4215 **Zea gracillima.**—Delicate Maize.

4209* **Eulalia zebrina.**—Grandly effective.

4217 **Panicum plicatum.**—Graceful panicles of bloom.

4211* **Gynerium argenteum (Pampas Grass).**

4220* **Stipa pennata (Feather Grass).**

* These varieties will not bloom the first year from seed.

Price of the above	...	Per pkt.	.10	.15	.25	Seeds not counted.

HUMULUS (Hop).—Hardy climbers. No. 4348 is a very pretty quick-growing annual climber. Sow in pots early in February, in heat, and plant out in May.

HONESTY (LUNARIA).—Hardy biennial. Singular seed vessels, useful when dried, for house decoration in winter. Sow in spring.

4347 **Japonicus.**—Green foliage.

4342 **Purple.** 4343 **White.**—Ht. 1½ ft.

4348 **Japonicus variegatus.**—Green foliage, marked silvery white.

4344 **Munstead Purple.**—This giant form of Lunaria was raised by Miss Jekyll, V.M.H., in her delightful wild garden at Munstead Wood. The large well-formed flowers are of great substance and quite distinct, being a bright rosy purple. For growing in the semi-wild garden and for spring bedding it is a most brilliant subject, supplying a colour which is rare in the early part of the year.

4349 Lupulus (Garden Hop). —Perennial.	250 seeds.	500 seeds.	1,000 seeds.

LOBELIA.

Very popular garden plants. The compact-growing varieties are sown in winter under glass, and transplanted into boxes for growing on to be ready by the bedding-out season. The spreading varieties are suitable for hanging baskets and window box edgings, whilst the true perennial species are grown as pot plants or single specimens in beds for summer decoration.

- 4478 **Carters Dark Compact**.—Dark bloom, dark foliage, small white eye.
 4479 **Carters Light Compact**.—Sky-blue flowers, light foliage.
 4480 **Carters White Gem**.—The best pure white; compact.
 4481 **Carters Royal Bedding**.—Bright sky-blue, small eye; compact.
 4482 **Carters Prima Donna**.—The finest and best red variety. Raised on our own farms. Rich crimson maroon; compact.
 4484 **Pumila magnifica**.—Dark blue; very compact.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

- 4492 **Carters speciosa, Blue King**.—Blue, white eye; spreading.
 4493 **Carters speciosa, Cobalt Blue**.—Bright, spreading.
 4501 **Ramosa, Heavenly Blue**.—Large flowers, bright light blue, with gold white eye; tall growing.
 4502 **Gracilis**.—Loose growing, for hanging baskets, &c.; blue trailing variety.
 4503 **Gracilis alba**.—Companion white variety; trailer.
 4509 **Cardinalis hybrids**.—Splendid vigorous large-flowered strain. Colours range from pale rose through varying carmine and scarlet shades to deepest crimson and maroon. Perennial.

CARTERS ANNUAL LUPINES.

The annual kinds make a beautiful display, and are most valuable garden plants. If the spikes are cut away as flowers wither more will come on.

Hartwegii. Ht. 2 ft.

		.10	.15	.25

LOVE-IN-A-MIST.—A popular and charming annual. The variety *Miss Jekyll* lends its grace to many decorative schemes; its distinctive beautiful shade and pretty foliage at once attract attention in the borders.

- 4526 **Miss Jekyll**.—An improved type, splendid for cut bloom. Ht. 1½ ft.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

LOVE-LIES-BLEEDING (*AMARANTHUS*).—Annual. Popular, with long crimson tassels.

- 4529 **Red**.—Ht. 2 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

LYCHNIS.—Brilliant hardy perennials. Sow in spring and transplant as soon as large enough.

- 4554 **Chalcedonica**.—Bright scarlet. Ht. 3 ft.

- 4555 **Chalcedonica alba**.—Pure white.

- 4556 **Haageana**.—Scarlet *Maltese Cross*. Ht. 6 in.

Price of the above	...	750 seeds.	1,500 seeds.	3,000 seeds.
		.10	.15	.25

LYTHRUM.—Hardy perennial; showy for borders and moist situations.

- 4560 **Rosea superbum**.—Long spikes of bright rose-coloured flowers. Ht. 4 ft. (*Crop failed*.)

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

MALLOW.—Hardy annual. This fine tall-growing plant is covered with bloom during the entire summer. Extremely useful for cutting. Ht. 3 ft.

- 4596 **Carters Pink Domino**.—An elegant table ornament. Bright rose.

- 4597 **Carters White Lady**.—Pure in colour.

- 4598 **Malope grandiflora**.—Crimson. Ht. 2 to 3 ft.

- 4599 **Malope grandiflora**.—White.

- 4600 **Malope grandiflora**.—Rose.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

MARVEL OF PERU (*Mirabilis jalapa*).—Tuberous perennial. Sow in heat early in the year, prick off into boxes, place in cold frame, and plant out in June. Throughout the day the plants are not very showy, but towards evening hundreds of flowers open on each bush-like plant, emitting a most distinctive and refreshing fragrance. (*Crop failed*.)

- 4625 **Mixed, Carters Choicest**.—Bright colours. Ht. 2 ft.

Price	...	50 seeds.	100 seeds.	200 seeds.
		.10	.15	.25

FRENCH MARIGOLD.

Hints on Culture.—This showy annual can be sown in spring and thinned out where expected to bloom; they may also be sown in March in boxes or pots under glass, then transplanted into other boxes, 3 in. apart, to make sturdy stuff for planting out in June or earlier. Marigolds are profuse bloomers, particularly so if all dead flowers are cut off.

4566 Carters Compact Striped.—Beautiful large double blossom, dwarf variety. Continues blooming until the end of summer. Ht. about 1 ft.

4567 Carters Gold Edged.—A beautiful annual of compact but vigorous habit. Flowers a velvety maroon, with gold edge. Very constant, and owing to its deep root is able to withstand drought. Makes a handsome edging plant. Ht. 1 ft.

4571 Legion of Honour.—Dwarf single. Dark gold and maroon. Ht. 1 ft.

4578 Mixed, Carters Dwarf Varieties.—Ht. 1 ft.

4586 Mixed, Carters Tall Varieties.—An effective and welcome ornament to the mixed border, shrubberies, &c. Ht. 1½ ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

LARGE-FLOWERED AFRICAN MARIGOLD.

Hints on Culture.—From their bold appearance and enormous globular flowers these showy annuals are specially effective in large mixed borders. Sow at the end of winter under glass, and transplant in April and May.

4589 Carters Giant Show Lemon.—Superior strains for exhibition. Enormous blossom. Ht. 1 ft.

4590 Carters Giant Show Orange.—Superior strains for exhibition. Fine habit; grand flower. Ht. 1 ft.

4593 Mixed, Carters Varieties.—Carefully selected. Ht. 2 ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

MATHIOLA (Night-scented Stock).

Hardy annual, of easy culture. Sow in spring.

4603 Bicornis.—This should be in every garden, as it possesses a most delicious odour, especially towards evening, when it sends forth a delightful perfume, permeating the whole of the surrounding atmosphere with its beautiful fragrance. Ht. 1 ft.

Price	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

MIGNONETTE.

4660 Carters Perfection.—A giant red-flowered variety with a delicious scent. This fine strain is a very great improvement, and owing to its robust habit the seedlings require plenty of room, when they will make bushy plants resembling intermediate Stocks. The spikes of bloom are larger than any other variety, and the habit much less straggling. If the seed-pods are kept pinched off, the beauty of the plant will extend over a long period, and with care in this respect will continue until cut down by frost.

Price	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

4661 Carters White Queen.—A distinct and beautiful variety, producing large spikes of white bloom, exquisitely scented. Ht. 1½ ft.

4663 Carters Red King.—The finest and richest red; a great improvement on the crimson *Victoria* variety. Deliciously scented. Ht. 1½ ft.

4664 Machet.—An excellent variety for pot work; strong, dense blooms, glossy green foliage.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

4666 Crimson Giant.—Fine hardy variety of the greatest use for general purposes. Ht. 1 ft.

4667 Carters Garden Sweet.—This is a selected stock of the original Mignonette of gardens. Delicious odour.

4670 Golden Gem.—The finest dwarf golden varieties. Ht. 6 in.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

MIMULUS.

Hints on Culture.—Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants. Sow in early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame.

4606 Carters Queen's Prize.—Mixed. Magnificent. This lovely large-flowered variety originated at our nurseries, and we were awarded the First-class Certificate of the Royal Horticultural Society for our efforts.

4607 Garden.—Mixed. Select stock.

Price of the above	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

4610 Tigridioides.—For pots or rockeries.

4612 Moschatus or Yellow Musk.—Half-hardy perennial. Fragrant variety. May be grown in pots, or planted out in beds and borders. Sow in spring under glass.

MAURANDYA.—Graceful half-hardy annual climber for the flower garden or conservatory. Sow in February, in heat, and pot off.

4628 Barclayana.—Purple; free bloomer.
Price ... 500 seeds. 1,000 seeds. 2,000 seeds.
.10 .15 .25

MECONOPSIS (WELSH POPPY).—Quite hardy. Sow in spring, and plant out in moist soil.

4634 Cambrica.—Annual. Large flower; golden yellow. Ht. 2 ft.
Price ... 500 seeds. 1,000 seeds. 2,000 seeds.
.10 .15 .25

MICHAELMAS DAISIES.—Perennial. Well-known autumn flowers. The plants throw a wonderful quantity of bloom. They are quite hardy and of easy culture. Should be grown by all. Splendid for cutting.

4651 Carters Mixture.—In choicest varieties. Ht. 2 ft.
Price ... 500 seeds. 1,000 seeds. 2,000 seeds.
.10 .15 .25

MYOSOTIS.—See Forget-me-not.

MEDEOLA (SMILAX).—Half-hardy perennials. The long graceful stems of these beautiful climbers make them of great service in house decorations.

4640 Asparagoides myrtifolia.—The new Smilax, for light effect. This beautiful myrtle-leaved greenhouse twiner is a very rapid grower, and produces sprays with the greatest freedom. The foliage is very hard and will last fresh many days after being cut.

Price	...	1b seeds.	20 seeds.	40 seeds.
		.10	.15	.25

4641 Asparagoides.—For table decoration.
Price ... 100 seeds. 200 seeds. 400 seeds.
.10 .15 .25

MINA.—Half-hardy annual climbers. Sow in pots in heat, in spring, and transplant.

4648 Lobata.—Red and yellow. Ht. 6 ft.
Price ... 10 seeds. 20 seeds. 40 seeds.
.10 .15 .25

NASTURTIIUM.

Nasturtiums, both climbing and dwarf, are of the easiest culture, and anyone desirous of having a display of the most brilliant flowers, without trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost.

DWARF VARIETIES.

This beautiful annual originated at our Essex seed farms. These make the most beautiful bedding and border plants, and if sown at intervals from March to June the display of bloom will last until cut down by frost.

Golden Foliage.

4692 **Carters Golden Queen.**—Rich golden-hued foliage. Very compact; flowers bright yellow. A very effective variety.

4693 **Carters Cloth of Gold.**—Yellow foliage; scarlet flower. Bright and effective.

Dark Blue-green Foliage.

4696 **Carters Empress of India.**—This has been justly described as a sensational variety. Foliage dark bluish green, with flowers of an intense crimson scarlet. Raised at our seed farms, and awarded the First Class Certificate of the Royal Horticultural Society.

4697 **Carters Scarlet King.**—Fine dark foliage; brilliant scarlet flowers, well thrown up above the leaves.

4699 **Carters Dark Leaved Varieties, Mixed.**

Green Foliage.

4702 **Carters Lilliput.**—An extra dwarf, floriferous variety. All colours mixed.

4704 **Tom Thumb Crystal Palace Gem.**—Pale sulphur, with a carmine spot.

4705 **Tom Thumb Pearl.**—Light cream, nearly white.

4706 **Tom Thumb Rose.**—Rose colour, with a bluish tint.

4708 **Tom Thumb Spotted.**—Dark orange, with chocolate spot.

4710 **Carters Dwarf Mixed (Tom Thumb).**—All the best colours.

Green Shaded Foliage.

4714 **Golden King.**—Beautiful rich, dark gold colour.

4717 **Ruby King.**—Ruby rose, novelty in colour.

4719 **Terra Cotta.**—A rich salmon-brown flower; nice habit. Bright green foliage.

4723 **Mixed.**

Price of the above	...	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.	$\frac{1}{4}$ lb.
		.10	.15	.20	.60

CLIMBING NASTURTIIUMS AND TROPÆOLUMS.

The climbing Nasturtium has long been a popular annual flowering plant, as when once the seed is sown it requires no further attention. It is invaluable for covering unsightly spots, as when the position does not admit of its climbing, it is equally at home as a creeper. The seed must not be sown until all chances of frost are over.

4730 **Crimson.**—A very attractive colour.

4731 **Scarlet.**—Dazzling brightness.

4732 **Spotted.**—Golden, with dark spot.

4733 **Yellow.**—Rich and shining.

4735 **Carters Choice Mixed.**—All shades.

Nice Climbers out of doors in Summer, or in the Conservatory during Winter.

4751 **Tropæolum Fireball.**—Scarlet.

4752 **Tropæolum Lobbianum, Mixed.**

Price of the above	...	$\frac{1}{4}$ oz.	$\frac{1}{2}$ oz.	1 oz.	$\frac{1}{4}$ lb.
		.10	.15	.20	.60

NEMESIA.

Hints on Culture.—Half-hardy annual. Nearly related to the Linaria. Free blooming dwarf bushes for pot culture and open borders. Sow in spring under glass, and transplant; or sow out of doors in May, in patches, where they are intended to flower.

4678 **Carters Large-flowered Mixed.**—Is the finest strain of this most popular flower yet introduced, both for size and massive build of the individual flowers, also for the richness and variety of colours. Ht. 1 ft.

4679 **Strumosa grandiflora.**—Spotted.

4680 **Strumosa.**—In a variety of colours. Ht. 1 ft.

4681 **Nana compacta grandiflora, Orange Prince.**—Gained an Award of Merit of the Royal Horticultural Society. Ht. 6 to 8 in.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

NEMOPHILA.

Hints on Culture.—Hardest of annuals, and of the easiest culture. Makes a very effective front row to a bed or border, and should be sown out of doors in spring, in patches, where they are to flower.

4684 **Holborn Blue-bell.**—Ultramarine, white throat. Ht. 6 in.

4688 **Insignis alba.**—White variety. (*Crop failed.*)

Price of the above	...	750 seeds.	1,500 seeds.	3,000 seeds.
		.10	.15	.25

NICOTIANA (Tobacco).

Hints on Culture.—Stately half-hardy perennial. Grown as foliage plants for sub-tropical garden. Sow in pans, in heat, prick off into boxes, harden off, and plant out when frosts are gone.

4755 **Affinis.**—The beautiful white species, deliciously scented in the evening. Ht. 2 ft.

4757 **Sylvestris.**—White blossoms, drooping in bunches like *Fuchsia fulgens*. Ht. 3 ft.

4756 **Affinis hybrida.**—It is one of the most valuable introductions, and can be recommended to all. Finest mixture of all colours, as white, rose, pink, red, crimson, violet, light blue, dark violet, &c.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

NERTERA.—Sow in spring, in light sandy soil.

4769 **Depressa.**—Covered with small scarlet berries. For pots. Ht. 2 in. (*Crop failed*)

NIGELLA.—See Love-in-a-Mist

OENOTHERA.—See Evening Primrose

PAPAVER.—See Poppy

PELARGONIUM.—See Geranium

PANSY.

It is now more than half a century since the late Mr. James Carter took this plant in hand with a view to its improvement in size and range of colourings, and one of our earliest successes was *Jet Black* (see No. 4806). We also introduced the *Peacock* (see No. 4792). Both are still amongst the best in cultivation.

Hints on Culture.—Pansies will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in boxes for summer and autumn blooming, and later on sowings may be made about July out of doors in a partially shaded place, transplanting in October or November into where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 in. apart. There should be no check in their progress either by cold winds, very hard frosts, or long droughts. Nor should they be watered during the hottest months with very cold water. We have classed each type so that Pansy lovers have an opportunity of securing a large and varied choice, all representing the very best strains in cultivation.

4791 **Carters Giant Curled.**—Large flowers of striking form and immense fullness, giving them the appearance of being somewhat double. They are variously coloured in all the richest shades, markings, and lacings. Quite a new class of the greatest beauty.

4792 **Carters Peacock.**—The only variety possessing the true peacock blue colours. Introduced by our House.

4793 **Carters Fancy Striped.**—Elegantly striped, splashed, and mottled, a very curious combination of colours that cannot fail to elicit astonishment. The flowers are large and freely produced, and the habit of the plant dwarf and compact.

4794 **Silver Edged.**—Deep maroon, with pure white margin; very effective and profuse bloomer, but not so large in size as *Carters International Prize*.

4795 **Carters Prize Show.**—The largest blotched and richly belted types. Very fine for exhibition or cultivation in pots.

Price of the above	...	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
		.15	.25	.45	.75

The following selection includes all the largest of the self-coloured varieties, and have been selected by us as the most meritorious and desirable varieties for bedding in separate colours. No effort is spared to keep these self-colours up to the highest state of perfection.

4805 **Carters Blue.**—True blue; distinct shade; very large.

4806 **Carters Jet Black.**—The first and best; rich velvet texture.

4807 **Carters Pure White.**—A lovely flower, without eye; very pure.

4808 **Carters Rich Yellow.**—Bright, rich and pure; a very effective shade.

Price of the above	...	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
		10	.15	.25	.45

4796 **Lord Beaconsfield.**—A lovely Pansy, the lower petals being a rich dark velvet blue, and the upper ones a silvery blue.

4797 **President Carnot.**—One of the prettiest grown. All blue flower with a wide belt of white round the outer edges. Very effective in beds and borders.

4798 **Carters International Prize.**—A superb mixture of the largest and best types in every class. Will produce enormous blooms in all the richest colourings and markings. As the name suggests, it is the best of all English and Continental strains, grown under our personal supervision, and acclimatised in this country.

4799 **Fairy Queen.**—Rich lavender blue, edged with white. Very effective and profuse bloomer, but not so large in size as *Carters International Prize*.

4809 **Carters Rich Purple.**—Large and showy; bold massive flowers; very fine.

4810 **Royal Standard.**—Golden yellow. (*Crop failed.*)

4811 **Mixed Pansy.**—Ordinary; very free flowering.

PENTSTEMON.

Hints on Culture.—Hardy herbaceous plants. Brilliant flowers, somewhat like Foxglove, mostly with white throats. Continual bloomers. Make a fine border flower. Average ht. 2 to 3 ft. Sow seeds in a pan of light soil in early spring, and transplant. All with the exception of *Murrayanus* will bloom in the first year from seed.

4817 **Carters Annual Flowering Mixed.**—Saved from a prize collection, which includes all the best colours. Some of the blooms may be expected to measure quite 2 in. across.

4820 **Hartwegi.**—Deep red drooping blossoms, rather smaller than the preceding kind. Perennial. (*Crop failed.*)

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

4819 **Gloxinioides.**—All shades mixed.

4821 **Murrayanus.**—Unique species; amber-scarlet tubes. Perennial.

4822 **Perennial Mixed.**

PETUNIA.

Carters grand strains of Petunia, as frequently exhibited at the Royal Horticultural Society Shows, and awarded, in conjunction with Carters other improved Flowers, highest awards. *Carters Emperor* Petunia formed part of our Gold Medal Exhibit at the Royal Horticultural Society's Chelsea Gardens Exhibition, 1913. The Society's Large Silver Cup was awarded to our display of 1914, and the Large Silver-Gilt Cup to our 1915 exhibit.

4834 **Carters Empress.**—For conservatory or bedding. We have been many years perfecting this magnificent type, which originated from our *Emperor* strain, which now embraces many delicate shades of colour, in pink, rose, and carmine. The elegant pencilling in the throat is the feature of this fine introduction. Possessed of a robust but compact habit, the plants are valuable for bedding.

4844 **Carters Splendid Double Petunia.**—A superb mixture, producing from 25 to 40 per cent. of double flowers.

Price of the above	...	200 seeds.	400 seeds.	800 seeds.
		.50	.85	1.50

4851 **Carters Marbled.**—The largest flowering bedding variety of great beauty; in four colours, beautifully blended.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

4839 **Carters Emperor Strain.**—Single, for conservatory or bedding. A great improvement upon the old-fashioned Petunia. Flowers twice as large, and containing every range of colour found in Petunias. A bed of these is an object of great beauty during summer, and they are equally effective as pot plants for the winter decoration of the conservatory.

4863 **Mixed Ordinary Bedding Varieties.**

PHACELIA.—Hardy annual. Sow in spring in open air and transplant.

5104 **Campanularia.**—Ultramarine blue. A most showy deep blue flower, beautiful for beds and edgings. Ht. 1 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

PHYSALIS (WINTER CHERRY).—Sow *Edulis* in pots in warm house pot off, and grow against wall in cool house. *Francheti* may be sown out of doors in spring.

5112 **Francheti (Chinese Lantern Plant).**—First class for decorative purposes.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

PHLOX DRUMMONDI.

Hints on Culture.—The great advance recently made in both the size and colourings of this popular annual should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and ruins the truss. This section may be expected to reach the height of 1 ft.

CARTERS ANNUAL LARGE FLOWERED.

- 4936 **Carmine.**—Bright and effective.
 4937 **Pink.**—Soft and delicate.
 4938 **Marbled.**—A curious combination.
 4939 **Rose.** 4940 **Scarlet.** 4941 **White.**

- 4942 **Yellow.**—The nearest approach.
 4943 **Rose, White Eye.** 4944 **White, Dark Eye.**
 4945 **Purple, White Eye.** 4946 **Scarlet, White Eye.**
 4947 **Carters Choicest Mixed.**

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

CARTERS DWARF LARGE FLOWERED.

The plants are of compact and dwarf habit, forming masses of flowers from 9 in. to 1 ft. across. Most suitable for edging and borders. Ht. 6 in. except where otherwise stated.

- 4956 **Carters Blue, White Eye.** 4957 **Carters Crimson.**

- 4963 **Carters Dwarf Choice Mixed.**—A splendid mixture of all shades.

- 4958 **Carters Deep Purple.** 4959 **Carters Pink.**

- 4965 **Star Varieties, with White Margin.**—Long points to star form. Ht. 1 ft.

- 4960 **Carters Carmine.** 4961 **Carters Pure White.**

- 4971 **Salmonea Stellata.**—Dwarf habit. A most delicate plant, salmon colour of great charm and beauty. (*Crop failed*)

Price of the above	...	150 seeds.	300 seeds.	600 seeds.
		.15	.25	.45

PHLOX DECUSSATA.

- | | | | | | |
|---|-------|-----|------------|------------|------------|
| 4977 Mixed. —Hardy perennial. All best varieties. Ht. 2 to 3 ft. | Price | ... | 150 seeds. | 300 seeds. | 600 seeds. |
| | | | .15 | .25 | .45 |

CARTERS CHOICE DOUBLE GARDEN PINKS.

- 4983 **Choicest Double Garden and Show Varieties.**—Beautifully fringed, saved from the finest collection of Pinks in cultivation. Profuse bloomers and lasting. Most valuable for cutting.

- 4984 **Mrs. Sinkins.**—Double white. Sweetly scented. Seedlings are very robust and free flowering.

Price of the above ... Per Packet 25c.

POLYANTHUS.

Hints on Culture.—Our Polyanthus Primroses are constantly being improved. The strains offered below represent the highest state of perfection to be attained in each section. There is no other flower which produces such a chaste, brilliant, and enduring effect during the early spring months, either singly or in masses in beds, about the same time as the Hyacinths and Tulips. Sow in spring or summer, in prepared seed bed, and transplant when large enough.

- 5070 **Munstead Strain.**—We have been honoured with the distribution of the re-selected Miss Jekyll's famous strain of *Munstead* Polyanthus Primrose. Every possible shade of white, cream, yellow, and orange is represented in this large-flowering race, and such a variety is shown that it is a difficult matter to find two plants of the same shade. We strongly recommend this *Munstead* Strain for bedding purposes, and they are even more suited for growing in woodland walks and other such shady positions. The raiser has made such strides with this strain within the last few years that quite a number of distinct and new colours, especially among the orange shades, are now represented.

Price	...	100 seeds.	200 seeds.	400 seeds.
		.25	.45	.75

- 5068 **Carters Dark Crimson.**—This clear self deep-coloured selection is splendid for spring bedding where a well-defined deep crimson groundwork is required. It is very effective with the paler shades in Early Flowering and Darwin Tulips.

- 5069 **Gold Edged.**—The flowers in this strain are smaller and more regular in outline than the varieties offered above. The individual blooms are edged and laced with gold.

- 5075 **Carters All Colours Mixed.**—This well-selected strain is of very hardy constitution, but the plants do not exhibit the wide range of colour found in the more choice strains.

Price of the above	...	150 seeds.	300 seeds.	600 seeds.
		.15	.25	.45

PORTULACA.

Hints on Culture.—Half-hardy annuals. Both the double and single are specially adapted for rockwork and covering the groundwork of large beds. These plants delight in a sunny aspect, and are extremely useful for edging purposes. Sow seed in drills on a warm border about the end of April, or in pans or boxes in spring, in warm frame, prick off, and plant out when the frosts are over. Ht. 6 in.

- 4829 **Carters Large-flowered Single Mixed.**

- 4831 **Carters Large-flowered Double Mixed.**

Price of the above	...	1,250 seeds.	2,500 seeds.	5,000 seeds.
		.10	.15	.25

- POTENTILLA (CINQUEFOIL).**—Hardy herbaceous perennials. Average ht. 1 ft. Sow in prepared seed-bed, and transplant.

- 5118 **Double Varieties.**—Novel colours.

- 5119 **Single Varieties.**—Mixed.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

- PYRETHRUM (GOLDEN LEAVED).**—Hardy perennial. Ornamental foliaged plants; universal in carpet and other bedding; indispensable. Sow seeds in pans or boxes of sandy soil, prick off into boxes, and plant out in June.

- 4993 **Golden Feather.**—Very popular for edgings. Ht. 1 ft.

PYRETHRUM.—Continued.

- 4995 **Laciniatum.**—Foliage deeply cut; pale gold. Ht. 6 in.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

- PYRETHRUM (FLOWERING VARIETIES).**—Hardy perennials, bearing single and double Aster-like flowers on long stalks; excellent for cutting. Sow in spring and transplant. Ht. 1½ ft.

- 5000 **Single.**—Saved from the best colours; excellent cut flower for all purposes.

- 5001 **French.**—Double or semi-double, carefully selected.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

POPPY. SINGLE ANNUAL VARIETIES.

4869 Carters Shirley Poppy (*Silk or Ghost Poppy*).—This lovely garden annual Poppy has probably received its various names from its delicate texture and almost shadowy forms. The shades of colour are endless and we offer a strain of unusual beauty, which has been rigidly selected from the stock of the original nominator, the Rev. W. Wilks, Secretary to the Royal

Horticultural Society. It makes a delightful border plant, and is fine for sowing at the sides of grassy walks or along paths where Nature's growths give a wilderness-like effect to the surroundings.

Price...	1,250 seeds.	2,500 seeds.	5,000 seeds.	10,000 seeds.
	.10	.15	.25	.45

DOUBLE ANNUAL VARIETIES.

Hints on Culture.—These showy hardy flowers continue to absorb the attention of the greatest number of amateur gardeners, and deserve the position from their varied and intrinsic beauty. Sow thinly in patches, rows, or beds in spring where the plants are intended to bloom during early summer. The show may be extended if the seed pods are kept cut off. When used as cut flowers they should be picked early in the morning before opening out.

PÆONY-FLOWERED GIANT.

4880 Rich Scarlet.	4883 Pink.
4881 Bright Lilac.	4884 White, striped Scarlet.
4882 Pure White.	4887 Carters Choice Mixed.

4888 **NOVELTY.** **Munstead Cream Pink.**—A lovely double form selected by Miss Jekyll. The variety requires no better recommendation than the high opinion of this eminent horticulturist. Ht. 3 ft.

4889 Carters Picotee.—A worthy companion to the *Shirley*. Mostly semi-double, of brilliant markings and variegations. (Crop failed.)

CARTERS NEW FEATHERED.—Each blossom gives the appearance of a ball of finely cut feathers. Ht. 2 ft.

4893 White.	4894 Light Rose.	4895 Salmon Rose.	4896 Carmine on White Ground. (Crop failed.)
Price of the above ...	1,250 seeds.	2,500 seeds.	5,000 seeds.
	.10	.15	.25
			.45

PERENNIAL.

4919 Iceland, Carters Choice Mixed.—The merits of this species are great; of easy growth, adapted for pot or garden work, first class as cut flowers, and neat in appearance. Sow in patches where plants are to bloom, or in prepared seed bed, and transplant. They make good rockery plants. A superb mixture of all colours. Ht. 1 ft.

4920 Iceland, Golden.—Pale golden.

4921 Iceland, Orange.—Terra-cotta.

4922 Iceland, Rose.—Tinted rose. (Crop failed.)

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
	.10	.15	.25

4923 Iceland, White.—Pure white.

4926 Oriental, Scarlet. (*Papaver orientale*).—This is the gorgeous Perennial Poppy of the carriage drive and shrubbery; scarlet and black. Ht. 2 ft.

4927 Oriental Princess Victoria Louise.—Delicate salmon-coloured flowers. Ht. 3 ft.

4928 Oriental, Mixed.—Different colours.

4930 Bracteatum.—Orange scarlet. Ht. 2 ft.

CARTERS GARDEN PRIMROSE.

Hints on Culture.—The Primrose is one of those plants that resents too much coddling, and sometimes when great care is taken over the seeds they refuse to grow. The simplest plan is to sow them in the open ground, in a partially shaded place, from May to July. Just scratch the seed in with a rake and firm the surface, when under the influence of genial showers they will soon come up. The Blue Primrose may be sown in borders at the same season.

5082 Blue.—To obtain the best results seedlings should be raised each year, sowing in March, as the blue is more intense the first season than in subsequent years.

Price ...	75 seeds.	150 seeds.	300 seeds.
	.25	.45	.75

5083 Yellow.—The lovely Old English Primrose of the woods.

5085 Carters Choice Mixed.—Contains every obtainable colour. New shades are constantly occurring as the result of our continuous hybridisation.

Price of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.15	.25	.45

PRIMULA.

Hints on Culture.—Sow in pans of finely-sifted soil in spring, and pot off singly into thumb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrous loam when shifting into larger pots.

5016 Carters Prize Single Mixed.—This splendid mixture contains all the finest varieties and most beautiful forms of this popular greenhouse annual, for which our house has long been famous. New seedling forms and art shades are introduced, in addition to the choicest standard varieties. All varieties not of the highest merit are rigorously excluded, with the result that this mixture will be found unsurpassable for the compactness and vigour of the plants and the beauty and variety of the individual blossoms. When pricking out the seedlings, take care not to discard the smaller plantlets, as these frequently produce some of the newest and most delicate shades.

Price ...	75 seeds.	150 seeds.	300 seeds.
	.50	.85	1.50

CARTERS DOUBLE.

5034 Carters Prize Double, Superb Mixture	Price ...	75 seeds.	150 seeds.	300 seeds.
		.50	.85	1.50

CARTERS STELLATA (Star Primula).

This is both delightful and grateful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering. Treatment for *Primula sinensis* will suit this species well.

5056 Carters Superb Mixed.—All shades ... Price ... 100 seeds. 200 seeds. 400 seeds.

	.50	.85	1.50
--	-----	-----	------

HARDY VARIETIES.—**Hints on Culture.**—Perennials. Sow in pans in cool frames, and prick off into boxes, then transplant. *Obconica* should be sown in heat, potted off, and grown in warm frames for conservatory decoration and cut flowers.

5061 Japonica.—A valuable subject for damp situations. With tiers of bloom. Ht. 1 ft.

5064 Obconica gigantea.—A great improvement on the original.

Price of the above ...	250 seeds.	500 seeds.	1,000 seeds.
	.25	.45	.75

ROSE.

5135 Carters Annual Rose.—Very pretty and interesting. A real gem. If the seed is sown in a pan, in a slight heat, well watered, and kept from getting dry, the seedlings will appear in a few weeks. Pot off when fit to handle, and expect some fairy blooms within three months.

Price	...	12 pods.	24 pods.	48 pods.
		.10	.15	.25

SALPIGLOSSIS.

Half-hardy annual.

5238 Carters Large-flowered Mixed Varieties.—Ht. 2 ft.

5239 Emperor, Choice Mixed.—A new class of strong, erect growth, bearing gorgeous flowers of the finest markings. Ht. 1½ ft.

5240 Dwarf.—Bright colours. Ht. 1 ft.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CARTERS SCABIOUS.

Hints on Culture.—This bright-flowering plant is usually treated as an annual in our gardens. During recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seed-vessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the bees are very fond of it, and its floral favours also attract all the most beautiful types of butterflies in the neighbourhood. Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings 3 in. apart in larger boxes; harden off as spring advances, and set out in the border towards the end of May. They may also be sown where intended to grow during March and April.

CARTERS LARGE-FLOWERED DWARF DOUBLE.—Ht. 1½ ft.

5246 Carters Cherry Red.

5250 Carters Rose.

5247 Carters Crimson.

5251 Carters White.

Price of the above	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

CARTERS LARGE-FLOWERED SCHIZANTHUS.

For pots or hanging baskets.

During the last few years the Schizanthus has leapt into popularity owing to the remarkable advance which has been made both in the habit of the plants and diversity of colours now available. By sowing in spring, summer, and autumn, a succession of bloom may be obtained throughout the year. Our *Butterfly* and large-flowered strains, together with the distinct *Retusus* forms, are the most suitable for greenhouse and winter garden decoration.

5278 Carters Large Butterfly-flowered.—This surpasses any other strain for its size of flowers, gorgeous colouring, and diversity of shades. The habit is bold and branching, forming bushes from 1½ ft. to 2½ ft. high, and of equal diameter.

5279 Carters Large-flowered.—Choice light shades, containing innumerable shades of white, cream, primrose, flesh-pink, rose, carmine, and cerise.

5280 Carters Large-flowered.—Choice dark shades. All rich, pure, dark forms. The washy purples and dull magenta shades found in Schizanthus have no place in this strain.

5281 Pinnatus.—Original species from Chili. Ht. 2 ft.

5284 Tigridioides.—The choicest Kew species. Ht. 2 ft.

5286 Retusus Hybrids.—Many charming shades are contained in these hybrids, which vary from deep salmon-rose to the palest flesh pink. (*Crop failed.*)

5287 Wisetoniensis.—Makes a fine greenhouse decorative plant.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

RANUNCULUS (CROWFOOT).—Hardy perennial. Sow in spring or autumn, in pans in a cold frame, and plant out in spring when large enough.

5140 Asiaticus.—Saved from all the best colours. Ht. 6 in.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.

CARTERS LENOX STRAIN OF BEAUTY OF NICE

This dwarf strain of BEAUTY OF NICE Stock produces a very large percentage of doubles. The raiser states that 90 per cent. of double flowers is a fair average. It has a very free-flowering habit and pyramidal form, which is very uniform and neat, and is a splendid strain for spring forcing purposes, doing equally well in pots or benches. Ht. 1½ ft.

- 5457 **Carters White.** 5458 **Carters Pink.** 5459 **Carters Mixed.**

CARTERS GIANT TEN-WEEK

CARTERS MONARCH.—For beds or borders these magnificent Stocks are invaluable. Well-grown plants attain a height of 3 ft., carrying splendid spikes of bloom 1½ ft. to 2 ft. in length, the proportion of double blossoms being extremely high. These varieties are hardy, and do well sown in the open ground.

- 5370 **White** 5372 **Dark Blue.** 5374 **Rose**
- 5371 **Crimson.** 5373 **Light Blue.**

5377 **Bismarck.**—Blooms slightly later than most Ten-week Stock thus forming valuable variety for succession. Of robust habit, having numerous trusses of large blooms borne round the central stem, forming a snowy pyramid, being a charming contrast to the distinct wide foliage.

5378 **Triumph Ten-week.**—Brilliant crimson. Of very vigorous growth, branching habit; about 70 per cent. producing very large double flowers. Very striking. Ht. 1 to 1½ ft.

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above....	.15	.25	.45	.75

EARLY LARGE-FLOWERED WINTER

We very highly recommend this class of Stocks to all who have not grown them. They were first brought into prominence by the advent of that charming pink variety BEAUTY OF NICE. The following varieties all resemble this variety in habit and profusion of bloom. We know of few Stocks which produce such a high percentage of double flowers. Although usually treated as winter varieties, they are admirably suited for summer bedding if treated as ten-week varieties. Sow in July and August for winter flowering, and in March and April for summer displays.

5380 **Beauty of Nice.**—Plant of robust growth. Very free flowering. Flowers very large, fine double fragrant, and delicate fleshy-pink colour. Extremely valuable for decorative work. Ht. 2 to 2½ ft.

5381 **Crimson King.**—Brilliant fiery crimson.

5382 **Queen Alexandra.**—Delicate rosy lilac.

5460 **Almond Blossom.** 5461 **Dark Violet.** 5462 **Snow White.**

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above....	.10	.15	.25	.45

CARTERS AUTUMN AND SPRING FLOWERING

Sow in March and April to bloom in late summer and autumn, and in cold frames in July and August to flower in spring.

CARTERS INTERMEDIATE.—Biennial. A great favourite. Ht. 1½ ft.

5395 **Scarlet.**—Grand flower.

5396 **White.**—Excellent truss.

5399 **Splendid Mixture.**—All colours.

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above....	.15	.25	.45	.75

SPRING FLOWERING

Sow in July and August and plant out in early spring. The young plants are best wintered in cold frames.

CARTERS BROMPTON.—Biennial. Sturdy, hardy, strong-growing.

5402 **Empress Elizabeth.**—One of the most handsome spring-blooming forms; extremely useful for pot work. The large spikes of bright carmine flowers are borne with great profusion.

5404 **Purple.**

5405 **Scarlet.**

5406 **White.**

5407 **Superb Mixed.**

CARTERS PERPETUAL WHITE STOCK

5415 A large percentage of double blooms all the year round. Splendid deep green foliage; most deliciously scented. Ht. 1 ft.

	125 seeds.	250 seeds.	500 seeds.	1,000 seeds.
Price of the above....	.15	.25	.45	.75

STREPTOCARPUS.

Hints on Culture.—Perennial A novel race of free-blooming greenhouse pot plants, in universal demand; bright, cheerful, lasting. The mixture we offer is a carefully fertilised strain, containing all the best colours, including a very large and rich blue. Sow in pans of rich soil in early spring, in heat, and pot off into small pots when large enough to handle. Keep the seed pans moist.

5293 Carters Choice Hybrids.—Superb mixture, the latest type in all colours, Included in our Gold Medal Exhibit of flowers. R.H.S. Chelsea Exhibition, 1913.

5294 Carters Large-flowered Blue.—Very showy.

Price of the above ...	500 seeds.	1,000 seeds.	2,000 seeds.
...	.25	.45	.75

SUNFLOWER (Helianthus).

Sow all varieties in spring. Only transplant if necessary.

CARTERS MINIATURE AND MANY FLOWERED VARIETIES.

The annual small-blossomed Sunflowers now compare favourably for freedom of bloom and elegance of habit with the perennial kinds. For cutting they are extremely valuable. All the varieties offered below are equally suited for garden decoration and producing large quantities of cut flowers.

5420 Carters Orion.—Has very pretty quilled petals, free habit; most attractive when seen growing, and in decoration. Ht. 3 ft.

5421 Carters Miniature Flowered.—Single Nosegay Sunflower. Gold, dark centre. Very handsome when seen in borders; quite welcome flowers for cut purposes. Ht. 3 ft.

5422 Miniature Flowered Double.—Annual. Ht. about 2 ft.

5423 Pleiades.—A grand mixture of small decorative Sunflowers, in various shades of gold and sulphur. Ht. 3 ft.

5424 Perkeo.—A miniature variety of exceptional interest. Of bushy habit. Ht. 1 to 1½ ft.

5425 Stella.—Favourite, select miniature variety; in great demand. Ht. 4 ft.

5426 Carters Dwarf.—Fine bold flowers, thrown well above a very compact growth. Ht. 1 ft.

Price of the above ...	200 seeds.	400 seeds.	800 seeds.
...	.10	.15	.25

CARTERS LARGE-FLOWERED TALL AND DWARF.

5432 Cactus or Sun's Eye.—A grand double Sunflower of attractive form. Its fine habit and intense doubleness of flowers have secured for it great popularity. Ht. 6 ft.

5433 Carters Primrose.—A delicate-coloured single Sunflower. Its black centre forms a beautiful contrast in combination with the pure-coloured primrose florets. Ht. 4 ft.

5434 Carters Leviathan.—The largest single-flowered variety. We have had heads sent us measuring 1½ ft. across. Ht. 6 to 10 ft.

5435 Henry Wilde.—The best of all for cut single flowers. Colour bright yellow with dark centre. Ht. 4 ft.

5436 Californian.—Splendid variety, with magnificent heads of double blossoms; rich colour. Ht. 6 ft.

5437 Double Dwarf.—Fine rich orange colour. Ht. 3 ft.

5438 Dwarf.—The old-fashioned dwarf garden variety; single. Ht. 3 ft.

5440 Perennial (Harpalum).—Mixed. Best distinct varieties.

Price of the above ...	100 seeds.	200 seeds.	400 seeds.
...	.10	.15	.25

ROMNEYA.—Half-hardy perennial. When well-grown is a handsome plant. Seed should be sown under glass in early spring, and seedlings potted off and hardened before planting out.

5146 Coulteri.—Bush-like plant. Large glistening pure white flowers. Ht. 3 ft.

Price ...	500 seeds.	1,000 seeds.	2,000 seeds.
...	.10	.15	.25

ROSE CAMPION (AGROSTEMMA or LYCHNIS CORONARIA).—Perennial. Sow in spring in open border.

5166 Red or Crimson.—Foliage woolly and silvery.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
...	.10	.15	.25

RUDBECKIA (CONE FLOWER).—Hardy annuals and perennials. Plants presenting the characteristics of the Single Sunflower with flower petals narrower and raised central discs. Sow in spring in a seed-bed with a warm aspect, and transplant when large enough.

5152 Carters Cactus-flowered.—Annual. Golden yellow with maroon flakes. Excellent novelty for cut flowers.

Price ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
...	.10	.15	.25

5155 Californica.—Grand perennial. Golden bloom with long brown cone. Ht. 2 to 3 ft.

Price ...	100 seeds.	200 seeds.	400 seeds.
...	.10	.15	.25

SAPONARIA.—For edging, rockeries, &c. Sow where intended to flower.

5190 Calabrica.—Hardy annual. The old favourite; rose.

5192 Ocymoides.—Perennial rock plant. Pale pink; trailer.

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
...	.10	.15	.25

SALVIA.—Annuals and perennials. Sow in heat, in early spring, prick off into boxes in warm frames, and harden off well before planting out. *Argentea* may be sown in pans or boxes in a frame, and then planted out.

5179 Coccinea.—Brilliant scarlet half-hardy annual. Ht. 2 ft.

Price ...	100 seeds.	200 seeds.	400 seeds.
...	.10	.15	.25

5180 Patens.—Half-hardy blue perennial, for pots or bedding.

5181 Splendens.—Crimson perennial, for pots. Ht. 1½ ft.

5182 Splendens compacta.—Perennial. Neat habit. Ht. 1 ft.

5183 Splendens, Carters Zurich.—Very early flowering. Most fiery scarlet; splendid for pot and other decoration. Ht. 1 ft.

5185 Azurea grandiflora.—Hardy perennial. Deep blue in long racemes. Ht. 3 ft.

5186 Farinacea.—Half-hardy perennial. Light blue flowers, fine long spikes. Ht. 2½ ft.

5187 Bonfire.—Half-hardy annual. Fiery crimson; erect and dwarf.

Price of the above ...	20 seeds.	40 seeds.	80 seeds.
...	.15	.25	.45

SEDUM.—See Stonecrop.

SILENE.—Dwarf annuals of essential service to the spring and summer garden. The best effects are produced from seed sown in summer, the seedlings being transplanted into beds in autumn or early winter.

5208 Empress of India.—Crimson flower and stalks. A great improvement on older kinds. Ht. 4 in.

5209 Snow King.—The finest dwarf white edging flowering annual yet produced. Ht. 4 in.

Price of the above ...	1,000 seeds.	2,000 seeds.	4,000 seeds.
...	.10	.15	.25

SMILAX.—See Medeola.

CARTERS LARGE-FLOWERED SWEET PEAS.

- 5510 **Duchess of Portland.**—(*Crop failed*)
5524 **Edward Cowdry.**—Bright orange scarlet self.
5546 **Fiery Cross.**—Glowing orange cerise; sunproof.

Other Spencer varieties not mentioned in this list can be supplied.

CARTERS SELECTED LARGE-FLOWERED SWEET PEAS.

During 1914 Carters Sweet Peas were awarded a Silver Cup by the Royal Horticultural Society at Holland House Show; Gold Medal, Shepperton; Gold Medal, Sherborne; and a Gold Medal at Sevenoaks. Gold Medal, Bournemouth, 1913. Three Large Gold Medals and Two Silver Gilt Medals have been awarded our Sweet Peas by the National Sweet Pea Society since 1908.

With a view to assisting those of our customers who are not quite conversant with Sweet Peas in their now extremely numerous varieties, we offer our selection of large-flowered varieties as under.

Although all good for exhibition, we chiefly have in mind their suitability for garden decoration and cutting purposes. With this end in view, we have selected giant-flowered types borne in threes and fours on very long stems. All are bright colours and pleasing shades, which do not scorch in the sun. The plants are of robust habit, and if the bloom is judiciously cut will produce large quantities of beautiful flowers until late autumn.

- 5720 **Carters Extra Early White.**
5721 **Carters White.**

SWEET WILLIAM (*Dianthus Barbatus*).

Perennial. Beyond a good soil this gorgeous plant requires but little attention. Sow in summer, and transplant when large enough in autumn for blooming the next spring and summer.

5446 **Carters Holborn Glory**.—A beautiful strain of light shades. Our *Holborn Glory* strain is magnificent, the blooms being larger than a penny piece. Ht. 2 ft.

5447 **Scarlet Beauty**.—A magnificent strain with very large trusses of a lovely salmon scarlet shade. Very showy and effective; flowering early and lasting a long time in bloom.

5448 **Carters Auricula-eyed**.—Very finely marked. Ht. 2 ft.

5449 **NEW. Carters Brilliant Red**.—The most brilliant coloured Sweet William. Clean bright scarlet, very free flowered. Unlike most scarlet shades, this comes practically true from seed.

Price of the above	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

5450 **Carters Dark Crimsn**.—Intense colour. Dark foliage. Ht. 1½ ft. to 1 ft. 8 in.

5451 **Carters Pink**.—A splendid strain, varying in shade from palest flesh through clear shrimp and rose shades to deep coral. This should be in every garden. Ht. 1½ ft. to 1½ ft.

5452 **Carters Pure White**.—Fine heads of pure white flowers. 1½ ft.

5453 **Carters Double Giant Mixed**.—All colours.

5454 **Carters Superb Mixed**.—All colours.

VERBENA.

Hints on Culture.—Perennial. Few plants are more generally liked than the Verbena, as it makes a first-class bedder, brilliant in colours, excellent habit, and of long duration in bloom. Sow in heat in spring, prick off into boxes in cool frame, harden off, and plant out. It may be also grown as a pot plant from seeds sown in summer for flowering in the greenhouse the following spring.

5784 **Carters Mammoth**.—Choice mixture of all shades.

5785 **Mammoth, Fairy Queen**.—Daintily tinted pink on white ground. (*Crop failed*)

5786 **Mammoth**.—Scarlet shades. Magnificent blossom.

5787 **Mammoth**.—Brilliant rose.

5788 **Carters Dark Blue**.—Large-flowered.

5789 **Carters Pink**.—Large-flowered.

5790 **Carters Scarlet**.—Large-flowered.

5791 **Carters White**.—Large-flowered.

Price of the above	...	150 seeds	300 seeds.	600 seeds.
		.10	.15	.25

5792 **Carters Auricula-eyed**.—Choice mixed.

5793 **Erecta, Brilliant**.—Flowers of a brilliant coppery scarlet, with large white eye. Erect habit. (*Crop failed*.)

5794 **Carters Hybrids**.—Mixture of sorts. Excellent bedder.

Price of the above	...	150 seeds.	300 seeds.	600 seeds.
		.10	.15	.25

5795 **Drummondii**.—Hardy perennial; blooming the first season.

5796 **Venosa**.—Hardy perennial; blooming the first season; rosy purple.

5797 **Lemon-scented (Aloysia)**.—Half-hardy shrub.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

DWARF COMPACT VERBENAS.

These require no pegging down. The erect bushy habit renders them most suitable for bedding, borders, and also pots. The colours are brilliant in the extreme.

5803 **Defiance**.—A beautiful fiery scarlet.

5804 **Scarlet, with white eye**.

Price of the above	...	100 seeds.	200 seeds.	400 seeds.
		.10	.15	.25

5805 **Cœrulea**.—Deep blue. 5806 **Cœrulea, with white eye**.

5807 **Carters Compact**.—Mixed.

SNAPDRAGON.—See *Antirrhinum*

SOLANUM (NIGHTSHADE).—Perennial. Ornamental fruit, useful for decorations. No. 5223 is very serviceable during winter in the conservatory. Sow in early spring, in heat, pot off, and grow on in cold frame; plant out in June in prepared beds, and lift and pot up in September.

5220 **Hybridum compactum**.—Berried plants for table and conservatory. Ht. 1 ft.

5223 **Wetherill's Hybrids**.—Berried varieties for table decoration. Ht. 1 ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

STATICE (SEA LAVENDER).—Very free-flowering plants of easy culture and valuable when dried for bouquets. They are most showy for beds, borders, or pots. Sow in pots or outdoors in early spring.

5303 **Bonduellii**.—Yellow. Annual. 5304 **Sinuata**.—Blue. Annual.

5305 **Sinuata alba**.—Annual.

Price of the above	...	½ oz.	¼ oz.	1 oz.
		.10	.15	.25

5306 **Candelabrum (Suworowi)**.—Annual. Of singular beauty, for beds and borders; soft shade of rose. Ht. 1 ft.

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

STONECROP (SEDUM).—We may safely say that no rockery is complete without the Sedum.

5316 **Mixed, Carters Varieties**.—Perennial kinds for general garden and rockwork. (*Crop failed*.)

Price	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

TAGETES.—Brilliant dwarf single edging Marigold. Hardy annual. Sow in spring, and transplant into beds or borders. Extremely showy.

5755 **Pumila**.—First class. Orange yellow. Ht. 9 in.

5756 **Pumila, Golden Ring**.—A great improvement. Ht. 6 in.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

THALICTRUM (MEADOW RUE).—Hardy perennial; splendid. Most graceful for the borders. (*Crop failed*.)

5762 **Adiantifolium**.—Fern-leaved foliage, for cutting. Ht. 2 ft.

Price	...	25 seeds.	50 seeds.	100 seeds.
		.10	.15	.25

THUNBERGIA.—Half-hardy climber. Annual. Sow under glass in spring, pot off, and plant out when hardened.

5765 **Alata**.—Choicest mixed. Orange, yellow, and white, some flowers having black centres.

Price	...	25 seeds.	50 seeds.	100 seeds.
		.10	.15	.25

TRACHELIUM.—Hardy herbaceous perennial.

5773 **Cœruleum**.—A most popular plant for greenhouse decoration, having large heads of pale blue flowers. Ht. 2 ft.

Price	...	500 seeds.	1,000 seeds.	2,000 seeds.
		.10	.15	.25

TROPÆOLUM.—See *Nasturtium*.

VALERIAN.—Hardy perennial. For beds or borders. Sow in spring in warm position, and transplant.

5780 **Red Garden**. 5781 **White Garden**. (*Crop failed*.)

VIOLA.

Hints on Culture.—Hardy perennial. Every large extent of bedding includes one or more of the Violas, and their enlivening effect is remarkable. Sow seed in spring, in pans of light sandy soil in a cold frame, prick off, and plant out in May or June. Ht. 6 in. Extreme care is taken in saving all the superb shades below, which come fairly true from seed.

5813 **Carters Purple Bedding.**

5814 **Carters Light Blue Bedding.**

5815 **Carters Golden Bedding.**

5816 **Carters White Bedding.**

5819 **Cornuta, Carters Butterfly (Papilio).**—Very effective as a rockery plant, as well as for early borders or bedding. Marbled on violet ground. (*Crop failed.*)

5820 **Cornuta, Mauve Queen.**—The original Viola, small-flowered

5821 **Cornuta, Purple Queen.**—The original Viola, small-flowered.

5824 **Carters Choicest Mixed.**—Superb flowers of all shades.

5826 **Odorata.**—Sweet Violet.

5827 **Odorata alba.**—White Violet.

5828 **Odorata, The Czar.**

5829 **Carters Sweet Scented Violet (Princess of Wales).**—Award of Merit, R.H.S. This plant produces large flowers of a rich blue shade on long, vigorous stems. Popular for its fragrance, and makes a charming button-hole.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

WALLFLOWERS.

Hints on Culture.—The Wallflower is very popular in English gardens, but is not grown to a great extent in this country. Now that so many improved forms and bright colours are available, it should find a place in all collections of spring-flowering plants. For quite two months, May and June, it adds its best charms, and makes beds and borders quite cheery by its presence and fragrance. For real usefulness we recommend the selections shown on this page. Sow the seed of the annual varieties in February and March, and keep growing until time for planting out in May. For indoor purposes sow the seed in September and pot off when ready, keep them well nourished, and as spring approaches they will grow rapidly and prove a valuable addition to the greenhouse or conservatory with their fragrance and presence.

CARTERS DWARF SWEET-SCENTED LARGE FLOWERED.

For beds and borders. Ht. 9 in. to 1 ft. Plants to stand 1 ft. apart. Excellent in a bed to themselves or as a front to the taller varieties.

5858 **Carters Dwarf Golden.**—A very select stock of good habit and bright colour.

5860 **Carters Dwarf Purple.**—Large flowered. This variety should be more grown; it forms a pleasing combination with pale yellow Tulips.

5859 **Carters Dwarf Blood-red.**—Large flowered. An excellent deep-coloured companion to the above.

5865 **Carters Mixture of Dwarf Varieties.**—In this strain the various shades and colours are carefully blended. All the plants are of very neat habit and free flowered.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

CARTERS TALL SWEET-SCENTED.

The tall strain is very effective planted in front of shrubberies, along borders, or in the centre of beds edged with the dwarf varieties above Ht. 1½ ft. except where otherwise stated.

The variety starred bears giant flowers and is a very choice re-selected strain.

5872 **Ellen Willmott.**—This is a recent introduction of which we have an extremely high opinion. The very large flowers are of a rich shade of ruby, very distinct from existing forms of this colour. Ht. 1½ ft.

5879 **Harbinger.**—The well-known early-flowering market variety. Colour mahogany brown.

5885* **Carters Mixture of Tall Varieties.**—Contains all the best colours and shades found in our named varieties, and many delightful seedling forms not yet fixed.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

DOUBLE.

5896 **Carters Dwarf.**—Large branching growth, all colours. Ht. 9 in. to 1 ft.

5897 **Double Mixed.**—Magnificent spikes of blossom. Ht. 1 ft. to 2 ft.

Doubles should be planted closer together than Singles.

Price of the above	...	75 seeds.	150 seeds.	300 seeds.
		.10	.15	.25

WILD CUCUMBER	Price	100 Seeds	250 Seeds
		.10	.20

VENUS'S LOOKING GLASS.—Hardy annual. Sow in open border in spring.

5835 **Blue.**—Campanula-like. Ht. 1 ft. (*Crop failed.*)

VENUS'S NAVELWORT.—Sow in open border in spring. Hardy annual for edgings.

5838 **White.**—Forget-me-not-like sprays and whitish foliage. Ht. 9 in. (*Crop failed.*)

VERBASCUM (MULLEIN).—Hardy perennial. Sow seeds in summer, and transplant in autumn to bloom following year.

5841 **Pannosum.**—White foliage, dense spikes of yellow flowers, silver white in centre. Ht. 6 ft. (*Crop failed*)

VIRGINIAN STOCK.—Annual. The hardiest of annuals, adapted for edgings. Sow in spring.

5847 **Crimson King.**—Rich rose crimson.

5848 **Red.**

5849 **White.**

5850 **Carters Mixed.**

Price of the above	...	½ oz.	¾ oz.	1 oz.
		.10	.15	.25

VISCARIA.—Hardy annual of brilliant colour and effect. Sow in spring where plants are to bloom.

5853 **Cardinalis.**—Vivid carmine-lake. Ht. 1 ft.

5854 **Carters Lilac.**—A charming pale lilac variety which cannot fail to become popular, as the shade is one which is all too rare among annuals.

5855 **Oculata.**—Metallic lilac.

Price of the above	...	1,000 seeds.	2,000 seeds.	4,000 seeds.
		.10	.15	.25

CARTERS MAMMOTH DOUBLE ZINNIA.

When well grown, the Zinnia is one of the showiest of the half-hardy annuals, its treatment being similar to that of the Aster.

5923 Carters Mammoth Double Mixed.—A giant-flowered strain, containing only the most pleasing colours. Ht. 1½ ft.

5924 Carters Large-flowered Dwarf Double.—Choicest mixed. Ht. 1 ft.

5925 Carters Fireball.—The plant is of neat habit, throwing up a large number of small, fiery scarlet, perfectly double ball-like flowers. Ht. 1½ ft.

Price of the above	...	250 seeds.	500 seeds.	1,000 seeds.
		.10	.15	.25

ZINNIA ELEGANS SINGLE.

Annual. The single Zinnia is unique in form, and combines richness and variety of colour. Attractive in beds or mixed borders.

5941 Choice Single Mixed.—Includes all the best colours. Ht. 2 ft.

Price	...	250 seeds.	500 seeds.	1,000 seeds.

MULFORD CULTURES

For Legumes

UNINOCULATED INOCULATED

Alfalfa—planted. September—photographed

(same scale) following April.

Plant on left not inoculated—Plant on right inoculated with MULFORD NITRO-GERM. All other conditions identical. The contrast speaks for itself.
 *Trial size bottle, 25c.

The inoculation of seeds and soil for the growth of leguminous crops has been found, in many instances, to be beneficial and commercially profitable. The Mulford cultures of the various nitrogen-fixing bacteria are claimed by the suppliers to be tested in their biological laboratories. We stock the Mulford Nitro-Germ for the following crops:

*Sweet Peas,
 *Garden Peas,
 *Garden Beans,
 Red Clover, etc.

PRICES

Garden size (about ¼ acre, 50c.
 1 acre size, \$1.50
 5 acre size, "A dollar an acre," \$5.00.

Special prices on larger quantities. Literature gratis on application.

CARTERS TESTED GRASS SEEDS

PRESCRIBED FOR ALL SOILS AND PURPOSES

Carters Tested Grass Seeds are used on the estates of HIS MAJESTY THE KING at WINDSOR and SANDRINGHAM, the following Canadian Golf Courses: Toronto, Stratford, Lambton, Winnipeg, Kanawaki, Beaconsfield, Royal Ottawa, Outremont, Brantford, Essex County, Hamilton, Sarnia, Royal Montreal, Mississauga, Lakeview, &c.; also Lords, The Oval, All England Tennis Grounds, Ascot and Newmarket Race Courses; and all the leading Clubs at Home and Abroad.

Carters Finest Mixture of Grass Seeds for Putting Greens or Tennis Courts (without Rye Grass).—Mixtures of the very fine bladed species, which, if sown according to our recommendations, should produce a close, thick turf on all good soils, and are especially suitable for all games in which the ball is required to run true.

Per lb., 50c.; 5 lb. bag, \$2.25.

Lots under 20 bushels—per bushel (25 lb.), \$11.00; 100 lb., \$42.00

Lots of 20 bushels or over, per 100 lb., \$40.00.

When ordering state whether the soil is light, medium, or heavy as a mixture is sent accordingly.

Carters Fine Mixture of Grass Seeds for Fair Greens, Tees, Lawns, Shaded Grounds, Football, Baseball, Polo Fields, &c. (without Rye Grass).—Mixtures not so fine as the above, but better adapted for the purpose where a turf of the finest texture is not required, producing a strong, hard-wearing turf.

Per lb., 45c.; 5 lb. bag, \$2.15.

Lots under 20 bushels—per bush. (25 lb.), \$10.50; 100 lb., \$40.00.

Lots of 20 bushels or over, Per 100 lb., \$38.00. When ordering state whether the soil is light, medium or heavy, as a mixture is sent accordingly.

Carters Invicta Lawn Grass Seeds (with Rye Grass).—An all-round mixture of fine, hardy grasses for Lawns, Golf Courses, especially the Tees, Tennis Courts, &c.

Per lb. 40c.; 5 lb. bag, \$1.90.

Lots under 20 bushels—per bush. (25 lb.), \$9.00; 100 lb., \$34.00.

Lots over 20 bushels—per 100 lb., \$32.00.

CARTERS COMPLETE MANURES

Carters Complete Grass Manure (No. 1) is, as its name implies, a complete grass food, that is to say, it contains all that is necessary for the growth of fine grasses, but it does not force or burn them.

DIRECTIONS FOR USE.—When making a new lawn or green, spread the manure evenly over the surface at the rate of 2 oz. per square yard, and rake it in. The seed can be sown immediately afterwards, but it is better to allow a few days to elapse between the two operations. For renovating a lawn, spread the manure evenly over the ground at the rate of 2 oz. per square yard, and rake it in whilst preparing the surface for the seed. When used to improve existing turf, sow at the rate of 2 oz. per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils.

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$3.50; 100 lb. \$6.50; 1,000 lb., \$62.50; 2,000 lb., \$120.00.

Carters Anticlover Manure (No. 2) is also a complete grass food. It is slightly quicker in action than the above, and its constituents are so balanced that it effectively checks the growth of clover, and for this reason is very valuable for dressing Putting Greens, Tennis Courts, Croquet Lawns, and other Lawns in which the growth of clover is objectionable.

DIRECTIONS FOR USE.—Sow at the rate of 2 oz. per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils.

Per Tin, 35c.; 10 lb., 75c.; 50 lb., \$2.75; 100 lb., \$5.25; 1000 lb., \$50.00; 2000 lb., \$98.00.

Carters General Purpose Manure (No. 3), for rejuvenating large areas of turf for field games where a strong, tough, hard-wearing turf is required, rather than one of the finest texture. Very useful for dressing Golf Courses. "Through the Green," Football, Hockey, Cricket Fields, &c.

DIRECTIONS FOR USE.—Mix manure with two or three times its own bulk of sifted soil or sand, so as to facilitate its even distribution, and apply it broadcast at the rate of 500 lb. per acre, either in early autumn or spring and bush-harrow it in.

Per 100 lb., \$5.25; 1,000 lb., \$50.00; 2,000 lb., \$98.00.

Carters Bulb and Herbaceous Border Manure (No. 4).—This manure is the result of many years of experiments in our trial grounds, where we grow plants and bulbs to perfection for exhibition purposes, and as it is carefully composed of the primary constituents required for the healthy growth of the bulb, it does not attract vermin or disease, or tend to rot the roots as raw dung frequently does.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Sweet Pea Manure (No. 5).—This highly concentrated manure, if used in conjunction with deep cultivation, will grow Sweet Peas to show pitch.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Shaded Lawn Mixture.—It is always difficult to obtain a satisfactory and permanent turf under trees, &c. The roots rob the soil of food and moisture, the drip from the branches is harmful, and the partial absence of light and air is detrimental to growth. Use Carters Manures regularly and sow with this Special Shaded Lawn Mixture.

Per lb., 50c.; 5 lb. bag, \$2.25; bushel (25 lb.), \$11.00.

Carters Grass Seeds for Recreation Grounds, Race Courses, and other Open Spaces.—We prepare mixtures of hard-wearing grass suitable for this purpose at prices varying from \$5.00 to \$7.50 per bushel.

Carters Lawn Clover.—Generally we do not recommend clover in lawns, and we do not include it in our mixtures unless requested. It is liked under some circumstances, and we offer the finest seed. Use one packet to 1 lb. of grass seed.

Per pkt., 10c.; per lb., 75c.

SOWING GRASS SEED

Quantity of Seed Required

IN SOWING A NEW LAWN use 6 to 8 bushels or 200 lb. per acre. Figure a small lawn at the rate of 2 ozs. per square yard. USE HALF THE ABOVE QUANTITIES for renovation purposes.

One bushel of seeds weighs 25 lb. A putting green should be divided into squares of 4 yards each way, or 16 square yards, and the seed required for that area should not be less than 2 lb., which is at the rate of 2 bushels, or 50 lb., to an area of 20 yards each way, or 400 square yards.

For renovating purposes, about one-half the above quantity would be required, according to the state of the existing turf, for an area of 20 yards square, or 400 square yards.

Golf fair greens should be sown at the rate of from 6 to 12 bushels per acre.

Natural Grasses and Clovers

(Prices mailed on application)

Carters Complete Garden Manure (No. 6).—This prescription is based on the average requirements of plant life as a whole, and will give splendid results to those who work for a mixed display, and do not specialize in any particular branch.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Rose Manure (No. 7).—A splendidly balanced manure, specially prescribed for the production of large blooms of fine quality.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Fruit Tree Manure (No. 8).—A fine prescription in which the wood, strength and quality formers are in splendid combination.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Vine and Tomato Manure (No. 9).—A well-balanced manure for producing healthy growth and well-finished fruit of good flavour.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Chrysanthemum Manure (No. 10).—This manure is specially compounded by experts who desire to produce robust growth and large blooms of good colour and form.

(Directions for use with each package.)

Per tin, 35c.; 10 lb., \$1.00; 50 lb., \$4.50; 100 lb., \$8.50.

Carters Special Bone Meal.

Per 5 lb. 40c.; 10 lb., 75c.; 25 lb., \$1.50; 100 lb., \$5.00.

Veg Vita.

Per tin, 20c.; and 35c.

Pulverized Sheep Manure.—Best quality, free from weed seeds.

Per 5 lb. carton, 35c.; 10 lb. carton 65c.; 25 lb., \$1.10; 50 lb., \$2.00; 100 lb., \$3.75; ton, 2,000 lbs., \$60.00.

Carterite, for exterminating daisies and shallow-rooted weeds in Lawns, &c.

Per 25 lb. lb., \$1.75; 50 lb., \$3.25; 100 lb., \$6.00; 500 lb., \$29.00.

Carters Ant Eradicator.

Per tin of about 2 lb., 75c.; 12 tins, \$7.20.

Carters Worm-eradicating Fertilizer.—A preparation for removing earth worms from Lawns, Putting Greens, Tennis Courts, &c., at the same time having a stimulating effect on the turf.

PLENTY OF WATER should be used in washing this powder into the turf, and a day selected when the worms are working near the surface. SPECIAL CIRCULAR SENT ON REQUEST.

Per sample tin, 35c.; 5 lb., 60c.; 20 lb., \$1.75; bag (100 lb.), \$6.75; ½ ton (10 bags), \$65.00; ton (20 bags), \$120.00.

LAWN MOWERS

It is admitted by golf professionals, greenkeepers, and other experts that the Shanks Lawn Mowers represent the acme of perfection. Made by Alex. Shanks & Sons, of Arbroath, Scotland. We recommend them without reserve. Prices on application.

Shanks' "Caledonia."—Roller machine, with seven Sheffield blades and complete with grass catcher. 14 and 16 inch cut.

Shanks' "Talisman."—Side wheel machine, the finest ball-bearing golf machine in existence. Seven blades, price includes grass box. 17 and 19 inch cut.

ESSEX BALL BEARING

11 inch wheels, 6 1/4 inch reel, 5 blades (crucible steel, oil tempered), 1 5/16 inches wide. 18 inch, \$24.00; 20 inch, \$26.00.

PENNSYLVANIA

Pennsylvania, ball bearing, standard, 4 blades.

17 inch cut, \$30.00; 19 inch, \$33.00.

Pennsylvania, Jr., ball bearing, 5 blades.

17 inch cut, \$32.00; 19 inch, \$35.00

Lawn Trimmers. Each, \$7.50.

Horse Mowers. 35 inch and 38 inch. Prices on application.

THE CYCLONE SEEDER

These machines are adapted for sowing ground bone, ashes, fertilizers and all farm seeds that can be sown broadcast. The price of the seeder is saved in sowing the first six or seven acres. Full directions with each machine. Each, \$2.00.

The Unique Garden Roller.—Hardened artificial stone, manufactured by a patent process. Has a surface equal to iron. The frame is of wrought iron, neatly enamelled, with polished hardwood handle. Weight about 2 cwt.; size, 15 inches by 20 inches. English manufacture. Price, \$8.50.

Water Ballast Rollers. Iron Rollers.
Wooden Golf Rollers, etc.

GARDEN HOE

Does all other hoes will do, and more. It hoes, plows, lists, pulverizes, covers and cultivates.

Descriptive circular on application. Each 90c.; the pair, \$1.75.

CARTERS GARDEN TOOLS AND REQUISITES—Continued

Billhooks. Each, \$1.25.

PAP FOR PEEPS

PAP FOR PEEPS is all food, with no dirt to lower its quality nor grit to cheapen its value. Besides selected grains which are steam-cooked and mechanically pre-digested, Pap for Peeps contains the meat all little chicks require, and duplicates in composition the complete and varied diet of worms, bugs and rain-softened seeds which Baby Chicks would be provided with under ideal natural conditions. Nothing else will give your chicks such great life and vigor during the first few weeks, and ensure such steady growth throughout the months to come.

POULTRY-AIDE

Poultry-aide is an unequalled tonic and egg-maker. It contains many of the medicinal herbs, roots and seeds which nature provides to counteract disease. It is guaranteed to promote health and increase production. It will satisfy you or your money will be refunded.

2 lb. packages, 25c.; 25 lb. pails, \$2.50.

All Poultry Foods and Supplies are F.O.B. our warehouse.

BUCKEYE INCUBATORS

ARE GUARANTEED TO HATCH MORE CHICKS AND
BETTER CHICKS THAN ANY OTHER INCUBATOR

WOULD YOU BUY AN INCUBATOR if you *knew* that it would hatch every hatchable egg you put in it? If you could set your eggs in an incubator that was **GUARANTEED** to hatch *more chicks* and *bigger chicks* than any hen or incubator you ever saw—wouldn't it pay you to own that kind of incubator? The **BUCKEYE** is the most extraordinary incubator ever built. It's the only device ever invented that *time after time* produces a big, strong chick from every hatchable egg.

No. 14 Style E

Weight, crated for shipment..... 55 lbs.
Capacity 65 eggs. Price..... \$14.50

No. 14 is especially adapted for use by the small raiser. It has all the important features of the larger machines, such as visible thermometer, and the Buckeye heating and ventilating system. The temperature is easily regulated and the consumption of oil is low.

No. 16, Style E. Capacity 120 eggs; weight, crated for shipment, 85 pounds. Price \$26.00. This machine is the same as No. 14, except that it has a greater egg capacity and long legs instead of short ones.

No. 17, Style E. Capacity 210 eggs. Weight, crated for shipment, 125 pounds. Price \$36.00. Same as No. 16, except that it has greater egg capacity.

No. 17
Style E

210 Egg.
Price \$36.00

No. 15, Style H. Capacity 65 eggs. Weight, crated for shipment 75 pounds. This is a wonderful little hatcher and was designed for the raiser who wants the best, even in a small machine. The walls are all double and the equipment is the same as the larger machines. This incubator has long legs, which makes it more convenient to operate. It is a self-regulating in every sense, never fails, and is efficient and economical.

No. 15
65 Egg
Weight
crated 75
pounds

Price \$19.50

No. 1
Standard
120 Egg
Price \$36.00

No. 1 Standard has a capacity of 120 hen eggs, or 85 duck eggs. It is complete in every detail and is ready for immediate use. The weight, crated for shipment, is 100 pounds. This incubator is insurable and bears the Underwriters' label. An improved feature of all Standard incubators is the enclosed lamp. Equipped with oil or gas heater.

No. 2 Standard has a capacity of 175 hen eggs or 140 duck eggs is equipped with oil or gas heater, and is complete and ready for use. Weight, crated for shipment, 135 pounds. This machine is insurable and bears the Underwriters' label. Price \$42.50.

No. 3 Standard has a capacity of 250 hen eggs or 200 duck eggs, is equipped with oil or gas heater and is complete and ready for use. Weight, crated for shipment, 200 pounds. This machine is insurable and bears the Underwriters' label. Price, \$55.50.

No. 3
Standard
250 Egg
Price \$55.50

No. 4 Standard has a capacity of 350 hen eggs or 280 duck eggs Equipped with oil or gas heater and is ready for use. Weight, crated for shipment, 230 pounds. Insurable, and bears Underwriters' label. This machine is very convenient for the commercial raiser. Price \$67.50.

No. 5 Standard (Mammoth Standard). Capacity 600 hen eggs or 480 duck eggs. Outside dimensions 54 inches square. 36 inches high. Equipped with four egg trays, holding 150 eggs each. Double doors on front and back; oil or gas heater. Complete and ready for use. Bears Underwriters' label. Weight, crated for shipment, 325 pounds. Price, \$97.50.

Standard No. 5
600 Egg
Price \$97.50

BUCKEYE BROODERS

THE STANDARD COLONY BROODER

The Standard Colony Brooder will successfully brood 100 chicks or 1000. It is the simplest, safest and most economical brooder on the market. It cuts the cost of labor in half and reduces cost of operation. A poultryman can now handle 1000 chicks with about the same amount of work that he formerly took to raise 100.

**Standard Colony
Brooder No. 18**
Capacity 500 Chicks.
Self-feeding.
Self-regulating.
\$22.50.

BURNS ANY KIND OF FUEL

The Standard Colony will burn any kind of fuel—hard or soft coal, coke, charcoal, briquettes or gas. It is self-regulating. You simply have to adjust the regulator at the beginning of a day and then no further attention is required, as the fuel automatically feeds the fire until it is entirely burned out. It is guaranteed to burn more than 24 hours in any kind of weather.

SIMPLE TO OPERATE

No previous experience is necessary to operate a Standard Colony Brooder. The whole apparatus has but one adjusting nut, and it is only necessary to touch that once a season. Only attention required is to fill stove once a day.

CAN BE OPERATED ANYWHERE

No room is too large or too small for a Standard Colony Brooder. It can be operated in any room that is large enough to accommodate the hover and give room to move around. Can be handled with equal success in the largest barn or in the smallest colony house.

ABSOLUTELY FIRE PROOF

It is guaranteed to be fire proof and will not increase the cost of insurance. It is just as safe as any stove that burns coal or gas and cannot by any possibility set anything on fire.

CAN BE USED ANYWHERE

The Portable Brooder can be used anywhere—in the house, barn or out of doors. Easy to handle and easy to operate. No crowding of chicks, as there is always an abundance of heat no matter what the temperature outside may be. The Buckeye Portable Brooder is guaranteed to operate successfully in any temperature down to freezing.

GUARANTEE

The Standard Colony Brooder is guaranteed to do everything that any brooder on the market will do—and do it better—no matter what the other brooder costs.

**Standard Colony
Brooder No. 19**
Capacity 1000 chicks.
Self-feeding
Self-regulating
\$28.50.

Another illustration of the Standard Colony Brooder which shows the ease and simplicity of operating.

THE SECURITY PORTABLE BROODER

This brooder is all that the name implies—and more. It is the only lamp heated brooder ever invented that possesses every desirable qualification for the welfare of the little chicks. It is the only oil-burning brooder that provides every ideal condition which you know to be necessary to the health and growth of the chicks, and its construction is so simple that the operator cannot go wrong. There is nothing to adjust, nothing to get out of order, nothing to look after but the lamp—and that requires filling but once in 24 hours. Capacity 50 chicks, \$16.50

ABUNDANCE OF FRESH AIR AND HEAT

The Security Brooder furnishes an abundance of fresh air and heat at all times. Every particle of heat coming from the high power lamp is utilized to heat the interior of the brooder. The Security construction insures the highest degrees of efficiency and we guarantee the satisfactory operation of every brooder in any inside temperature down to freezing. The lamp is protected from the chicks by a galvanized wire guard extending from the floor to the overhead canopy. This keeps the lamp perfectly clean at all times and guards against interference from the chicks.

BUCKEYE PORTABLE BROODERS

These portable brooders are illustrated below. They have the lamp on the side instead of the center of the machine, which is considered by many to be more convenient. The Buckeye Portable has all the desirable features of the coal-burning brooder. It is guaranteed to raise more chicks and better chicks than any other oil-burner on the market, and is also guaranteed to furnish an abundance of heat in any temperature down to freezing. This brooder is absolutely free from all gases or odors, and there is always a good circulation of pure, fresh air. Under this system of brooding the chicks get a better and quicker start, and develop so rapidly that the customary "baby troubles" never have a chance.

Portable Brooder No. 22.
Diameter 30" Capacity 150
chicks. Price \$17.50.

Portable Brooder, No. 21
Diameter 22" Capacity 100
chicks. Price \$14.00

Portable Brooder, No. 20
Diameter 19" Capacity 60
chicks. Price \$10.50

THE BEST IN POULTRY SUPPLIES

THE BOSTON HOPPERS

With Improved Grids

These are the most satisfactory Hoppers. The hens can't waste the meal. This new Grid is smoother than the old style and lays flat on the feed. The bars are not wide enough for them to put their heads through, they just pick at the feed between the gratings. Close them up at night to keep the rats out.

They are made in two sizes. Small is 7 in. wide, called Beef Scrap Hopper, and large is 12 in. wide, called Dry Feed Hopper.

DIRECTIONS—The Hopper should be hung from hooks or nails driven into the wood work of the henhouse so that it will hang upright and secure, from two to four inches above the floor, according to the size of the fowl.

This Hopper is designed for either dry feed, meat, scraps, grit, shells or charcoal.

Small Size..... \$1.00
Large Size..... \$1.35

SPIRAL FEED TROUGH

For feeding wet or dry feed. Made with spiral wire protector making it impossible to scatter feed. Economical—made in chick and hen size.

No. 1—15 inches.... 45c. Each
No. 2—30 " 85c. "

GRIT AND SHELL BOX

For feeding grit, oyster shell, charcoal, &c. Saves feed and labour, keeps grit &c. before your fowls all the time. Made of heavy galvanized iron, and should last a lifetime. Can also be used as a Dry Food Hopper.

Small Size—1 Compartment... 50c.
Large Size—3 Compartments .. \$1.00

STRAIGHT FRONT DRY FEED HOPPER

For feeding dry mash, grain &c. Will not clog and feed cannot be wasted by fowls.

Price..... \$1.35 Each

CHICK SAVERS

For young chicks, chicks cannot get into the water and get wet.

Small Size..... 25c.
Large Size..... 45c.

AUTOMATIC GLASS JAR FOUNT

This appliance feeds water, grain, grit, &c., automatically. Easy to fill, cleans out easily. Made to be used with any mason jar. We do not furnish the jar.

Price..... 20c.

FEED AND WATER TROUGHS

Handy to hang on wall of chicken house, and keeps feed and water out of the litter.

Price..... 45c.

O.K. EXERCISER AND FEEDER

Keeps the fowls scratching, saves labour in feeding and means satisfied layers. Made of strong Galvanized iron and can be used wherever fowls are kept. Capacity 12 quarts of grain.

Price..... \$2.50

10 inch trough with grate..... 50c.
20 inch trough with grate..... 70c.

CHICK FEEDERS

Over the trough is a gable shaped grate which prevents chicks getting into the feed. Very popular.

WALL FOUNTAINS

Should be used wherever fowls are kept. They can be hung up on the walls of the house, thus preventing litter getting into the water. Can be easily cleaned. Made of strong galvanized iron.

1 quart size..... .75
1 gallon size..... 1.25
2 gallon size..... 1.60

DROP BOTTOM FOUNTAIN

In this style of Drinking Fountain, the pan which forms the trough from which the fowls drink is hinged at the back and fastened by a brass latch in front. The hood over the trough prevents falling dust and dirt from getting into the water; and when the bottom is turned back the inside of the fount can be easily cleaned out and kept in sanitary condition.

No. 1—2 quart..... \$1.50
No. 2—1 gallon..... 1.75
No. 3—2 " 2.00

ALUMINUM LEG BANDS

Made of aluminum, lig neat, strong, easily put on and wont come off. 20c. per doz.; 40 25c.; 90c. per 100.

CELLULOIL

Makes it easy to disti in seven colors. Price 25 \$1.25 per 100.

AL LEG BANDS

your flock from a distance, made doz.; 40c. for 25; 75c. for 50;

NEST EGGS

Made of a smooth substance, and closely resemble the real egg.

Each..... 5c. Per dozen..... 50c.
